PLANNING AND DEVELOPMENT ACT 2005
SCHEME AMENDMENT AVAILABLE FOR INSPECTION
APPROVED LOCAL PLANNING SCHEME AMENDMENT

City of Canning

Town Planning Scheme No. 21—Amendment No. 27

Ref: TS/1/21—27

It is hereby notified for public information, in accordance with Section 75 of the *Planning and Development Act 2005* (as amended) that the Hon Minister for Planning approved City of Canning Town Planning Scheme Amendment No. 27 on 5 October 2010 for the purpose of modifying Town Planning Scheme No 40 by—

1. Deleting the Land Use Map and Supplementary Map;
2. Replacing the Scheme Map and the Development Guide Map with the maps as shown in Appendix 2 and 3 of the Scheme Amendment Report.
3. Amending Scheme Text in accordance with the text as shown in Appendix 5 of the Scheme Amendment Report.

GIUSEPPE DELLE DONNE, Mayor JP.

M DACOMBE, Chief Executive Officer.

PLANNING AND DEVELOPMENT ACT 2005*City of Canning*

TOWN PLANNING SCHEME NO. 21

QUEENS PARK/EAST CANNINGTON GUIDED DEVELOPMENT SCHEME

C1—Citation

This Town Planning Scheme may be cited as City of Canning Local Planning Scheme No. 21—Queens Park/East Cannington Guided Development Scheme (hereinafter called “the Scheme”).

C2—Responsible Authority

The Authority responsible for enforcing the observance of this Scheme is the City of Canning (hereinafter called “the Council”).

C3—Maps

The following maps are attached to and form part of the Scheme—

Scheme Map

Development Guide Map

C4—Scheme Area

The Scheme applies to the whole of the land contained within the inner edge of a broken black line on the Land Use Map and the Scheme Map (hereinafter referred to as “the Scheme Area”).

C5—General Objects

The general objects of the Scheme are—

1. To facilitate and encourage the progressive subdivision and development of the land within the Scheme Area for residential and recreational purposes.
2. To co-ordinate and control development in the Scheme Area.
3. To plan and make provision for suitable new roads within the Scheme Area.
4. To make provision for proper drainage of those parts of the Scheme Area which require drainage.
5. To make provision for the creation of drainage reserves and easements.
6. To make provision for land to be used for public open space and recreational purposes.
7. To make provision for such other matters as are necessary or incidental to the implementation of the Scheme.

C6—Subdivision and Development to be in Conformity with the Development Guide Map

An owner of land within the Scheme Area who desires to subdivide or develop the owner's land either alone or in conjunction with other owners must submit a plan of the proposed development to the Council and if the proposals involve subdivision the owner must submit to the WAPC a plan of subdivision in conformity with the Development Guide Map with such modifications as are permitted by the Council under Clause 8 thereof.

C7—Subdivision

For the purposes of this Scheme subdivision will refer to any form of subdivision of the land whether it is Green Title; Survey, Vacant Lot or Built Strata but does not include the amalgamation of lots.

C8—Method of Carrying Out Objectives of the Scheme

The Scheme Map defines the area to which the Scheme applies.

1. The Development Guide Map is a guide for the development of the Scheme Area showing the location of scheme roads subdivisional roads, public open space, main drains and compensating basins, and forms an overall plan of subdivision for the Scheme Area.
2. As and when owners of land within the Scheme Area subdivide their land such subdivision shall be in accordance with the Development Guide Map and must be capable of forming part of the overall plan of subdivision for the Scheme Area, subject to the following subclauses 4 and 5.
3. The Development Guide Map is a guide to an acceptable method of development within the Scheme Area. The Western Australian Planning Commission (“WAPC”) may, on the recommendation of Council, permit modifications to the design shown on the Development Guide Map but no modification to the design shall be permitted if in the opinion of the Council it would impede the intent or objectives for development of the Scheme Area.
4. Council shall make no recommendation to the WAPC without first permitting any persons or public authorities whose interests are likely to be affected by any such modification an opportunity to make submissions to the Council and for Council to have regard for those submissions.

