## **Agricultural Produce (Chemical Residues) Regulations 1985**

Compare between:

[01 Jan 2005, 01-b0-03] and [11 Aug 2006, 01-c0-03]

Western Australia

Agricultural Produce (Chemical Residues) Act 1983

## **Agricultural Produce (Chemical Residues) Regulations 1985**

### **1. Citation**

These regulations may be cited as the *Agricultural Produce (Chemical Residues) Regulations 1985*<sup>1</sup>.

### **2. Commencement**

These regulations shall come into operation on 1 September 1985.

### **2AA. Interpretation**

- (1) In these regulations unless the contrary intention appears —
- “**animal feeding stuff**” means any substance, including any mixture or compound, and whether in package form or in bulk, used or intended for consumption by any animal or offered for sale for that purpose, and includes basic feed, processed food and manufactured stock foods;
- “**basic feed**” means any grain, seeds, hay, meat or fish used as, or in the preparation of, an animal feeding stuff;
- “**by-product**” means any substance produced from an animal or plant, in any process of treatment or manufacture, not being the primary object of such process;
- “**Food Standards Code**” means the code published under the name “Food Standards Code” in the Commonwealth *Food Standards Gazette* on 27 August 1987 together with any

**r. 2A**

---

amendments to the standards in that Code up to and including “Amendment 84”;

**“manufactured stock food”** means any feed made up of one or more of the following —

- (a) basic feed;
- (b) processed food;
- (c) by-products,

and includes stock licks but does not include basic feed only;

**“MRL Standard”** means the “Maximum Residue Limit Standard”, listing maximum residue limits set by the Australian Pesticides and Veterinary Medicines Authority (APVMA) as published in the *Agricultural and Veterinary Chemical Gazette* of the Commonwealth, together with any amendments, as at February 2006;

**“processed food”** means a basic feed which has been changed in form by chemical, physical, or mechanical treatment and includes by-products.

- (2) In these regulations a reference to agricultural produce by a group name specified in Column 1 of Schedule 1 is a reference to the agricultural produce specified opposite that group name in Column 2 of that Schedule.

*[Regulation 2AA inserted in Gazette 22 May 1987 p. 2202; amended in Gazette 11 Jun 1996 p. 2431-2; 11 Aug 2006 p. 2977-8.]*

## **2A. Agricultural chemicals**

The substances set forthIf a substance is —

- (a) defined as a “metal contaminant” in Columnthe Food Standards Code, Standard 1-4.1, clause 2; or
- (b) defined as a “chemical” in the Food Standards Code, Standard 1.4.2, clause 1(6) and listed in bold type in one

of the shaded boxed in Schedule 2 are 1 of that Standard; or

- (c) listed as a “compound” in the MRL Standard Table 4; or
- (d) listed as in Schedule 3 to these regulations,

that substance is prescribed to be an “agricultural chemicals~~chemical~~” for the purposes of the Act.

*[Regulation- 2A inserted in Gazette 18 Oct 1985 11 Aug 2006 p. 4083; amended in Gazette 11 Jun 1996 p. 2432.] 2978.]*

### **3. Maximum residue limits**

- (1) Subject to subregulations (2) and (3), this regulation, the maximum residue limits specified in Column 3 of Schedule 2 are prescribed in respect of the for agricultural chemicals specified in Column 1 agricultural produce are those set out in—
  - (a) the Table to clause 2 of that the Food Standards Code, Standard 1.4.1; or
  - (b) Schedule 1 of the Food Standards Code, Standard 1.4.2; or
  - (c) Table 4 to the MRL Standard.
- (2) Where there is no maximum residue limit prescribed for an agricultural chemical in agricultural produce under subregulation (1), the maximum residual limit is zero.
- (3) Where mixed agricultural produce listed in a Schedule or Table referred to in subregulation (1) contains more than one kind of agricultural produce listed under or against an agricultural chemical, then the following formulae are to be used to calculate a maximum residue limit (MRL) for the agricultural chemical in relation to the that mixed agricultural produce specified in Column 2 of that Schedule.—

