 - (a) a reference to the tax period is to be taken to refer to the relevant part period, except in a reference to an annual threshold amount or an apportioned threshold amount;
 - (b) a reference to the pay-roll tax rate means
 - (i) if the relevant part period is the first part of the tax period, the old rate; and
 - (ii) if the relevant part period is the second part of the tax period, the new rate;
 - (c) if the provision is section 10(1), the amount referred to in section 10(1)(b) is to be multiplied by the part period factor, as defined in subsection (6); and
 - (d) if the provision refers to an apportioned threshold amount, the calculation of the apportioned threshold amount for the tax period under section 12(1), 14, or 18, as the case requires, (the *calculation provision*) is modified by multiplying the amount that T represents in the formula in the calculation provision by the part period factor, as defined in subsection (6).