C9—New Road Network

The Development Guide Map indicates an acceptable New Road Network within the Scheme Area. The Western Australian Planning Commission (“WAPC”) may, on the recommendation of Council, permit variations to the road network design shown on the Development Guide Map subject to clause 8 of this Scheme, so long as such variation would not impede the intent or objectives for development within the Scheme Area.

C10—Obligations under the Scheme for Landowners to Contribute Towards the Construction Costs of New Roads

Subject to the following clauses all new roads shall be constructed and drained at the expense of the owners of the land in which such roads are situated and each owner shall when subdividing the owner's land make the land available for the said roads and pay the costs of the construction and drainage of the roads within the owner's land. New Roads will be one of either—

- 1(a). For the purpose of this Scheme, the term "Scheme Road" means a road identified in the Development Guide Map as such, and the creation of which will attract payment by the Scheme, for the land required for the Scheme Road.
- 1(b). For the purpose of this Scheme, the term "Subdivisional Road" means roads identified in the Scheme Map as such, and is intended to be created by the subdivision *process* without attracting payment or compensation by the Scheme, City or the State.
2. Subject to clause 11, in cases where the land for the purpose of a scheme road is owned by the Council, the cost of construction and drainage of that scheme road shall be borne by the owners of the adjoining land. Where such owners are unable to agree upon the proportion of the costs payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in manner hereinafter provided.
3. Instead of, or in addition to, requiring payment at the time of clearing conditions of subdivision approval, the Council may require payment by no less than 3 months' notice in writing, and payment is to be made within the time stipulated in the notice.
4. The land of the adjoining owners, within the Scheme Area, is charged with the obligation to make the payment provided for in this clause.

C11—Obligations under the Scheme for Council to Contribute Towards the Construction Costs of New Roads

The Council shall pay one half of the cost of construction and the drainage of the section of any road which abuts public open space or is shown on the Scheme Map as being a Scheme Road (**orange**) and the owner's liability in respect thereof shall be reduced accordingly provided that—

1. This provision does not apply to the end alignment of a cul-de-sac road if that is the only part of the road which abuts the public open space.
2. Should the location of the public open space be changed or cancelled the Council's liability under this clause shall be transferred to the new site or cancelled as the case may be.
3. Where a road to which this clause applies has been constructed by or on behalf of an owner the Council's contribution shall be one half of the amount the Council considers to be a fair and reasonable cost of the construction and drainage of the road.

C12—Compensation: New Roads

If an owner subdivides the owner's land and if the owner or a predecessor in title of the owner has claimed or been paid compensation by reason of the resumption by the Council of land for a new road, then before the WAPC endorses its approval on a deposited plan for the subdivision, the owner is to release the Council from liability for the compensation claimed, or repay to the Council the amount of compensation paid by the Council to the owner or the owner's predecessor in title, as the case may be.

C13—New Roads, Pedestrian Accessways and Footpaths

The Council may construct and drain any new roads and acquire the land necessary for that purpose. If the Council does so prior to the subdivision of the lands adjoining such road the costs of the construction and drainage of the said road and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by each respective owner of land in accordance with the foregoing provisions upon the final approval of the WAPC to the subdivision of the owners land or after having been served with not less than 3 calendar months' notice from the Council calling upon the owner to make such payment whichever first happens.

C14—Drainage

The main drainage lines and compensating basins shown coloured blue and light blue on the Development Guide Map are required to provide proper drainage to the Scheme Area. The said drainage facilities are shown in approximate positions only and may be varied to integrate with final subdivisional and drainage design.

C15—Land Acquisition for Drainage Purposes

1. The Council may acquire such land as it considers necessary for drainage services and may set aside land for drainage sumps and compensating basins and other works. The Council will not acquire any land for drainage which is held by the Water Corporation by any tenure or vesting.
2. The Council is deemed to have met the objectives of acquiring land for drainage/compensating basin purposes under the Scheme where the Council has either acquired the land, or there is a management order over that land for the purpose of drainage or the land is held in ownership by the Water Corporation for the purpose of drainage.