(For a mixture of 2):

r. 3

---

$$MRL C = \frac{Weight A}{Total Weight} \times MRL A + \frac{Weight B}{Total Weight} \times MRL B$$

---

Where ~~any~~ any

**MRL C** = the MRL that applies to the agricultural chemical in the mixed agricultural produce ~~consists of or contains one or more~~;

**MRL A** = the MRL for the agricultural chemical which applies to agricultural produce A;

**MRL B** = the MRL for the agricultural chemical which applies to agricultural produce B;

**Total Weight** = the total weight of the ~~kinds~~ mixed agricultural produce;

**Weight A** = the total weight of agricultural produce referred to in Column A;

**Weight B** = the total weight of agricultural produce B.

~~For a mixture of more than 2 of Schedule 2 the maximum residue limit is the proportionate quantities of the respective maximum residue limits of the constituents.~~

$$(3) MRL C = \sum_{i=1}^n \frac{Weight i}{Total Weight} \times MRL i$$

---

(4) Where residues of 2 or more of the agricultural chemicals listed in any one group of those specified in Schedule 3 are present in any agricultural produce, ~~the maximum residue limit is unity when determined by calculating the sum of the fractions obtained by dividing the proportion of each agricultural chemical present by the maximum residue limit of that agricultural chemical in that agricultural produce if it alone were present~~ then when the following formula is applied, the MRL levels are exceeded if the result (Z) is greater than 1.

**Where 2 residues are present:**

$$\frac{\text{Concentration of chemical A present}}{\text{MRL for chemical A}} + \frac{\text{Concentration of chemical B present}}{\text{MRL for chemical B}} = Z$$

**Where more than 2 residues are present:**

$$\sum_{i=1}^n \frac{[i]}{\text{MRL } i} = Z$$

[Regulation-3 ~~amended~~inserted in Gazette  
11 Jun 1996 Aug 2006 p. 2432.] 2978-9.]

**4. Method of determination**

For the purpose of determining the agricultural chemicals present in agricultural produce, the agricultural produce examined shall consist of the whole agricultural produce and the results of the analysis shall be expressed in milligrams of the residue per kilogram (mg/kg) of the whole agricultural produce except in the case of the following agricultural produce, which shall be examined subject to the modifications specified below —

- (a) bananas — crown tissue and stalk shall be removed and discarded;
- (b) tree nuts — shells shall be removed and discarded;
- (c) strawberries — caps (hulls) shall be removed and discarded;
- (d) melons — stems shall be removed and discarded;
- (e) corn (*Zea mays*) — stems and outer sheaths (husks) shall be removed from the ears and discarded (only the corn kernels shall be examined);
- (f) pineapples — the crowns (leaves at the top of the fruit) shall be removed and discarded;
- (g) passionfruit — skin shall be removed and discarded;

**r. 4**

---

- (h) eggs — shells shall be removed and discarded;
- (i) stone fruits — stones shall be removed and discarded;
- (j) root vegetables — where a maximum residue limit is specified in relation to a root vegetable including tops or with tops and the tops and the root are marketed together, they shall be analysed separately and neither the residue on the roots nor the residue on the tops shall exceed the maximum residue limit.

*[Regulation 4 amended in Gazette 11 Jun 1996 p. 2432.]*

*[5. Repealed in Gazette 30 Dec 2004 p. 6894.]*

## **Schedule 1**

[Regulation 2AA]

