BUSH FIRES ACT 1954*Shire of Dandaragan***FIREBREAK ORDER 2007/2008**

Notice to all owners and/or occupiers of land in the Shire of Dandaragan.

Firebreaks

Pursuant to the powers contained in Section 33 of the above Act, you are hereby required on or before the 1 November 2007, to clear all inflammable materials and/or install firebreaks in accordance with the following, and thereafter to maintain the firebreaks clear of all inflammable material up to and including the 29 March 2008.

Rural Land

1. Clear of all inflammable material, firebreaks at least three (3) metres wide inside and within fifty (50) metres of all external boundaries of all improved and unimproved land owned or occupied by you. For the purpose of this section, all Road Reserves are to be taken as boundaries.
2. Where the bush on the land owned or occupied by you has been bulldozed, chained or prepared in any similar manner for clearing by burning (whether you intend to burn the bush or not), clear of all inflammable materials, firebreaks not less than twenty (20) metres wide immediately inside the external boundaries of the land on which bulldozed, chained or otherwise prepared bush is situated.
3. Where there is standing timber on land owned or occupied by you and it is intended to burn such timber, to clear of all inflammable material, firebreaks not less than six (6) metres wide immediately inside the external boundaries of the land on which the timber is standing.

Townsites

Pursuant to the powers contained in Section 33 of the aforementioned Act, for property owners within the townsites of Jurien Bay and Cervantes, you are hereby required on or before 15 November 2007, to clear all inflammable materials, install firebreaks and/or remove any fire hazards in accordance with the following, and thereafter to maintain the property clear of all inflammable materials up to and including the 29 March 2008.

Rural Residential/Special Use

The townsites of Badgingarra and Dandaragan plus areas such as Alta Mare, Jurien Bay Heights, Marinefields and Hill River shall comply with the aforementioned requirements on or before the 1 November 2007, and shall maintain the property clear of all inflammable materials up to and including the 29 March 2008.

Owners and/or occupiers of any land within the townsites of Dandaragan, Regans Ford, Badgingarra, Cervantes and Jurien Bay on all undeveloped and/or vacant properties shall comply with the following—

That within all townsites, on all undeveloped lots, that a two (2) metre wide firebreak is slashed around all boundaries of each lot and that all inflammable materials are removed from the property.

Council may from time to time recommend that all the townsite's undeveloped lots be totally slashed to reduce the fire hazard on the blocks.

All properties, which have buildings or structures upon the property, shall remove all/any inflammable materials from the property.

Inflammable material is defined for the purpose of this notice to include bush, dry grasses, timber boxes, cartons, paper and similar flammable materials, rubbish and any combustible matter, but does not include green standing trees or growing bushes and plants in gardens or lawns.

General

If, for any reason, it is considered impractical to comply with the requirements of this notice, you may apply in writing to the Council or its duly authorised officer by no later than the 13 October 2007, for permission to provide alternative fire hazard reduction within the property and include details outlining these alternatives. If Council, or its duly appointed officer, does not grant such permission, you shall comply with the requirements of this notice.

1. Persons who fail to comply with the requirements stated in this order may incur penalties, either by way of infringements or prosecutions, as defined in the Bush Fire Act 1954 Regulations. In addition, should property owners fail to comply with this order, Council can, at any time *after* the specified dates, enter the property and carry out the required work, where the owner(s) of the property will be liable for all penalties and costs incurred.
2. If the requirements of this order are carried out by burning, such burning must be carried out in accordance with the relevant provisions of the Bush Fire Act.
3. The requirements of this notice are considered to be minimum standard of fire prevention to protect not only individual properties, but also the district generally. In addition to this order, the Shire of Dandaragan may issue separate special orders on owners or occupiers if a particular fire hazard removal is deemed necessary.
4. The Council *no longer* installs firebreaks for ratepayers. Council recommends the owner(s) of vacant properties contact local contractors as soon as possible to ensure the requirements of this notice are carried out.

Dates to Remember**Restricted burning period**

19th September to 31st October

each year (inclusive)

15th February to 29th March

each year (inclusive)**Prohibited burning period**

1st November to 14th February

each year (inclusive)

A permit to burn must be obtained during the Restricted Burning period. Permits are generally subject to a number of conditions but will NOT be issued for burning on Sundays or Public Holidays, unless approved by the Chief Bush Fire Control Officer.

The above dates are subject to variation and any alterations will be published in a local newspaper circulating in the district.

