Complete Specifications.

Patent Office, Perth,
10th January, 1902.

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the Complete Specifications annexed thereto, have been *accepted*, and are now open to public inspection at this Office.

Any person or persons intending to oppose any of such applications must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the first appearance of this advertisement in the *Western Australian Government Gazette*. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 3690.—CHARLES PERDRISAT, a member of the firm of PERDRISAT, BLANC, & Co., of Territet, Switzerland, Manufacturers, "*Coin-freed Sale Apparatus*."—Dated 19th December, 1901.

Claims:—

1. A coin-freed sale apparatus characterised by the combination of a spiral spring adapted to receive in its convolutions the goods to be delivered with a horizontal or substantially horizontal channel or casing, the inner section of which corresponds to the size of the articles to be delivered, so as to prevent the said articles rotating with the said spring, and with a device adapted to allow said spring to be axially rotated and with a stop mechanism, determining the number of rotations which the said device may impart to the spring after the introduction of a predetermined coin into the apparatus, substantially as hereinbefore described and illustrated by the accompanying drawings.

2. In coin-freed sale apparatus the combination of a spiral spring *a* with a channel *b* the section of which corresponds to the size of the goods to be delivered substantially as hereinbefore described and illustrated by the accompanying drawings.

3. In coin-freed sale apparatus the combination of a cam *h* fixed on the shaft *d* with a pawl *i* adapted to prevent the rotation of the said cam *h* in one direction and of a pawl *k* adapted to prevent rotation in the opposite direction substantially as described and illustrated by the accompanying drawings.

4. A coin-freed sale apparatus constructed, arranged and combined to operate substantially as hereinbefore described and illustrated by the accompanying drawings.

Specification, 6s. Drawings on application.

Application No. 3692.—WILLIAM MOIR, Provision Merchant, and JOHN ROBERTSON, Tin Plate Worker, both of 13 Exchange Street, Aberdeen, in the County of Aberdeen, North Britain, "*Improvements in fixing the tops of Meat, Fish, and other Seamless Tins*."—Dated 24th December, 1901.

Claims:—

1. The improvements in the fixing of the tops of meat, fish, and other seamless tins, substantially as hereinbefore described and shown in the accompanying drawings.

2. The construction of the flange of the tin with the seating *a1*, substantially as hereinbefore described and shown in the accompanying drawings.

3. The combination of the flanged tin having seating *a1*, turned over or beaded edge *a2*, and beading *b1* of the lid, substantially as hereinbefore described and shown in the accompanying drawings.

Specification, 2s. Drawings on application.

Application No. 3693.—ILLIUS AUGUSTUS TIMMIS, of 2 Great George Street, Westminster, S.W., England, Civil Engineer, "*Improvements in the construction of Bogies for Railway Rolling Stock*."—Dated 24th December, 1901.

Claim:—

A mechanical arrangement fitted to a bogie and the vehicle it carries, whereby the point on the bogie from which it is pulled or pushed is in advance (or ahead) of the centre of the bogie, in whichever direction the bogie is running.

Specification, 7s. Drawings on application.

MALCOLM A. C. FRASER,
Registrar of Patents.

Patent Office, Perth,
3rd January, 1902.

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been *accepted*, and are now open to public inspection at this Office.

Any person or persons intending to oppose any of such applications, must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the first appearance of this advertisement in the *Western Australian Government Gazette*. A fee of Ten shillings (10s.) is payable with such notice.

For particulars of claims, vide Gazette No. 1, of 3rd January, 1902.

Application No. 3685.—ADOLPHUS WOLFE, of Mathunia, Tasmania, "*A Self-acting Stirrer for attachment to utensils used in culinary operations*."—Dated 18th December, 1901.

Specification, 4s. 6d. Drawings on application.
