WASTE MANAGEMENT AND RECYCLING ACCOUNT

Changes to Funded Programs

1. INTRODUCTION OF ZERO WASTE PLAN DEVELOPMENT SCHEME

In August 2006, the Waste Management Board oversaw the release of a discussion paper foreshadowing a requirement that all organisations wishing to access funds from the Waste Management and Recycling Account need to firstly develop, maintain and implement an approved Zero Waste Plan. This paper can be downloaded at <http://www.zerowastewa.com.au/communication/publications/wm/>

The State Government considers the adoption and implementation by local government of Zero Waste Plans to be a vital first step in facilitating the behavioural changes required to work towards zero waste in Western Australia. Zero Waste Plans will also aid in the collection of waste data as stakeholders demonstrate their progress towards achieving the outcome of zero waste.

The Department of Environment and Conservation has worked closely with local government representatives on the Zero Waste Plan Working Group to further develop the concept.

This new scheme is one of a number of schemes that will replace the former Resource Recovery Rebate Scheme, following the review of the Waste Management and Recycling Fund in September 2004. As other new schemes are developed, details will be published accordingly.

1.1 Principles of the Zero Waste Plan Development Scheme

The principle of the Zero Waste Plan Development Scheme is to assist local government with the preparation of Zero Waste Plans. The Scheme is designed to facilitate enhanced planning for municipal waste management and recycling by local governments and regional councils and to align these efforts with the State's vision of *Towards Zero Waste*.

1.2 Objectives of the Zero Waste Plan Development Scheme

An objective of the Scheme is to assist local government in Western Australia to move towards the vision of zero waste. Under this vision—

- All Western Australians will move towards a waste-free society.
- The Government is to promote a shift away from solely focusing on reducing the amount of waste disposed to landfill towards the management of the whole lifecycle of every product and its wastes, from creation to disposal.
- The prevention of waste will become the main focus.
- Waste prevention will be achieved through active decisions made to anticipate where the generation of waste begins, and to stop this from occurring.
- Everyone in the community has a role in preventing waste, being more efficient in the use of resources and in the management of waste.
- We must also continue to manage the wastes that are being created through recovery and responsible disposal.

A further objective of the Scheme is to encourage local governments to take a regional view of waste management and recycling and to develop collaborative approaches with neighbouring local governments to work towards the vision of Zero Waste in Western Australia.

1.3 Two Phase Release of the Scheme

The Scheme will include a financial incentive to work collaboratively with other local governments and to produce regional Zero Waste Plans. The Scheme will be split into two funding phases with the total cost of the Scheme being approximately \$3.1 million, which will be funded from the Waste Management and Recycling Account.

Phase 1 of the Scheme will include an initial funding arrangement with local governments and regional councils for the completion of an online data-gathering survey. Each local government will be allocated \$5000 to assist with costs associated with the completion of this survey.

Phase 2 of the Scheme will involve additional funding arrangements with local governments and regional councils to assist with costs associated with developing their Zero Waste Plans. Funding amounts will vary between local governments depending on whether they are metropolitan or non-metropolitan-based, a member of a regional council or are working collaboratively with neighbouring local governments. It is anticipated that the details of Phase 2 will be released later in the year. It is important for all local governments to note that Phase 2 will constitute a separate funding arrangement and will be Gazetted accordingly.

1.4 Funding for Phase 1 of the Scheme

In order to receive funding for Phase 1 of the Scheme each local government or regional council must submit an Application for Funding (Application) along with a valid claim for payment made out to the Department of Environment and Conservation in the form of a Tax Invoice. The form for the Application will be sent to each local government and regional council with information on how to apply.

Ministerial Conditions (**Conditions**) are imposed on the granting of each Application. The Conditions are published in this issue of the Gazette. The Conditions include completing and submitting electronically the 'Zero Waste Plan Development Scheme Phase 1 on-line Survey' accessible on (www.zerowastewa.com.au/zerowasteplans/survey).

1.5 Enforcement

Pursuant to section 110H(6)(a) any person or body who fails to ensure that fund monies are expended for the purposes of the Scheme and in accordance with the Conditions commits an offence the maximum penalty for which is \$5000.00.

Dated the 16th day of May 2007.

Approved by—

DAVID TEMPLEMAN MLA, Minister for the Environment;
Climate Change; Peel.

Old copies of the *Government Gazette*

State Law Publisher is in the process of scanning all *Government Gazettes* (back to the first one ever published in the 1840's) with the intention of adding the archived copies to our existing on-line service.

We are looking for **donations** of any copies (pre 1994) that are no longer required by clients and would be appreciative of any assistance you can offer in this undertaking.

The scanning process requires single pages, therefore we need to trim the spine off each gazette, which unfortunately ruins the gazettes for future use.

Our preference is for unwanted copies, however, if a client requires their gazettes returned, State Law Publisher will reprint and replace individual editions. If a bound copy is supplied and is to be returned we will reprint all gazettes and arrange to have them rebound for the client.

The benefits of having all the gazettes and indices on-line and searchable will be enormous. This service should remove the need for clients to retain hard copies and will free up valuable storage space.

Barring any unforeseen delays, it should take around a month to scan each year and then release on our website.

Please contact John Thompson on 9426 0010 if you can assist by supplying editions of the *Government Gazette*. For large quantities we will arrange for them to be collected.

CLAIMS FOR MISSING ISSUES

(SUBSCRIPTION ITEMS)

For a claim to be recognised as valid, written notification must be lodged at State Law Publisher, 10 William Street, Perth 6000 within 28 days of publication of the missing item.
