10A. Supply of goods or services by member

- (1) A person is not disqualified from being or continuing a member of a water board, on the grounds that he is concerned or participates in the profit of a contract with the board, by reason only that in the ordinary course of business, and in good faith, he sells goods to, supplies services to, or does work for, the board or any person who has entered into a contract with the board so long as the value of goods so sold by him, services so supplied by him, or work so done by him, during any one financial year of the board does not exceed the prescribed amount.

A change in the mode of constitution of a water board shall not affect its continuity as a body corporate.

12. Disputed elections or exercise of office

When a person declared elected or appointed to an office under this Act has been elected or appointed unduly or contrary to the provisions of this Act, or a person who is incapable under the provisions of this Act of holding or continuing to hold such office has been elected or appointed to or holds or exercises such office, the Supreme Court or a Judge thereof may, upon the

s. 13

application of a ratepayer, grant a rule or order calling upon that person to show cause why he should not be ousted from office.

Provided that the applicant shall, before making the application, pay into Court the sum of \$40 as security for costs, to abide the event of the application.

If, upon the return of the rule or order, it appears to the Court or Judge that the person elected or appointed or holding or exercising the office was elected or appointed unduly or contrary to this Act, or was at the time of his election or appointment, or while holding or exercising his office, incapable under the provisions of this Act of holding or continuing to hold the office, the Court or Judge may make the rule or order absolute, or, if the matter does not so appear, may discharge the rule or order, and in either case with or without costs.

The person against whom any such rule or order is made absolute shall be deemed thereby to be ousted from office accordingly.

If it appears to the Court or Judge that some other person was duly elected to the office, the Court or Judge may declare such person to have been duly elected, and he shall thereupon be deemed to have been duly elected to the office at the time at which the person ousted was declared to have been elected:

Provided that no such rule or order for ousting any person as having been elected or appointed unduly or contrary to the provisions of this Act shall be granted unless the application is made before the expiration of 4 months from the declaration of the result of the election at which such person was elected, or the notification of his appointment, as the case may be.

The board, and every committee, shall cause entries of the proceedings of the board, or of the committee, with the names of the members present at each meeting, and of the names of the members voting upon any question for the decision of which a division is called, to be made in books to be provided for the purpose, which shall be kept by the clerk under the superintendence of the chairman.

s. 28

Every such entry shall be signed by the chairman at the meeting next succeeding the meeting at which the proceeding has taken place.

Every such entry, or a certified copy thereof, sealed with the seal of the board, and signed by the chairman, shall, upon the production alone, be received as evidence of the proceedings appearing by such entry to have been taken, without proof of the meeting to which the entry refers having been duly convened or held, or of the persons attending the meeting having been or being members of the board, or of the committee, or of the signatures of the chairman, or of the fact of his having been chairman and all such matters shall be presumed until the contrary is proved.

28. Copies and extracts from minutes

Such books shall at all reasonable times be open to the inspection of any member and of any ratepayer of the water area, or creditor of the board, any of whom may, at all reasonable times during office hours, make a copy of, or take extracts from, the books: And every person having the custody of any such book who does not, on the reasonable demand of a member, ratepayer, or creditor permit him to inspect the book or to make or take such copy or extract, shall be liable to a penalty of \$100.

31. Appointment, removal, etc., and salaries of officers

Every water board shall from time to time appoint such officers and servants as may be necessary to assist in the execution of this Act, and may, out of the Water Fund, pay such salaries and allowances to such officers respectively as the board may determine.

32. Chairman may suspend officers

The chairman may suspend from office any officer of the board who, in his opinion, is guilty of misconduct or neglect, and may, if necessary, temporarily appoint another officer in his place: Provided that, at the next meeting of the board after the suspension, the chairman shall report the matter to the board; and if the officer suspended is dismissed by the board, no salary or wages shall be due or paid to him from the date of his suspension.

Every officer so temporarily appointed shall hold office and receive remuneration (which shall in no case exceed that paid to the officer or servant suspended) only until the board decides

s. 33

whether the person suspended shall be re-instated, or whether he shall be dismissed and a successor appointed in his stead.

