Quality area 1 — Educational program and practice

The educational program and practice is stimulating, engaging and enhances children's learning and development. In services for children over preschool age the program nurtures the development of life skills and complements children's experiences, opportunities and relationships at school, at home and in the community.

Standard 1.1 An Approved Learning Framework informs the development of a curriculum that enhances each child's learning and development.

Element 1.1.1 Curriculum decision making contributes to each child's learning and development outcomes in relation to their identity, connection with community, wellbeing, confidence as learners and effectiveness as communicators.

Element 1.1.2 -Each child's current knowledge, ideas, culture, abilities and interests are the foundation of the program.

Element 1.1.3 -The program, including routines, is organised in ways that maximise opportunities for each child's learning.

Element 1.1.4 -The documentation about each child's program and progress is available to families.

Element 1.1.5 -Every child is supported to participate in the program.

Element 1.1.6 -Each child's agency is promoted, enabling them to make choices and decisions and influence events and their world.

Standard 1.2 -Educators and co-ordinators are focused, active and reflective in designing and delivering the program for each child.

Element 1.2.1 -Each child's learning and development is assessed as part of an ongoing cycle of planning, documentation and evaluation.

Element 1.2.2 -Educators respond to children's ideas and play and use intentional teaching to scaffold and extend each child's learning.

Element 1.2.3 -Critical reflection on children's learning and development, both as individuals and in groups, is regularly used to implement the program.

For the purposes of Quality area 1 —

agency involves being able to make choices and decisions, to influence events and to have an impact on one's world;

intentional teaching involves educators being deliberate, purposeful and thoughtful in their decisions and actions. Intentional teaching is the opposite of teaching by rote or continuing with traditions simply because things have *always* been done that way;

scaffold means the educators' decisions and actions that build on children's existing knowledge and skills to enhance their learning.

Quality area 2 — Children's health and safety

Every child's health and wellbeing is safeguarded and promoted.

Standard 2.1 Each child's health is promoted.
