Complete Specifications.

Patent Office, Perth,
4th May, 1902.

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been accepted, and are now open to public inspection at this Office.

Any person or persons intending to oppose any of such applications must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the first appearance of this advertisement in the *Western Australian Government Gazette*. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 3840.—RICHARD SPARROW, of Barrack Street, Perth, Western Australia, Patent Agent (*Joseph Robert Hayward*), "*Improved Receptacle Cover, usable as a Cooking Utensil*."—Dated 22nd April, 1902.

Claim:—

An improved receptacle cover usable as a cooking utensil, consisting of a dished and shaped "patty-pan" provided with a circumferential flange adapted to fit over the end of a receptacle substantially as specified and illustrated.

Specification, 1s. 6d. Drawings on application.

Application No. 3841.—JULES EDMOND DE STOUTZ, of King Solomon's Gold Mines, Ltd., of Coolgardie, in the State of Western Australia, Mining Engineer, "*Rotary Suction Filter*."—Dated 23rd April, 1902.

Claims:—

1. A rotary suction filter consisting of a revolving hollow body with a partially or completely filtering surface and into which suction can be applied through an hollow axle substantially as shown and described and for the purpose set forth.

2. In the above-named rotary suction filter a cleaning appliance substantially as shown and described for the purpose of separating the solid crust after filtration from the filtering surface.

3. In the above-named rotary suction filter a system of guttering inside the hollow body substantially as shown and described for the purpose of collecting the filtered liquid and bringing it to the hollow axle to be sucked by a pump.

Specification, 4s. Drawings on application.

Application No. 3844.—JOHN THOMAS ALLINSON, of Victoria Street, Warragul, Saddler, and WILLIAM THOMAS SCOTT ROBERTSON, of Cunninghame Street, Sale, Sergeant-Major in the Victorian Mounted Rifles, both of Gippsland, in the State of Victoria, Commonwealth of Australia, "*An improved Puttie Legging*."—Dated 25th April, 1902.

Claim:—

An improved puttie legging which has no seam and consists of a body part cut to the shape illustrated, and having a strap secured near the lower end of one side thereof said strap passing through elongated holes or slits towards the other side and adapted to be wound round the outside and secured at the top substantially as set forth.

Specification, 3s. 6d. Drawings on application.

Application No. 3848.—CYRIL ERNEST NICHOLAS, of "Invermay," corner of Queen and Lonsdale Streets, Launceston, in the State of Tasmania, Commonwealth of Australia, but temporarily residing at 91 Edgevale Road, Kew, in the State of Victoria, Inventor, "*An improved Table Game of Cricket*."—Dated 29th April, 1902.

Claims:—

1. An improved table game of cricket consisting of the combination of a ball or balls, a bat, a pitch cloth loaded at each end, a pocket supported by a hoop resting on pillars, wickets with one bail thereon, hurdle sticks situated between the wickets and the pocket, and catchers or field nets on handles all as and for the purposes hereinbefore described and as illustrated in the drawings.

2. In an improved table game of cricket a net hung to a hoop, said hoop being pivotted on its two opposite sides to supports and locked there by wing nuts turning on bolts all as and for the purposes hereinbefore described and as illustrated in the drawings.

3. In an improved table game of cricket a pitch cloth loaded at each end in combination with a net supported by a hoop resting on pillars, a wicket surmounted by a bail, and between said net and wickets a hurdle all as and for the purposes hereinbefore described and as illustrated in the drawings.

4. An improved table game of cricket consisting of a pitch cloth loaded at each end above which are wickets surmounted by a bail, hurdle sticks, a net hung to a hoop pivotted to supports in combination with a ball or balls, and a bat all as and for the purposes hereinbefore described and as illustrated in the drawings.

Specification, 5s. 6d. Drawings on application.

R. G. FERGUSON,
Registrar of Patents.

Patent Office, Perth,
2nd May, 1902.

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been accepted, and are now open to public inspection at this Office.

Any person or persons intending to oppose any of such applications must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the first appearance of this advertisement in the *Western Australian Government Gazette*. A fee of Ten shillings (10s.) is payable with such notice.

For particulars of claims, vide Gazette No. 18, 2nd May, 1902.

Application No. 3523.—JOSEPH SCHOFIELD, of 26 Austin Street, Footscray, Victoria, Manufacturer, "*Hydraulic apparatus for the Separation and Recovery of Metals and Minerals from their Ores*."—Dated 3rd September, 1901.

Specification, 6s. 6d. Drawings on application.

Application No. 3588.—HARRY VAUGHAN RUDSTON READ, of Broad Street Avenue, London, England, Civil Engineer, "*Improvements in connection with Syphons or the like, in which the aeration of liquids is affected by releasing compressed or liquefied gas from containers thereof*."—Dated 9th October, 1901.

Specification, 13s. 6d. Drawings on application.

Application No. 3799.—HENRY JAMES JONES, of Stratford, New Zealand, Engineer, "*Improved appliances for the generation of Acetylene Gas*."—Dated 2nd April, 1902.

Specification, 6s. Drawings on application.

Application No. 3802.—GUSTAV AMBERG, of 4 Spener Strasse, Berlin, Germany, Professor of Physics, "*A new and improved Telephone System*."—Dated 2nd April, 1902.

Specification, 9s. Drawings on application.
