4A. Object and principles of Act

The object of this Act is to protect the environment of the State, having regard to the following principles —

Table

1. *The precautionary principle*

Where there are threats of serious or irreversible damage, lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation.

In the application of the precautionary principle, decisions should be guided by —

 - (a) careful evaluation to avoid, where practicable, serious or irreversible damage to the environment; and
 - (b) an assessment of the risk-weighted consequences of various options.
2. *The principle of intergenerational equity*

The present generation should ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations.
3. *The principle of the conservation of biological diversity and ecological integrity*

Conservation of biological diversity and ecological integrity should be a fundamental consideration.

4. *Principles relating to improved valuation, pricing and incentive mechanisms*

- (1) Environmental factors should be included in the valuation of assets and services.
- (2) The polluter pays principle — those who generate pollution and waste should bear the cost of containment, avoidance or abatement.
- (3) The users of goods and services should pay prices based on the full life cycle costs of providing goods and services, including the use of natural resources and assets and the ultimate disposal of any wastes.
- (4) Environmental goals, having been established, should be pursued in the most cost effective way, by establishing incentive structures, including market mechanisms, which enable those best placed to maximise benefits and/or minimise costs to develop their own solutions and responses to environmental problems.

5. *The principle of waste minimisation*

All reasonable and practicable measures should be taken to minimise the generation of waste and its discharge into the environment.

[Section 4A inserted by No. 54 of 2003 s. 122.]

s. 5

5. Inconsistent laws

Whenever a provision of this Act or of an approved policy is inconsistent with a provision contained in, or ratified or approved by, any other written law, the provision of this Act or the approved policy, as the case requires, prevails.

and, notwithstanding anything contained in this Act but subject to this section, a declaration so made has effect according to its tenor.

it may, by written notice, request any person to provide it with additional information about the proposal.

- (2) The 28 day period set by section 39A(3) is not to be regarded as having begun in relation to a proposal until each notice issued under subsection (1) in relation to the proposal has been complied with or, in the case of a notice sent to a person other than the person who referred the proposal, the period specified in the notice for complying with that notice has expired.

[Section 38A inserted by No. 54 of 2003 s. 7.]

refrain from keeping a public record under subsection (1) of that whole or part.

- (4) If a request is made under subsection (2), the Authority shall refrain from keeping a public record under subsection (1) of the whole or part of the proposal to which the request relates until the Authority has dealt with that request.

 - (b) if the proposal was not referred by the proponent, the person that referred it; and
 - (c) any relevant decision-making authority.

- (4) If, for any reason, a relevant decision-making authority is not given notice as required by subsection (3)(c) that a proposal is going to be assessed, the Authority may give written notice to the decision-making authority under this subsection.
- (5) Notice under subsection (4) may be given by the Authority of its own motion or at the request of the decision-making authority, and may be given at any time before a report on the proposal is given to the Minister under section 44.
- (6) If the Authority decides to assess a proposal, it is to begin the assessment as soon as practicable after the notices are given under subsection (3).
- (7) If the Authority decides not to assess a proposal, it may nevertheless give advice and make recommendations on the environmental aspects of the proposal to the proponent or any other relevant person or authority.
- (8) This section does not apply if the proposal is declared under section 39B to be a derived proposal.

- (2) If the proposal is referred by the proponent, a request under subsection (1) may be made in the referral.
- (3) If a request under subsection (1) is made, the Authority is to declare the referred proposal to be a derived proposal if it considers that —

 - (b) after a report on the strategic proposal was published under section 44(3), it was agreed or decided under

section 45 that the referred proposal could be implemented, or could be implemented subject to conditions and procedures agreed or decided under that section.

- (4) Despite subsection (3), the Authority may refuse to declare the referred proposal to be a derived proposal if it considers that —
- (a) environmental issues raised by the proposal were not adequately assessed when the strategic proposal was assessed; or
 - (b) there is significant new or additional information that justifies the reassessment of the issues raised by the proposal; or
 - (c) there has been a significant change in the relevant environmental factors since the strategic proposal was assessed.
- (5) If the Authority declares the referred proposal to be a derived proposal, it is to —
- (a) record the declaration in the public record kept under section 39(1); and
 - (b) give written notice of the declaration to the Minister.

to be made available for public review and shall, if it does so, determine the period within which, the extent to which and the manner in which public authorities or persons may make submissions to the Authority in respect of that information or report.