33. Officers exacting or accepting fees

Every officer employed by a water board who exacts or accepts, on account of anything done by virtue of his office, or in relation to any matters to be done under this Act, any fee or reward, other than the salary or allowance by way of salary allowed by the board, or who is in anywise concerned or interested in any bargain or contract made by the board, shall be liable to a penalty not exceeding \$2 000.

[Section 48 amended by No. 14 of 1996 s. 4.]

49. Roads not to be broken up except under superintendence of local government

Part IV — The supply and distribution of water

55. Supply to rated land

The owner or occupier of land rated under this Act shall, as far as practicable, and subject to the provisions of this Act, be supplied by the water board with the quantity of water, if any, to which he is entitled in respect of the rates; and, on payment of the prescribed charge, with such further quantity as he may take by measure.

[Section 55 amended by No. 110 of 1985 s. 138.]

56. Request for supply to rated land

On receiving from the owner or occupier of any land rated under this Act a written request for a supply of water, the water board shall provide, lay down to the boundary of the land, and fix the communication pipe and fittings necessary for complying with such request.

Provided that no owner or occupier of rateable country land shall be entitled to be supplied with water or to have a communication pipe laid from the main to the boundary of his land until an agreement has been entered into by him with the board to pay the cost of such pipe in advance, nor unless all rates due in respect of the land have been paid.

[Section 56 amended by No. 16 of 1925 s. 7.]

57. Supply to land not rated

- (1) The owner or occupier of land not rated under this Act may in writing request the water board to supply water to that land.
- (2) On receiving a request made under subsection (1), the water board may —
 - (a) comply with that request on and subject to such terms and conditions as may be mutually agreed; or
 - (b) refuse that request.

s. 58

- (3) Whenever the water board complies with a request made under subsection (1), it may provide, lay down and fix all necessary pipes and fittings for supplying water to the land concerned.

[Section 57 inserted by No. 97 of 1978 s. 5; amended by No. 25 of 1985 s. 345.]

58. The water board may supply meter and charge by measure

The water board may cause a meter to be attached to any pipe on any land supplied with water under this Act.

When a meter is so attached, the owner or occupier shall not receive a supply of water except by means of the meter, unless the water board consents to its removal, or to a supply of water to a part of the land otherwise than by means of the meter.

The water board may charge the prescribed rent for the use of the meter, and the cost of fixing, removing, or replacing it and its fittings whenever in the opinion of the water board necessary.

59. Meter records and testing of meters

- (1) Whenever a meter is used —
- (a) the quantity of water shown by the index or register shall be taken *prima facie* to be the quantity of water which has actually passed through the meter and has been supplied; and
 - (b) a certificate purporting to be signed by an officer of the water board stating the quantity so shown shall in any proceeding in which the quantity of water is in question, be *prima facie* evidence of the quantity of water supplied,

but this subsection does not apply where the meter is found not to be in proper order.

- (2) The water board may at any time, and, where requested in writing by the person who will be liable to pay for water supplied through the meter, shall, cause a test of a meter to

which subsection (1) applies to be made by an officer of the water board or a person appointed by the water board.

- (3) Where, pursuant to a request under subsection (2), the water board causes a meter to be tested and upon being so tested the meter is found to register not more than the quantity of water actually passed through it, the person upon whose request the test was made shall pay to the water board —
- (a) the amount of the prescribed meter testing fee; or
 - (b) such greater amount as in the opinion of the water board approximates the actual cost of testing the meter,
- as the water board may in each case specify.
- (4) A meter shall be deemed not to be in proper order if —
- (a) on being tested or otherwise, the meter is found not to register within the limits of error prescribed;
 - (b) the meter is found by an officer of the water board to be so damaged or otherwise in such a condition that, in the opinion of that officer, the meter is likely to inaccurately show the quantity of water passing through it; or
 - (c) the register of the meter is found to be unreadable.
- (5) Where a meter through which water is supplied to land is found not to be in proper order the quantity of water supplied to the land through the meter may be assessed by the water board in such manner as may be prescribed and, unless the contrary is shown, the quantity of water so supplied shall be deemed to be as so assessed.
- (6) Where, pursuant to a request under subsection (2), the water board causes a meter to be tested and upon being so tested the meter is found to register less than the quantity of water actually passed through it, the water board may, as an alternative to assessing the quantity of water supplied to the land through the meter, deem the quantity of water shown by the index or register of the meter to be the quantity of water which has actually

s. 60

passed through the meter and been supplied, and a certificate purporting to be signed by an officer of the water board stating the quantities so shown shall, in any proceedings in which the quantity of water is in question, be *prima facie* evidence of the matters stated.