C16—Land Acquisition for Public Open Space Purposes

1. It is intended that the land shown on the Development Guide Map as public open space shall be made available for that purpose at such time as the lot on which the public open space is shown is subdivided, or as acquired by the Council and in accordance with clause 16 of this Scheme.
2. Subject to the next succeeding clause the Council may as and when it thinks fit acquire the land shown on the Development Guide Map as public open space or any part or parts thereof either by purchase exchange or resumption or partly by one method and partly by any of the others.

C17—Public Open Space Contribution by Owners of Land within the Scheme Area

1. Subject to subclauses (2), (4) and (5) of this clause, each owner when subdividing the owner's land shall contribute towards public open space in the following manner—

- (a) So much of the owner's land as is shown on the Scheme Map as public open space is to be vested in the Crown free of cost, or is to be transferred to the Council for an unencumbered estate in fee simple, free of cost.
- (b) If no part of the owner's land is shown as public open space on the Scheme Map, the owner shall pay to the Council 5.0 per centum (5.0%) of the value of the land the subject of the subdivision.
- (c) If the value of the land to be transferred to the Council pursuant to paragraph (a) of this subclause is greater or less than 5.0 per centum (5.0%) of the value of the land the subject of the subdivision the owner shall receive from or pay to the Council the difference in such value as the case may be, so as to achieve a 5.0% value contribution.
- (d) If an owner subdividing the owner's land is also the owner of other land within the Scheme Area not the subject of the proposed subdivision referred to in this clause and such other land or part thereof is shown as public open space on the Scheme Map the owner may if the Council so agrees transfer to the Council the land shown as public open space on the Scheme Map or an agreed part thereof (hereinafter referred to as "the second POS land") and the value of the second POS land so transferred shall be credited against the amount payable by the owner to the Council under paragraph (b) or (c) of this subclause 16(1) and for the purposes of this paragraph (d)—
 - (i) the second POS land shall be valued as at the date upon which the owner offered to transfer it to the Council or as at the date upon which the land adjoining it or adjoining the open space of which it forms part was first subdivided for residential use whichever produces the lower value;
 - (ii) if the value of the land transferred to the Council under paragraph (a) of this subclause and under this paragraph (d) is greater than 5.0 per centum (5.0%) of the value of the owner's land being subdivided, the owner may elect that instead of receiving a payment under paragraph (c) of this subclause the amount of the excess shall be credited without interest against the amount which would be payable by the owner on the subsequent subdivision of any other land owned by the owner within the Scheme Area;
 - (iii) upon the subdivision of the land of which the second POS land forms part the provisions of this clause shall be applied on the basis that the second POS land does not form part of and never formed part of the land the subject of that subdivision.

2. For the purposes of this clause, other than the circumstances in but excluding paragraph (d) of subclause (1), the value of any land shall be assessed as at the date of valuation or at a date not less than 3 months prior to the Council issuing a letter of subdivision clearance to the **WAPC**, whichever is the later.

3. Were a landowner has entered into a legal agreement with the City to defer contribution towards public open space, regardless of the date of that agreement, the rate of contribution payable towards public open space will be the rate of contribution applicable under this Scheme.

4. For the purpose of this clause, where the Council is of the opinion that the proposed subdivision will not increase the residential density of a development, or where the subdivision is required as a prerequisite to rezoning of land for purposes other than residential, the Council may, subject to approval by the **WAPC**, waive wholly or partially the requirement for public open space contribution under this clause. The provisions of this clause may be applied retrospectively.

5. If any land presently proposed to be subdivided—

- (a) Is part of a former landholding that was previously subdivided; and
- (b) upon that previous subdivision a portion of the landholding was provided free of cost for public open space then the area given up for public open space on that previous subdivision may be apportioned over the whole of the former landholding, and the land presently proposed to be subdivided or developed in that case shall only be required to make further contribution to public open space under this Scheme to the extent that the apportionment of previously provided public open space is less than 5.0% in value of the area of the land presently proposed to be subdivided or developed.