- (5) If any information relating to a manufacturing process or trade secret used in carrying on or operating any particular undertaking or equipment (in this subsection called the **confidential information**) is contained in —
 - (a) any information referred to in subsection (4)(a); or
 - (b) any report referred to in subsection (4)(b),

the Authority shall before causing the information referred to in paragraph (a) or the report referred to in paragraph (b) to be made available for public review under subsection (4) exclude the confidential information from that information or report.

- (6) When the Authority causes any information or report to be made available for public review under subsection (4) —

- (1) Sections 41, 41A and 45(7) do not apply in relation to a strategic proposal.
- (2) Section 44 and section 45 (other than subsection (7)) apply in relation to a strategic proposal as if references in them to implementation were references to the implementation of a future proposal identified in the strategic proposal in the event of that future proposal being declared under section 39B to be a derived proposal.
- (3) This section does not affect the application of sections 41, 41A, 44 and 45 in relation to a strategic proposal to the extent to which the strategic proposal is itself a significant proposal.

[Section 40B inserted by No. 54 of 2003 s. 10.]

41. Decision-making authority not to approve proposal until certain events occur

[(1) deleted]

as the case requires.

- (3) Without limiting subsection (2), a decision-making authority that has been given notice under section 39A(3)(c) or (4) that a proposal is going to be or is being assessed is not to make any decision that could have the effect of causing or allowing the proposal to be implemented without having had an authority under section 45(7) served on it.
- (4) Subsections (2) and (3) do not apply to a decision in relation to a proposal if the effect of the decision would be to cause or allow the doing of minor or preliminary work to which the Authority has consented under section 41A(3).

[Section 41 amended by No. 54 of 2003 s. 11; No. 40 of 2010 s. 14.]

who does anything to implement the proposal before a statement is published under section 45(5)(b) or a notification is given under section 45(8) commits an offence.

- (2) Subsection (1) applies even if the assessment of the proposal has been terminated under section 40A and applies as if the references to section 45(5)(b) and (8) were references to the application of those provisions to any revised or further proposal referred to the Authority under section 38 in place of the terminated proposal.
- (3) Subsection (1) does not apply to minor or preliminary work done with the Authority's consent.

and after consulting the Authority, direct the Authority to assess that proposal, or to assess or re-assess that proposal more fully or more publicly or both, as the case requires, in accordance with that direction, and the Authority shall comply with that direction.

- (2) Sections 39, 39A(3), 40(2), (3), (4), (5), (6), (7), and (8), 41, 42 and 44 apply to the assessment or reassessment of a proposal under a direction given under subsection (1) as if that direction were a referral under section 38 of the proposal.
- (3) A direction cannot be given under subsection (1) if a statement has been served under section 45(5) or a notification has been given under section 45(8).
- (4) The Minister is to cause copies of the reasons for giving a direction under subsection (1) to be —

43A. Changes to proposals during assessment

While a proposal is being assessed, the Authority may consent to the proponent changing the proposal without a revised proposal being referred to the Authority under this Part if the Authority considers that the change is unlikely to significantly increase any impact that the proposal may have on the environment.

[Section 43A inserted by No. 54 of 2003 s. 14.]

- (2b) Subject to subsection (2d), the assessment report may be given to the Minister at any time but, so far as is practicable, it must be given not later than 6 weeks after the Authority completes its assessment or reassessment of the proposal.

[Section 45C inserted by No. 54 of 2003 s. 17.]

46. Changing implementation conditions

- (1) If the Minister considers that the implementation conditions relating to a proposal, or any of them, should be changed

- (8) After causing a report to be published under subsection (7), the Minister is to deal with the question of whether or not the implementation conditions to which the report relates, or any of them, should be changed as if that question were the question of to what conditions and procedures, if any, the implementation of

a proposal should be subjected, and section 45 applies to the first-mentioned question accordingly.

- (9) A statement under section 45(5) as applied by subsection (8) may change any of the implementation conditions to which the report under subsection (6) relates.
- (10) A reference in this Division to a statement under section 45(5) includes a reference to a statement under section 45(5) as applied by subsection (8).

[Section 46B inserted by No. 54 of 2003 s. 18.]

46C. Minor changes to implementation conditions

- (1) The Minister may change the implementation conditions without making a request under section 46(1) if the Minister considers that the change is of a minor nature and is necessary or desirable in order to —
