Applications are to be made in accordance with Section 31 of the *Petroleum and Geothermal Energy Resources Act 1967*. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program, and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Applicants should note that it is mandatory that the minimum work program proposed in each year of the exploration permit is stated precisely to avoid any ambiguity. The proposed work program should not include contingent work. Specific details are available from—

1. Criteria for assessment of applications for the award of petroleum exploration permits
2. Permit conditions and permit administration
3. Land Access Introduction for petroleum titles
4. Administration of petroleum titles

Where there is more than one applicant to the application, the percentage participating interest of each party to the application is to be supplied. This is to include evidence that a satisfactory settlement has been, or can be; reached on a Joint Operating Agreement (copy of Heads of Agreement dealing will generally suffice).

Applicants should also make themselves aware of the existence of any areas which have the potential to restrict exploration activities, e.g., National Parks, Nature Reserves, Marine Parks, World Heritage Areas, Conservation Reserves, Defence Areas and Mining Titles.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister. In this regard, it should be noted that Government policy, at least, is such that petroleum extraction from within National Parks, Nature Reserves and access to Conservation Estates should not be presumed.

Any applications over the above onshore areas may be subject to the provisions of the Commonwealth *Native Title Act 1993* and applicants should be prepared to negotiate with Native Title parties pursuant to the right to negotiate provisions of the NTA.

Applicants should also be aware that onshore areas available for petroleum application are subject (at least in part) to Native Title claims. Plans showing these claim boundaries are available as part of the release package.

**RELEASE AREA L08-9—SPECIAL ACCESS CONSIDERATION**

It should be noted that the Waukarlycarly Land System contains a density of Aboriginal cultural heritage sites and site complexes. The Martu People maintain and protect these sites through traditional law and custom. In recognition of the significance of this area the DMP will be prohibiting access to graticular blocks 6101, 6102, 6103, 6173, 6174 and 6175 on Oakover River 1:1000 000 Mapsheet and pursuant to Section 91B of the *Petroleum and Geothermal Energy Resources Act 1967* (WA) (Refer to map in the release package).

Details of known heritage sites are available on website: <http://www.dia.gov.au>

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum and Environment Division, Department of Mines and Petroleum by contacting the Petroleum Applications Receiving Officer on (08) 9222 3106.

**LODGE MENT OF APPLICATIONS**

Applications, together with supporting data, should be submitted in the following manner and accompanied by fee of \$4,064.00 (non-refundable) payable to the Department of Mines and Petroleum through an Australian Bank or by Australian bank cheque.

The following special instructions should be observed—

- The application should be sealed and clearly marked “Application for Petroleum Exploration Permit—Commercial-in-Confidence”.
- Unless delivered by hand to the Petroleum Applications Receiving Officer, the sealed application (as described above) should be enclosed in a plain covering envelope or package and forwarded to the following address—

Executive Director, Petroleum and Environment Division  
 Department of Mines and Petroleum  
 Mineral House  
 100 Plain Street  
 EAST PERTH WA 6004

*Attention: Petroleum Applications Receiving Officer*

Confirmation of receipt of applications (delivered and received by hand) will be issued by the Petroleum Applications Receiving Officer.

This application needs to observe the closing time and date as published in the release package. Applications received after the closing time and date will not be considered.