6. If there is any doubt as to whether any land presently proposed to be subdivided or developed is entitled to the concession in relation to public open space referred to in the preceding subclause, the onus of proving the elements of the entitlement to the satisfaction of the Council shall lie upon the person asserting it. If there is any difference or dispute between the Council and a landowner the issue shall be referred to the **WAPC** to make a final determination.

7. In making a final determination for the purpose of the preceding subclause, the intention that land in the Scheme Area zoned Residential or City Centre (current or amended to) under the City of Canning Town Planning Scheme 40 should be subject to a contribution of 5.2% of the land area for public open space free of cost to the City or the Crown, shall be of paramount importance.

C18—Public Open Space Fund

1. For the purposes of the Scheme the Council shall establish a special Public Open Space Trust Fund (to be known as the "Scheme 21 Public Open Space Trust Fund").

2. All moneys received by the Council in respect of public open space under this Scheme shall be paid into the Scheme 21 Public Open Space Trust Fund.

3. The Council shall apply moneys standing to the credit of the Scheme 21 public open space trust fund in repaying any loan monies or finance made available by it and interest thereon expended on the acquisition and development of public open space in the Scheme Area.

4. Where the disposal of land transferred to the Council as Public open space occurs, the proceeds of the sale of such land shall be paid into the Scheme 21 Public Open Space Trust Fund.

5. In the event of the moneys standing to the credit of the Scheme 21 Public Open Space Trust Fund being insufficient to repay the said loan and other moneys and interest the Council shall repay the balance thereof from its general fund.

6. In the event of the moneys in the Scheme 21 Public Open Space Trust Fund being greater than the amount necessary to repay the said loans and other moneys and interest the balance thereof shall be applied by the Council in further improvements to Public open space within the Scheme Area.

C19—Payment of Cash for Public Open Space Contributions

If cash is required to be paid by an owner in respect of a Public Open Space contribution pursuant to clause 16, the payment is to be made—

- (1) Immediately prior to the issuing by the Council of clearances of those conditions of subdivision approval required to be cleared by it; or
- (2) Within 3 months after the date on which the Council gives notice to the owner requiring payment, whichever occurs first.

C20—Scheme Costs

The costs or estimated costs of the following items are hereinafter referred to as the Scheme Costs—

1. One half of the administration costs and other expenses which the Council is required to meet in order to implement and complete the Scheme. The term “administration costs”, without limiting its generality, includes all legal costs, litigation costs, planning costs, payments to planning consultants and other professional consultants and valuation costs.
2. The cost of the acquisition of so much of the land shown on the Scheme Map as land required for Scheme purposes (**Scheme Roads and Drainage**) as is necessary for the implementation of the Scheme.
 - (a) Such costs as relating to road construction (including drainage) where either a Scheme Road or Subdivisional Road abuts Public open space as per clause 11 of the Scheme.
 - (b) All compensation payable and all costs and expenses of determining and settling compensation.
 - (c) All other costs and expenses which the Council is required to meet in order to implement and complete the Scheme.

C21—Payment of Scheme Costs

1. For the purpose of this clause the payment of Scheme Costs refers to privately owned land within the Scheme Area referred to in Appendix “A”—“Land Required to Pay Scheme Costs” of this Scheme, and shall be indicated on the Development Guide Map as being those lots marked with a green dot.

2. Any land referred to in Appendix “A”, shall be required to contribute to the Scheme Costs.

3. Each owner of land referred to in Appendix “A” shall, prior to the final approval by the WAPC of the subdivision of the owner’s land or after having been given not less than 3 calendar months’ notice from the Council, whichever first occurs, pay to the Council an amount which bears the same proportion to the total Scheme Costs as the area of the owner’s land in Appendix “A” bears to the total area of land in Appendix “A”.

