*Note.* - Throughout this *Gazette* the names in *Italics* within parentheses are those of Communicators of Inventions.

### Complete Specifications.

*Patent Office, Perth,  
3rd January, 1902.*

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been *accepted*, and are now open to public inspection at this Office.

Any person or persons intending to oppose any of such applications, must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the first appearance of this advertisement in the *Western Australian Government Gazette*. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 3685.—ADOLPHUS WOLFE, of Mathunia, Tasmania, "*A Self-acting Stirrer for attachment to utensils used in culinary operations.*"—Dated 18th December, 1901.

*Claims:—*

1. In a self-acting stirrer for attachment to utensils used in culinary operations, the combination with the casing A containing the machinery or clockwork for actuating the stirrer of the crank D, perforated at intervals for the attachment of the spoon or stirrer E, the strut or leg F, for attaching the apparatus to the cooking utensil, slotted so that the contrivance may be adjusted to suit the size of the particular utensil to which it is required to be attached, and the lever K, for starting and stopping the machinery or clockwork, substantially as set forth in the accompanying specification and drawings.

2. In a self-acting stirrer for attachment to utensils used in culinary operations, the special arrangement, construction, and combination of the parts, as described and illustrated in the accompanying specifications and drawings.

Specification, 4s. 6d. Drawings on application.

Application No. 3686.—WILLIAM FREDERICK ELLIS, of 18 Cornell Street, Springfield, U.S.A., Tire Manufacturer, and EDWIN COURTIS DAVIS, of Springfield, U.S.A., Tire Manufacturer, "*Vehicle Wheels.*"—Dated 18th December, 1901.

*Claims:—*

1. In a vehicle wheel having a substantially inflexible channelled rim, a flexible tire resting upon the edges of the rim and having side-flaps which pass outside of said rim, and an exterior shield substantially conforming to the contour of the adjacent surface of the rim, between which and the rim said side-flaps are clamped to hold the tire against the rim.

2. In connection with the subject matter of the foregoing claim, extending the shield to the junction of the flaps with the solid portion of the tire and providing its edges with stiffening means along the lines of said junction.

3. In connection with the subject matter of Claim 1 or Claim 2, covering the channelled rim with leather 24 shrunk upon the rim, substantially as described.

4. In a vehicle wheel having a substantially inflexible channelled rim, a spoke fastening comprising a non-rotating socket extending through said rim, and normally thrust outward therefrom by resilient means in the rim-channel, a collar threaded to said socket, and a spoke sleeve held by said collar, substantially as described.

5. In connection with the subject matter of either of the first three claims, holding the shield in place and clamping it against the flaps of the tire by means of the socket and collar of the spoke fastening recited in the fourth claim.

6. In connection with the subject matter of the fourth claim, the elongated washer 25, having a hole shaped and adapted to receive and lock against a flattened surface of the socket, and itself held against turning by the walls of the rim channel.

Specification, 8s. 6d. Drawings on application.

MALCOLM A. C. FRASER,  
Registrar of Patents.

*Patent Office, Perth,  
27th December, 1901.*

NOTICE is hereby given that the undermentioned Application for the Grant of Letters Patent, and the Complete Specification annexed thereto, has been *accepted*, and is now open to public inspection at this Office.

Any person or persons intending to oppose this application must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the first appearance of this advertisement in the *Western Australian Government Gazette*. A fee of Ten shillings (10s.) is payable with such notice.

*For particulars of claim, vide Gazette No. 52, of 27th December, 1901.*

Application No. 3370.—ALFRED GRA ROSSER, of Fremantle, Western Australia, Gentleman, "*Railway Spike, and Wedge Lock for same.*"—23rd April, 1901.

Specification, 4s. 6d. Drawings on application.

MALCOLM A. C. FRASER,  
Registrar of Patents.