<b>Column 1</b> <b>Group name</b>	<b>Column 2</b> <b>Agricultural produce</b>
Alliums	Chives, Garlic, Leeks, Onions, Shallots
Berry fruits	Blackberries, Boysenberries, Currants, Elderberries, Gooseberries, Loganberries, Mulberries, Raspberries, Rosehips, Strawberries, Vaccinium berries
Berry vegetables	Cape gooseberry, Capsicums, Eggplant, Okra, Tomatoes
Cereal grains	Barley, Maize, Millet, Oats, Rice, Rye, Sorghum, Triticale, Wheat
Citrus fruits	Citrons, Cumquats, Grapefruits, Lemons, Limes, Mandarins, Oranges, Pomeloes, Tangeloes, Tangors
Cucurbits	Chokos, Cucumbers, Marrows, Melons, Pumpkins, Squash
Fish	Crustaceans, Freshwater fish, Sea-fish, Shellfish
Fruit	Avocados, Bananas, Berry fruits, Citrus fruits, Custard apples, Figs, Grapes, Guavas, Mangoes, Monstera, Passionfruit, Pawpaws, Persimmons, Pineapples, Pome fruits, Stone fruits
Leafy vegetables	Chinese cabbage, Cole crops (Broccoli, Brussel sprouts, Cabbages, Cauliflowers, Kale, Kohlrabi), Cress, Endive, Lettuce, Spinach, Swiss chard, Turnip tops
Meat	Buffaloes, Cattle, Goats, Pigs, Sheep
Oil seeds	Cottonseed, Linseed, Rapeseed, Safflower seed, Sunflower seed
Pome fruits	Apples, Crabapples, Loquats, Medlars, Pears, Pomegranates, Quinces
Poultry	Domestic fowls, Ducks, Geese, Guinea fowls, Pheasants, Pigeons, Quail, Turkeys

**Agricultural Produce (Chemical Residues) Regulations 1985**  
**Schedule 1**

---

Root vegetables	Artichokes, Beetroot, Carrots, Celeriac, Chicory root, Horseradish, Parsnips, Potatoes, Radishes, Salsify, Scorzonera, Swede turnips, Sweet potatoes, Turnips
Seed and pod vegetables	Broad beans, Dried bean seeds, Dried pea seeds, Garden peas, Green beans, Lentils, Mung beans, Soya beans, Sugar peas
Stalk vegetables	Asparagus, Bamboo shoots, Celery, Fennel, Rhubarb
Stone fruits	Apricots, Cherries, Nectarines, Peaches, Plums
Tree nuts	Almond, Brazil, Cashew, Chestnuts, Hazel, Litchi, Macadamia, Pecan, Pistachio, Walnuts
Vegetables	Alliums, Berry vegetables, Cucurbits, Leafy vegetables, Root vegetables, Seed and pod vegetables, Stalk vegetables

*[Schedule 1 inserted in Gazette 11 Jun 1996 p. 2432-4.]*

p. 2434-89.] 2979.]

## **Schedule 3**

[Regulation 3]

### **Group A**

Aldrin	Endosulfan
Chlordane	Endrin
Chlordecone	Heptachlor
Dieldrin	Isobenzan

### **Group B**

BHC and its isomers	Dicofol
DDT (including DDD and DDE)	Fenarimol
<del>1,1-Dichloro 2,2-bis (4-ethylphenyl) ethane</del>	Lindane
	Methoxychlor
	Quintozene

### **Group C**

Camphechlor
Chlorinated terpene isomers

### **Group D**

Azamethiphos	Ethion
Azinphos-ethyl	Ethoprophos
Azinphos-methyl	Famphur
Bromophos-ethyl	Fenamiphos
Carbophenothion	Fenchlorphos
Chlorfenvinphos	Fenitrothion
Chlorpyriphos	Fensulfothion
Chlorpyriphos-methyl	Fenthion
Chlorthiophos	<b>Formetanate</b>
Coumaphos	Formothion
Crotoxyphos	Isocarbophos
Demeton	Leptophos
Diazinon	Maldison
Dichlorvos	Menazon
Dimethoate	Methamidophos
Dioxathion	Methidathion
Disulfoton	Mevinphos
Dithianon	Monocrotophos

**Agricultural Produce (Chemical Residues) Regulations 1985**  
**Schedule 3**

---

Naled	Pirimiphos-methyl
Naphthalophos	Prothiophos
Omethoate	Pyrazophos
Parathion	Schradan
Parathion-methyl	Sulprofos
Phenkaption	Temephos
Phorate	Tetrachlorvinphos
Phosalone	Thiometon
Phosmet	Tributylphosphorotrithioate
Phosphamidon	Trichlorfon
Pirimiphos-ethyl	Vamidothion