C22—Estimate of Scheme Costs

Scheme costs are to be reviewed annually by Council on the following basis—

1. Scheme costs (roads and drainage) until they have been paid, are to be reviewed annually by the Council’s Director of Engineering and Technical Services and are to be determined on the estimated cost as if the Council was to undertake those works, in accordance with the best and latest information available to the Council;
2. Those costs as identified under clause 20(1);
3. The estimated costs of acquiring such land (including valuation costs) as identified under clause 20 (2) (a), (b) and (c);

C23—Land Owned by the Council

All or any of the land now owned or subsequently acquired by the Council within or near the Scheme Area may be used by the Council for any purpose appropriate to the Scheme (and the Council has all the powers of an owner in respect thereof) and if such purpose is one for which an owner is required to make land available or for which land may be acquired by the Council hereunder the Council shall be compensated for the value of the land so used.

C24—Method of Valuation

1. Where it is necessary to ascertain the value of any land for the purpose of the Scheme, the valuation is to be made by a valuer in the office of the Valuer General or by a licensed valuer in private practice appointed by the Council. The valuation methodology shall be as set out in the following subclauses of this clause.

2. The date of valuation shall be the date stipulated in the clause of this Scheme which provides for the valuation, and if no date is stipulated or indicated, shall be the date on which the valuation is carried out.

3. Unless provision is made in this Scheme to the contrary, where a portion of land is to be valued as in the case of a cash-in-lieu of public open space contribution, the value of the portion is to be such percentage of the market value of the land of which the portion forms part as the area of the portion bears to the area of that land.

4. The market value of any land is to be determined—

- (a) At the cost of the owner required to make any payment or contribution;
- (b) On the basis that there are no buildings, fences or other improvements of that nature on the land, or any other improvements including subdivisional works on or adjacent to the land;
- (c) On the assumption that any rezoning necessary for the purpose of the subdivision has come into force;
- (d) On the basis of comparable sales evidence drawn from the district of the City of Canning or from the district of any adjoining local government, but not otherwise.

5. Where a hypothetical subdivision process is undertaken for the purpose of a valuation under this clause—

- (a) The owner is assumed to be responsible for the whole of the cost of construction and drainage of any road located within that owner's land, save for any portion of road in respect of which the Council or the Scheme is liable under clause 11.
- (b) The Scheme is assumed to be responsible for the provision of land for a Scheme Road, and the value of the land for a Scheme Road in any hypothetical subdivision is to be ascertained on a pro rata basis by reference to the value ascertained for the balance of the land in the hypothetical subdivision, and added back to that value.
- (c) The owner is assumed to be responsible for providing free of cost the land required for any road other than a Scheme Road.

6. If the Development Guide Map depicts a road other than a Scheme Road passing through land to be valued, the valuation must assume that the subdividing owner would contribute the land for that road free of cost and would pay the cost of construction including the location of all necessary services in the road reserve. If the Development Guide Map depicts a Scheme Road passing through land to be valued, the valuation must assume the land for the Scheme Road would be provided by and at the expense of the Scheme and the owner would be entitled to compensation for the land required based on the per square metre value determined for the remaining land in the hypothetical subdivision.

7. The amount to be paid or allowed to an owner for land required for any Scheme purpose is the value ascertained in accordance with the value ascertained in accordance with this clause, plus an additional 10% of that value representing the profit that might have been obtained from development of that land which the owner is forced to forgo.

C25—Objection to Valuation

If an owner objects to the value so determined he may give written notice of such objection to the Council within 28 days after having been informed of the value or revised value. If the valuer does not agree to change the value to a figure acceptable to the owner the value shall be determined by arbitration.

C26—Costs of Valuations

If a valuation made by the valuer is changed as the result of an objection the valuer may reconsider the values placed on other lands and make such revaluations as he considers just and equitable. The owners affected by such revaluation shall forthwith be notified of any change in value.

C27—Valuations

When it becomes necessary to make a valuation for the purpose of calculating a cash payment in respect of public open space or otherwise by reason of an application for consent to a subdivision, the costs of the valuation shall be paid by the person making the application.

C28—Arbitration

Any dispute or difference which by the terms of this Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in manner provided by the *Arbitration Act 1895* or any statutory modification thereof for the time being in force and if the parties fail to agree upon a single arbitrator he may be nominated by the President for the time being of the Law Society of Western Australia.

