BUSH FIRES ACT 1954*Shire of Wyndham East Kimberley***FIREBREAK ORDER AND BUSHFIRE INFORMATION EFFECTIVE FROM 2024**

(This is a summary of the Order adopted by the Shire of Wyndham East Kimberley under Section 33 of the *Bush Fires Act 1954*).

In accordance with the provisions of this Order, landowners are required to carry out fire prevention work on land they own or occupy on or before 1st May every year to provide and thereafter maintain free of all inflammable material until 15th January of the following year. Firebreaks are to be maintained as stipulated in the manner described in the following schedule 1-9.

PERSONS WHO FAIL TO COMPLY WITH THE REQUIREMENTS OF THE ORDER MAY BE ISSUED WITH AN INFRINGEMENT NOTICE (PENALTY \$250) OR PROSECUTED WITH AN INCREASED PENALTY UP TO (\$1000). IN ADDITION, THE SHIRE MAY CARRY OUT THE REQUIRED WORK AT COST TO THE OWNER OR OCCUPIER OF THE LAND.

There may be instances where it is considered to be impractical to clear firebreaks or remove flammable materials as required by this Order, due to—

- The aggravation of soil erosion;
- The identification of a more effective system of fire prevention; or
- Firebreaks being rendered unnecessary by natural features existing on the land.

In this instance, application may be made to Council not later than 15 February each year for permission to provide firebreaks in alternative positions or to take alternative action to reduce fire hazards on the land.

If Council permission is not forthcoming, then you will be required to comply with the provisions of this Order.

Firebreaks are used primarily to gain access to and provide an area to work from when controlling a fire. They will not stop all fires, and removal of unnecessary flammable material prior to the fire season is your best safeguard against fire threat.

If the requirements of this Order are fulfilled by burning off, then the burning must be carried out in accordance with the relevant provisions of the *Bush Fires Act 1954*.

1. Ord Irrigation Project Area

Firebreaks for all land within the Ord Irrigation Area must be—

- (a) Approximately three (3) metres wide inside, along and as close as possible to external boundaries; and
- (b) Approximately six (6) metres wide and within three (3) metres of the perimeter of all buildings and/or haystacks and groups of buildings.

2. Pastoral Lands

Being land outside the Town Sites of Wyndham and Kununurra held under Pastoral Lease.

- (a) Firebreaks are to be a distance approximately six (6) metres wide and within three (3) metres of a building/s and haystacks.

3. Town Site Land

For land inside Town Sites and not being rural land or land under a Pastoral Lease, firebreaks are required to be—

- (a) Provide a 20m Building Protection Zone (BPZ) around all infrastructure.
- (b) Where the area is 2000sq metres or less, remove vegetation by clearing or slashing inflammable material from the whole of the land, excluding standing live trees.
- (c) Where the area of the land is greater than 2000sq metres a firebreak approximately six (6) meters in width, immediately surrounding any buildings or approximately three (3) metres in width inside and along the whole of the external boundaries of the land is required.

4. Rural Lands

Being land outside the Town Sites and not being land under a Pastoral Lease, this includes rural subdivisions. Firebreaks are required to be—

- (a) Approximately three (3) metres wide inside, along and within ten (10) metres of external boundaries, and

- (a) clear a three (3) metre wide firebreak of all flammable material, immediately inside the external boundaries of the land; and
- (b) trees must be trimmed back to provide a vertical clearance of three and a half (3.5) metres to allow fire appliances along the firebreak
- (c) Provide a 20m Building Protection Zone (BPZ) around all infrastructure.

Where a Shire managed strategic firebreak is provided the provisions of a) do not apply to the boundaries abutting the strategic firebreak.

Where there is a risk soil erosion or the ground conditions do not permit (e.g. rocky terrain) the provisions of a) may be deemed to be satisfied where the grasses are slashed and maintained at a height of 75mm or less.

6. Rural Accommodation Providers

Where land outside of the Wyndham and Kununurra town sites is used primarily for accommodation, dining and/or entertainment purposes, the following fire mitigation measures must be taken

- (a) Install a minimum three (3) and maximum six (6) metre wide firebreak clear of all flammable material, immediately inside the external boundaries of the land; and
- (b) Provide a 20m Building Protection Zone (BPZ) around all infrastructure.

Where there is a risk soil erosion or the ground conditions do not permit (e.g. rocky terrain) the provisions of a) may be deemed to be satisfied where the grasses are slashed and maintained at a height of 75mm or less.

A minimum amount of portable firefighting equipment is required—

- (a) Portable firefighting appliance/s, in working order, containing at least 500 litres of water; and
- (b) Firefighting equipment as determined by Shire Fire Control Officer/s; and
- (c) Any other fire mitigation measures the Shire Fire Control Officer deems necessary.

7. Rubbish Sites (Prescribed Premises)

Section 33(3) Bush Fires Act 1954—

Persons who fail to comply with these requirements may be issued with an infringement notice (Penalty \$250) or prosecuted with an increased penalty up to \$5000.00.

Section 33(4) Bush Fires Act 1954—

In addition, the Shire may carry out the required work at cost to the owner or occupier of the land.

10. Exemptions

10.1 Exemptions for individual properties

If it is considered impracticable for any reason to clear firebreaks or to remove flammable material from the land as required by this notice you may apply to the Council or its duly authorised officer by not later than 15 February each year for permission to provide firebreaks in alternative positions or take alternative action to abate fire hazards on the land.

10.2 Exemptions for specific areas

Properties within a specific area may be exempt from the above requirements if they are within an established firebreak area that is maintained by the affected land owner and approved by the Shire.

11. Definitions

11.1 Building Protection Zones (BPZ)

- A **Building Protection Zone (BPZ)** is an area extending for **20 metres** around a building where there is reduced flammable material. This means there is less material that can catch on fire, improving the chances that your home may survive a bushfire.
 - (a) Create a minimum 20 metre building protection zone around your home and other buildings. This area needs to be cleared of all rubbish, long dry grass, bark and material that may catch fire.
 - (b) Prune lower branches (up to two metres off the ground) to stop a ground fire spreading into the canopy of the trees.
 - (c) Clear vegetation around your property to create a fire break, particularly the overhanging branches.
 - (d) Cut grass to less than 10 centimetres high and prune shrubs to remove dead material.
