Notice is hereby given to landowners/occupiers within the Shire of Dandaragan that fire-breaks must be installed by 1st November 2015 and maintained clear of inflammable material up to and including 30th April 2016 as per the requirements in relation to Section 33 of the *Bush Fires Act 1954*.

Firebreak Standards

Properties 20 hectares (50 acres) or larger

1. Clear a firebreak consisting of mineral earth, to a width of no less than 3m, as close as practical, inside the external boundaries of the property.
2. Fire-breaks must be maintained to provide a vertical clearance of a minimum 4m so as to allow adequate access for fire appliances subject to the satisfaction of the Council's appointed officers.
3. Construct a 5m mineral earth firebreak immediately surrounding all fuel and chemical storage areas.
4. Clear inflammable material within 20m of all dwellings to construct a 20m circle of safety. This can be maintained through domestic grass, mulch or slashed native grasses.

All other Non Urban Land

Properties 2,023m² (half an acre) to 20 hectares (50 acres) (Rural residential, rural development)

This category relates to nearly all lots in all industrial estates and the subdivisions of Jurien Bay Heights, Alta Mare, Marine Fields, Koorinal Vale and Hill River.

1. Clear a 3m wide mineral earth firebreak (clear of all inflammable material) with a vertical clearance of 4m high, clear of any obstructions (no hanging tree limbs or objects) immediately inside or as close as practical inside all external boundaries of the land to allow for the unobstructed movement of Fire Appliances.

Plantations

Tree plantations of more than 3 hectares but less than 10 hectares

Construct a 10m wide mineral earth firebreak with a vertical clearance of 4m high; clear of all inflammable material immediately surrounding the plantation (adjacent areas of the same property subject to provisions as for rural areas).

Plantations larger than 10 hectares

Comply with the Code of Practice for Timber Plantations in Western Australia Guidelines for Plantation Fire Protection. A copy is available from the Shire of Dandaragan Administration Centre upon request.

Alternative Alignments and Variations to Firebreak Notices

If it is impractical to have a firebreak immediately inside a boundary, for environmental or any other reason(s), you are required to apply to the Shire of Dandaragan in writing, before 1st October to obtain permission for firebreaks to be installed in an alternative position or for alternative measures to be put in place. Once approval is granted, there is no need to re-apply each year, unless circumstances change or a duly appointed officer feels that the conditions of the Firebreak Variation notice are not being met.