C29—Powers and Authorities of Council

In carrying out the provisions of the Scheme the Council has the following powers and authorities in addition to any others conferred under the City's Zoning Scheme or any Act—

1. To enter and inspect any land within the Scheme Area.
2. To make agreements with the owners or occupiers of any land within the Scheme Area, in respect of any matters affecting the Scheme.
3. To enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme Area.
4. To enter into agreements with the Crown and any department of the State with reference to the carrying out of any of the objects or works of the Scheme.

5. If any owner of land does not proceed with the subdivision or development of his land in accordance with the Scheme or by reason of the nature of his land he is unable to subdivide or develop it and his failure to do so in the opinion of the Council will unduly delay the subdivision and development of the Scheme Area the Council may take compulsorily or purchase the land of such owner or any part or parts thereof and proceed with the subdivision and development of the said land in accordance with the provisions of the Scheme. In so doing the Council may enter into agreements with adjoining owners as to the sharing of costs as to ownership of lots part of which are outside the land taken by the Council.
6. In the event of the Council exercising its powers under paragraph (e) it has all the powers of an owner in the subdivision development and disposal of the said land; if land has been resumed and if the owner has not been paid compensation by reason of the resumption, the Council before selling the land so subdivided and developed shall offer the new lots wholly within the subdivision and the benefit of any agreement with adjoining owners to the original owner upon his paying to the Council all costs and expenses consequent upon the resumption subdivision or development of the said land and upon his releasing the Council from all claims for compensation in respect of such resumption and development. The said offer shall be made in writing and if not accepted within 28 days of the service thereof the Council may proceed with the sale of the subdivided lots.

All moneys received by it from such sale shall be applied firstly in payment of all costs and expenses consequent upon such subdivision and secondly in payment of all compensation in respect of the resumption of the said land. The balance if any of such moneys may be retained by the Council and the Council shall make good any deficit.

7. If the offer mentioned in paragraph (f) hereof is not accepted the Council may retain all or any part of the said land but if it does so it shall be responsible to pay such costs of subdivision of the said land and compensation for its resumption as are then unpaid.
8. To dispose of any lots to which it becomes entitled whether under paragraph (e) hereof or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing the Council may sell the lots singly or in groups and on the condition that buildings of a specified character with specified parking or other facilities shall within a limited period be constructed thereon or that the land and buildings be used for a specified purpose.
9. To extend the time within which payments are to be made to the Council and agree to the securing of such payments.
10. To transfer any land owned by it or acquired by it pursuant to the Scheme as compensation and to enter into agreements relative to the determination and settling or compensation.
11. Power to lodge an absolute caveat over the land of any owner to secure payment of money for Public open space and/or Scheme Costs.

C30—Enforcement of Contributions—Charge

1. Where an owner is required under this Scheme to make a contribution in land or money, all land of that owner within the scheme area is charged with the obligation to make that contribution.
2. The City may lodge an absolute caveat over any land of an owner in respect of the charge referred to in subclause (1), at the cost of the owner.
3. In addition to or in the alternative to the charge and caveat referred to in subclauses (1) and (2), the City may take action in a court of competent jurisdiction to recover any contribution of land or money or any other money for which an owner is liable under the Scheme, and the owner is to pay the costs of any such action.

C31—Powers conferred by the Act

The Council may at any time exercise the powers conferred by sections 190, 191, 193 and 194 of the *Planning and Development Act 2005*.

C32—Development Schemes

It is intended that having regard to the subdivision and development of land within the Scheme Area that has taken place, the services that are available, and the need for such a scheme or schemes the Council may in the future make a development scheme or schemes for such part or parts of the land within the Scheme Area as it determines from time to time.

C33—Delegation

1. The Council may, either generally or in a particular case by resolution passed by an absolute majority of the Council, delegate to an officer or officers of the Council the authority to deal with matters arising from the operation of this Scheme.
2. Without affecting the generality of the provisions of this paragraph where in the exercise of any power under this Scheme the Council is required to form any opinion or view or have any state of mind or to consider or have due regard to any matter, then that requirement shall be satisfied if a Committee or person exercising delegated authority in respect of that power performs the function.