- (7) Where an account is submitted upon the basis of an assessment, it shall be clearly marked as such and the water board shall, upon request, give details of the basis upon which the assessment was made.

[Section 59 inserted by No. 14 of 1982 s. 22.]

60. Water may be cut off from unoccupied premises etc.

- (1) The water board may turn or cut off or reduce the available rate of flow of the water supply —
- (a) if the land to which water is supplied is unoccupied; or
 - (b) when any rates or moneys due for water supplied, or agreed to be supplied, or any rent or charges for any meter or other fittings remain unpaid for 7 days after they become due; or
 - (c) if the occupier refuses to permit a meter to be attached to any pipe on his land; or
 - (d) if a person or local government (being the owner or occupier of the land) fails to comply with the requirements of, or his or its obligations under, section 62B; or
 - (e) if the occupier commits or permits any breach of any of the provisions of this Act or the by-laws thereunder.
- (2) Turning or cutting off or reducing the available rate of flow of the water shall be a cumulative remedy for enforcing payment of water rates or other moneys due, and shall not relieve the owner or occupier from liability in respect thereof.
- (3) Where under this section the water board has turned or cut off or reduced the available rate of flow of the water supply to land,

the water board may, before restoring the water supply to land, require payment of the amount of such charges as the water board may from time to time determine in respect of —

- (a) the turning or cutting off or the reduction; and
- (b) the restoration of the water supply.

[Section 60 inserted by No. 14 of 1982 s. 23; amended by No. 14 of 1996 s. 4.]

61. Provisions for supplying groups of houses

The water board may supply a group of dwelling-houses by means of a stand-pipe or other prescribed fittings, and the water board shall be entitled to receive and recover water rates from the owners and occupiers thereof in the same manner as if the supply had been distributed in each of the dwelling-houses in the ordinary manner.

The expense of providing the stand-pipe or other prescribed fittings, and fixing them in readiness for use, and of renewing and repairing them from time to time, shall be borne by the owners or occupiers of such dwelling-houses in such proportions as the water board may direct.

61A. Owners and occupiers to provide tanks and appliances

- (1) The board may by notice in writing require the owner or occupier of any rateable country land to provide, at his own cost and to the satisfaction of the board, such tanks for or in connection with the storage of water for his own use, as may, in the opinion of the board, be necessary to facilitate the equitable distribution of the water available from the main between all consumers having the right to be served thereby.
- (2) If at the expiration of 3 months from the service of such notice any owner or occupier shall have failed to make such provision as aforesaid, the board may by its servants or workmen make such provision and charge the owner or occupier with the cost

s. 62

thereof, and such cost may be recovered from the owner or occupier in the same manner as water rates are recoverable.

- (3) In the event of the owner and occupier of land failing to agree between themselves in regard to such provision for the storage of water, or the payment of the cost thereof, such occupier may, if holding a tenancy extending for more than one year from the date of such notice, construct such tanks and other appliances as aforesaid, and may deduct the cost thereof from any rent due or to become due under such tenancy: Provided that such cost so deducted shall not in any case exceed one year's net rent in respect of the land the subject of the tenancy.

[Section 61A inserted by No. 16 of 1925 s. 3.]

62. Supply to land outside water area

- (1) The owner or occupier of land not situated within a water area may request the water board of the water area closest to that land to supply water to that land.
- (2) On receiving a request made under subsection (1), the water board may —
- (a) with the approval of the Minister, comply with that request on and subject to such terms and conditions as it thinks fit; or
 - (b) refuse that request.
- (3) Whenever the water board complies with a request made under subsection (1), it may construct all necessary works for supplying water to the land concerned.

[(4) repealed]

- (5) Any land to which a water board supplies water under this section and the owner and occupier of that land shall, while that land is so supplied, be subject to the provisions of this Act as modified by the terms and conditions referred to in

subsection (2) in the same manner as if that land were situated within the water area concerned.

- (6) The water board may, for the purpose of supplying the land concerned with water, employ works and fittings of such nature, size and description as it thinks fit.

