PETROLEUM AND GEOTHERMAL ENERGY RESOURCES ACT 1967

VACANT GEOTHERMAL AREA (MAINLAND) RE-RELEASE

Invitation for Applications for The Grant of Geothermal Exploration Permits

Release date: 20 March 2009

Closing Date: 25 June 2009

Applications are invited for the grant of geothermal exploration permits for available mainland vacant areas, within the onshore Perth Basin and adjacent region under the jurisdiction of the *Petroleum and Geothermal Energy Resources Act 1967* as identified on the attached plan.

Applications will be received up until 4.00 pm on Thursday, 25 June 2009. Applicants need to observe the closing time and date. Any applications received after the closing time and date will not be considered.

APPLICATION DETAILS

This re-release is limited to land areas and does not include any coastal waters or islands.

For geothermal exploration permits, each application must identify one of the predetermined 10' x 10' areas (comprising 4 contiguous 5' x 5' graticular blocks) as outlined by grid reference on the release map. A single application may not include blocks from outside the predetermined area, however, separate applications for multiple areas are allowed.

Applicants will need to specify the grid reference number from the attached release map identifying the 4-graticular-block area applicable to each application. Details of the Petroleum 1:1 000 000 map sheets and graticular block numbers are available on the Release Area CD or from the Department's website www.dmp.wa.gov.au/6060.aspx.

Geothermal exploration permit applications shall specify a clear and concise work program and rationale (minimum number of wells to be drilled and their depth, line kilometres of seismic, geophysical surveys, etc.) to be carried out and estimated expenditures for each of the six years.

This re-release requires that a minimum of one shallow well (i.e. approximately 400 metres) will need to be drilled during the first two years of the geothermal exploration permit.

Central to any application made is the program of work proposed for each of the years of the six year term. Applications are to be made in accordance with Section 30(1) of the *Petroleum and Geothermal Energy Resources Act 1967*. Consideration of an application for the grant of a geothermal exploration permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program, the applicant's technical and financial ability to undertake the work, and will need to specify the depth of any well and provide geological rationale. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

Applicants should also make themselves aware of the existence of any areas which have the potential to restrict exploration activities e.g. National Parks, Nature Reserves, Petroleum Titles, Mining Titles, World Heritage Areas, and Conservation Reserves.

Applicants will also need to be aware of the requirements of the *Rights in Water and Irrigation Act 1914*.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister.

An information package on the release area detailing the criteria for assessment of applications and the conditions to apply following the award of a geothermal exploration permit, and including a plan

of the release area and an application proforma, is available on CD. Copies of the CD can be obtained from the Petroleum and Environment Division, Department of Mines and Petroleum by contacting the Titles Officer (Releases) on (08) 9222 3106.

LODGEMENT OF APPLICATIONS

Applications, together with supporting data, should be submitted in the following manner and accompanied by fee of \$3,900.00 per application area (non-refundable) payable to the Department of Mines and Petroleum through an Australian Bank or by Australian bank cheque.

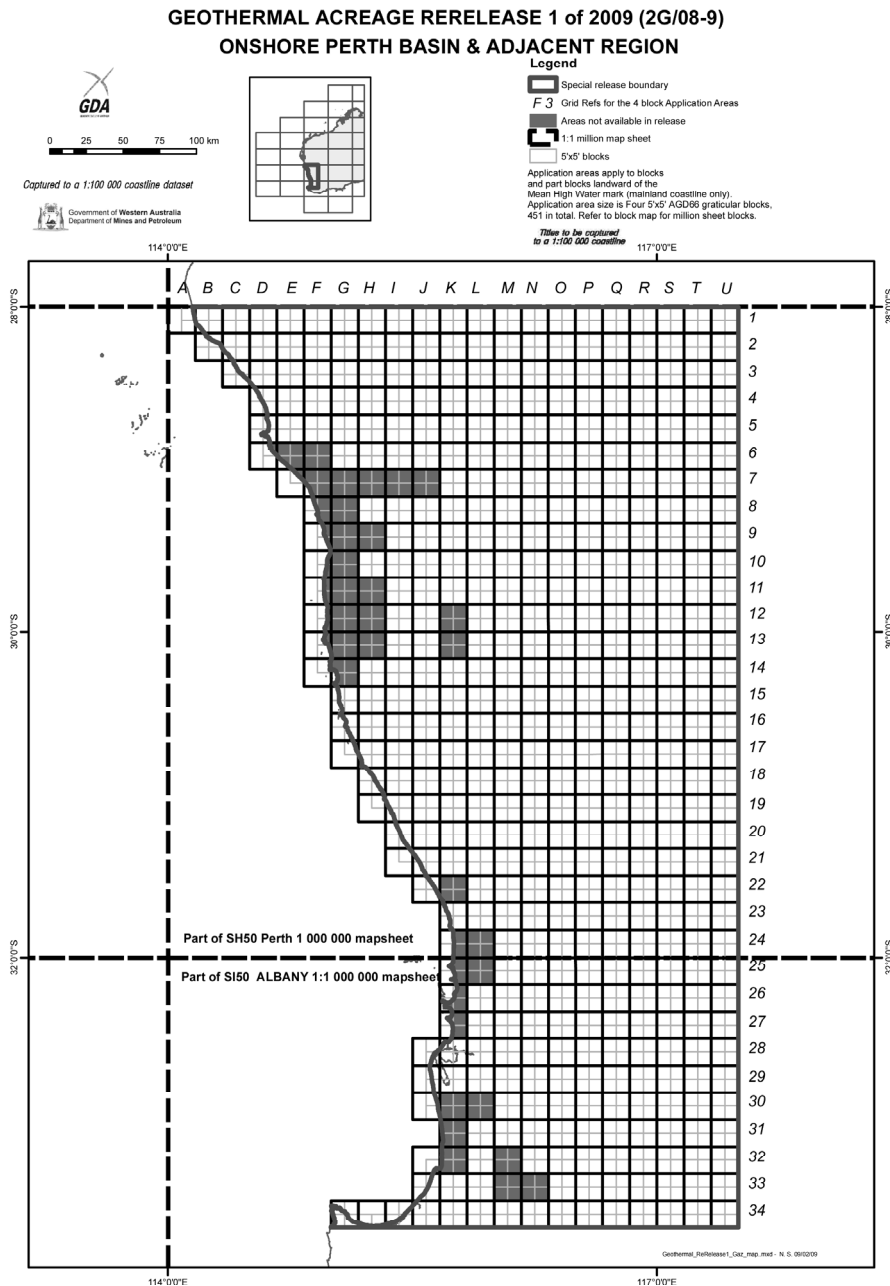

The following special instructions should be observed—

- The application should be sealed and clearly marked **“Application for Geothermal Exploration Permit—Commercial-in-Confidence”**.
- Unless delivered by hand to the Geothermal Applications Receiving Officer, the sealed application (as described above) should be enclosed in a plain covering envelope or package and forwarded to the following address—

Executive Director, Petroleum and Environment Division
 Department of Mines and Petroleum
 Mineral House
 100 Plain Street
 East Perth WA 6004

Attention: Geothermal Applications Receiving Officer

Confirmation of receipt of applications (received and delivered by hand) will be issued by the Geothermal Applications Receiving Officer.