**Group E**

<u>bis(Dimethylthio-</u>	<u>Maneb</u>
<u>—carbamoyl dithio</u>	<u>Metiram</u>
<u>—(thiocarbonyl) amino)—ethylene</u>	<u>Propineb</u>
<u>—bam</u>	<u>Thiram</u>
<u>Mancozeb</u> <u>Dithiocarbamates</u>	<u>Zineb</u>
<u>(including —</u>	<u>Zirampropineb</u>
<u>ferbam</u>	<u>thiram</u>
<u>mancozeb</u>	<u>zineb</u>
<u>maneb</u>	<u>ziram)</u>
	<u>Formetanate</u>

**Group F**

4-CPA	MCPB
2,4-D	Picloram
Diclofop-methyl	2,4,5-T
MCPA	

**Group G**

Aldicarb	Phenisopham
Aminocarb	Promacyl
Bendiocarb	Promecarb
Butacarb	Propham
Carbaryl	Propoxur
Iprodione	Thiobencarb
Methomyl	Thiobucarb
Oxamyl	

**Group H**

Chloroxuron	Metobromuron
Diuron	Metoxuron
Fluometuron	Monuron
Linuron	Noruron
Methabenzthiazuron	Thidiazuron

**Group I**

Cambendazole
Parbendazole
Thiabendazole

**Group J**

~~Benomyl~~  
~~Carbendazim~~  
~~Thiophanate~~  
~~Thiophanate-methyl~~  
Carbendazim (including —  
benomyl  
thiophanate  
thiophanate-methyl)

**Group K**

Dinoseb
DNOC

**Group L**

Ametryn	Metribuzin
Atrazine	Prometryn
Aziprotryne	Propazine
Cyanazine	Simazine
Cycloparafate	Terbutylazine
Desmetryn	Terbutryn

**Group M**

Alachlor	Metolachlor
Butachlor	Propachlor
Fluchloralin	Prynahchlor

**Agricultural Produce (Chemical Residues) Regulations 1985**  
**Schedule 3**

---

**Group N**

Chlormequat  
Diquat  
Paraquat

**Group O**

Captafol  
Captan

**Group P**

Carbon tetrachloride  
Ethylene dibromide (EDB)  
Ethylene dichloride  
Methyl bromide  
Trichloroethylene

**Group Q**

Azocyclotin  
Cyhexatin  
Fenbutatin-oxide

**Group R**

Fenfuram  
Methfuroxam

**Group S**

Bioresmethrin	Fenvalerate
Cypermethrin	Permethrin
Deltamethrin	Pyrethrins

**Group T**

Etridiazole  
Triadimefon  
Triazbutil

*[Schedule 3 inserted in Gazette 11 Jun 1996 p. 2489-91; amended  
in Gazette 11 Aug 2006 p. 2979-80.]*

## Notes

- <sup>1</sup> This is a compilation of the *Agriculture**Agricultural Produce (Chemical Residues) Regulations 1985* and includes the amendments made by the other written laws referred to in the following table. The table also contains information about any reprint.

## Compilation table

Citation	Gazettal	Commencement
<i>Agricultural Produce (Chemical Residues) Regulations 1985</i>	30 Aug 1985 p. 3127-45	1 Sep 1985 (see r. 2)
<i>Agricultural Produce (Chemical Residues) Amendment Regulations 1985</i>	18 Oct 1985 p. 4083	18 Oct 1985
<i>Agricultural Produce (Chemical Residues) Amendment Regulations 1986</i>	7 Nov 1986 p. 4173	7 Nov 1986
<i>Agricultural Produce (Chemical Residues) Amendment Regulations 1987</i>	22 May 1987 p. 2202-3	22 May 1987
<i>Agricultural Produce (Chemical Residues) Amendment Regulations 1996</i>	11 Jun 1996 p. 2431-91	11 Jun 1996
<b>Reprint of the Agricultural Produce (Chemical Residues) Regulations 1985 as at 9 Nov 2001</b> (includes amendments listed above)		
<i>Agricultural Produce (Chemical Residues) Amendment Regulations 2004</i>	30 Dec 2004 p. 6894	1 Jan 2005 (see r. 2 and <i>Gazette</i> 31 Dec 2004 p. 7130)