[Section 62 inserted by No. 97 of 1978 s. 6; amended by No. 25 of 1985 s. 345.]

62A. Water supply to subdivided land

- (1) A person or local government (in this section called “**the subdivider**”) who subdivides or wishes to subdivide land, whether rateable land or not and whether or not situated in a water area, into a lot or lots may in writing request the water board of the water area concerned or the water board of the water area closest to that land, as the case may be, to arrange for water to be supplied to the lot or lots.
- (2) On receiving a request made under subsection (1), the water board may —
- (a) with the approval of the Minister, comply with that request on and subject to such terms and conditions, including the financial contribution to be made by the subdivider in respect of any existing or proposed works which benefit or will benefit the lot or all or any of the lots concerned, as may be mutually agreed; or
 - (b) refuse that request.
- (3) Whenever the water board complies with a request made under subsection (1), it may carry out, construct or provide all or any of the necessary works.

[Section 62A inserted by No. 97 of 1978 s. 7; amended by No. 14 of 1982 s. 24; No. 25 of 1985 s. 345; No. 14 of 1996 s. 4.]

s. 62B

62B. Water supply on development of land

A person or local government (in this section called “**the developer**”) who proposes to develop or redevelop land in any way that will result in a demand for the supply of water greater than that determined by the water board to be likely in the case of single residence on a lot in the area where the land is situate, whether the land is rateable or not or within the water area or not, shall in writing request the water board to arrange for water to be supplied to the land as so developed or redeveloped to meet the increased demand and before proceeding to undertake, construct, or effect that development or redevelopment shall comply with such terms and conditions as the water board may impose in respect of the proposal, including the financial contribution to be made by the developer in respect of any existing or proposed water works which benefit or will benefit the developed or redeveloped land.

[Section 62B inserted by No. 14 of 1982 s. 25; amended by No. 14 of 1996 s. 4.]

62C. Deferring headworks payments for certain subdivisions

- (1) If, because of a demand for the supply of water as a result of a subdivision, a developer is required by the water board to pay any amount in respect of a particular lot as payment or an advance in respect of headworks and the developer requests in writing that the time for paying the amount be deferred in accordance with this section, the water board is required to agree in writing to defer payment of the amount as requested.
- (2) This section applies only if the lot —
 - (a) is not serviced and is not a habitable lot;
 - (b) is created to be used solely or principally for residential purposes; and

- (c) has an area of not more than 2 000 m² or, if its area is more than 2 000 m², is to be used for a building or group of buildings that —

- (3) For the purposes of this section a lot is serviced if it has a connection to the water supply.
- (4) If a mortgage is registered against land, payment of an amount in respect of the land can be deferred under this section only if the mortgagee consents in writing.
- (5) Payment is deferred under this section until —
- (a) the lot becomes serviced or becomes a habitable lot; or
 - (b) one year passes after the subdivisional plan or diagram is approved by the Western Australian Planning Commission,
- but payment may be made at an earlier time.
- (6) If full payment of the deferred amount is not made within one year after the subdivisional plan or diagram is approved by the Western Australian Planning Commission, interest calculated as approved by the Minister accrues on any amount remaining unpaid.
- (7) Subsection (6) does not limit the ability of the water board to recover any amount outstanding under the agreement, and interest on the amount may be recovered as if it were a part of the amount.

-
- (5) Subject to this Act, a water rate or charge for water supplied may be made —
- (a) so as to vary by reference to a scale (whether calculated by graduated or cumulative increments by reference to the valuation, or otherwise);
 - (b) so as to make separate or varied provisions in respect of any land or to have effect in a particular circumstance or specified part of the water area;
 - (c) so as to make different provision in relation to different classes of land or different kinds of land use or water use;
 - (d) so as to take into account in relation to particular land or a particular class of case antecedent circumstances, including the provision or sharing of existing works, the making of contributions towards the cost of works, and the effect of agreements entered into with the board,

and may take into account the matters referred to in section 99A.

- (6) For the purpose of determining what rates shall be payable in respect of any rating year, the water board shall estimate as nearly as may be —

s. 93

- (2) Where the water board amends the rating records under subsection (1), it may, on the basis of that amendment, amend the assessment of rates payable on that land in respect of the portion of the rating year unexpired as at the date the determination of the gross rental value comes into force under the *Valuation of Land Act 1978*.