The firebreak notice previously published in the *Government Gazette* No 152 on 1 September 2006 is hereby revoked.

By Order of the Council,

CLINTON STRUGNELL, Chief Executive Officer.

Combined State Waters Areas**Area L06-10 with T06-1**

These areas comprise blocks described below which straddle the baseline dividing the Petroleum Act 1967 from the Petroleum (Submerged Lands) Act 1982.

Despite that two statutes are involved, only a single combined application (proposing a unified work program) is necessary. However the application fee in this instance is \$7800.00.

While two permits will be issued to the successful applicant, those permits will, as far as the legislation allows, be dealt with as one.

While these release areas interface the Territorial Baseline and/or three nautical mile limit of coastal waters, they are captured to the AMB Version 2 2006 dataset.

APPLICATION DETAILS

Central to any application made is the program of work proposed for each of the years of the six year term. Applications are to be made in accordance with Section 31 of the Petroleum Act 1967 and Section 21 of the Petroleum (Submerged Lands) Act 1982 as appropriate. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

Applicants should also make themselves aware of the existence of any areas, which have the potential to restrict exploration activities eg, National Parks, Nature Reserves, Marine Parks, World Heritage Areas, Conservation Reserves, Defence Areas and Mining Titles.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister. In this regard, it should be noted that Government policy, at least, is such that petroleum extraction from within National Parks, Nature Reserves and access to Conservation Estates should not be presumed.

In respect to offshore areas, impacts on fishing activities should also be considered.

Any applications over the above onshore areas may be subject to the provisions of the Commonwealth Native Title Act 1993 and applicants should be prepared to negotiate with Native Title parties pursuant to the right to negotiate provisions of the NTA. It should, however, be noted that the right to negotiate does not apply offshore.

Applicants should also be aware that all the areas available for application are subject (at least in part) to Native Title claims. Plans showing these claim boundaries are available from the Department of Industry and Resources.

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum and Royalties Division, Department of Industry and Resources by contacting the Senior Titles Officer (Releases) on (08) 9222 3130.

LODGEMENT OF APPLICATIONS

Applications, together with supporting data should be submitted in the following manner and accompanied by fee of \$3,900.00 (non-refundable) (or \$7,800.00 for combined areas L06-10 & T06-1 (non-refundable) payable to the Department of Industry and Resources through an Australian Bank or by Australian bank cheque, should be enclosed in the envelope or package and addressed to—

Director, Petroleum and Royalties Division
Department of Industry and Resources
Mineral House
100 Plain Street
EAST PERTH WA 6004

Attention: Petroleum Applications Receiving Officer

The following special instructions should be observed—

- the application should be sealed and clearly marked “**Application for Exploration Permit—Commercial-in-Confidence**”.
- Unless delivered by hand to the Petroleum Applications Receiving Officer the sealed application (as described above) should be enclosed in a plain covering envelope or package and forwarded to the above address.

Confirmation of receipt of applications (received and delivered by hand) will be issued by the Petroleum Applications Receiving Officer.

This application needs to observe the closing time and date as published in the release package. Applications received after the closing time and date will not be considered.

(No. 14 of 2007)

I, Nina Lyhne, WorkSafe Western Australia Commissioner, hereby grant an exemption to Downer EDI Engineering Power Pty Ltd from the requirements of regulation 3.117(1) of the Occupational Safety and Health Regulations 1996 in relation to the requirement to hold a class 1 demolition licence to dismantle tower number 49 on the MU—SHO 91 line. I further grant an exemption from the requirements of regulation 3.118(a) of the Occupational Safety and Health Regulations 1996 in relation to the requirement to ensure that any Class 1 demolition work is done by a holder of a class 1 demolition licence during the dismantling of the above-mentioned tower.

This exemption is subject to the following conditions—

- The demolition work is carried out in accordance with Australian Standard AS2601-2001.
- All work is carried out in accordance with requirements under the Occupational Safety and Health Regulations 1996 (other than the above-mentioned regulations) and requirements and instructions of Western Power.
- A safe work plan and JSAs are developed for the work.
- All workers are instructed on the safe work plan and relevant JSAs, before any work commences.
- All workers hold relevant certificates of competency for their required work.
- There is adequate supervision for the work.
- An adequate earthing system is fitted to crane while it is in use.

This exemption is a once off exemption for the dismantling of the above-mentioned tower and it expires on 31 October 2007
