Petroleum (Submerged Lands) Act 1982

An Act to make provision with respect to the exploration for and the exploitation of the petroleum resources, and certain other resources, of certain submerged lands adjacent to the coast of Western Australia, to repeal the *Petroleum (Submerged Lands) Act 1967*, and for incidental and other purposes.

Preamble

Whereas in accordance with international law Australia as a coastal State has sovereign rights over the continental shelf beyond the limits of Australian territorial waters for the purpose of exploring it and exploiting its natural resources:

And whereas Australia is a party to the Convention on the continental shelf signed at Geneva on 29 April 1958 in which those rights are defined:

And whereas by the *Seas and Submerged Lands Act 1973* of the Commonwealth it is declared and enacted that the sovereignty in respect of the territorial sea of Australia and in respect of the airspace over it and in respect of its seabed and subsoil, and the sovereignty in respect of certain internal waters of Australia and in respect of the airspace over those waters and in respect of the seabed and subsoil beneath those waters, is vested in and exercisable by the Crown in right of the Commonwealth:

And whereas the Parliaments of the States and the Legislative Assembly of the Northern Territory have certain legislative powers in respect of the seabed and subsoil referred to in the last preceding recital and the Parliament of the Commonwealth has vested in the Crown in right of each of the States and the Crown in right of the Northern Territory certain proprietary rights in respect of that seabed and subsoil:

And whereas it has been agreed between the Commonwealth, the States and the Northern Territory that, in place of the scheme provided for by an Agreement between the Commonwealth and the States dated 16 October 1967 —

- (a) legislation of the Parliament of the Commonwealth in respect of the exploration for and the exploitation of the petroleum resources of submerged lands should be limited to the resources of lands beneath waters that are beyond the outer limits of the territorial sea adjacent to the States and the Northern Territory (being outer limits based, unless and until otherwise agreed, on the breadth of that sea being 3 nautical miles), and that the States and the Northern Territory should share in the administration of that legislation; and
- (b) legislation of the Parliament of each State should apply in respect of the exploration for and the exploitation of the petroleum resources of such part of the submerged lands in an area adjacent to the State as is on the landward side of the waters referred to in paragraph (a); and
- (c) legislation of the Legislative Assembly of the Northern Territory should apply in respect of the exploration for and the exploitation of the petroleum resources of such part of the submerged lands in an area adjacent to the Northern Territory as is on the landward side of the waters referred to in paragraph (a); and
- (d) the Commonwealth, the States and the Northern Territory should endeavour to maintain, as far as practicable, common principles, rules and practices in the regulation and control of the exploration for and the exploitation of the petroleum resources of all the submerged lands referred to above that are on the seaward side of the inner limits of the territorial sea of Australia:

[Preamble amended by No. 19 of 2010 s. 50.]

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and the

Legislative Assembly of Western Australia, in this present Parliament assembled, and by the authority of the same, as follows: —

(1) Before section 9(1) insert:

(1A) In this section —

Joint Authority has the meaning given in the Commonwealth Act section 7.

(2) After section 9(7) insert:

(7A) If a petroleum pool is partly in a licence area and partly in another area (in this subsection called the *other area*) in which the licensee has authority, under another written law, to explore for or recover petroleum, and petroleum is recovered from that pool through a well or wells in the licence area, the other area or both, there is taken to have been recovered in the licence area such proportion of all petroleum so recovered as may reasonably be treated as being derived from that area, having regard to the nature and probable extent of the pool, and that proportion is to be determined in accordance with subsection (7B).

(7B) The proportion to be determined for the purposes of subsection (7A) may be determined by agreement between the licensee, the Minister and, if the other written law is administered by a Minister of the Crown other than the Minister, that Minister of the Crown or, in the absence of agreement, may be determined by the Supreme Court on the application of any of those persons.

(3) After section 9(8) insert:

(8A) If —

(a) an agreement is in force to explore for, or recover, petroleum between —

(i) a licensee, the Joint Authority and the Minister in relation to a petroleum pool that is partly in the licence area and partly in another area (the *other area*) in which the licensee has authority under the Commonwealth Act; or

(ii) a licensee, the Minister and the Minister administering a corresponding law in relation to a petroleum pool that is partly in the licence area and partly in another area (the *other area*) in which the licensee has authority under the corresponding law; or

area) in which the licensee has authority under another written law;

and

(b) the agreement contains a provision (the **apportionment provision**) that provides that, for the purposes of this section, there is taken to be recovered in the licence area a specified proportion of all of the petroleum recovered from the petroleum pool; and

(c) assuming that petroleum were recovered from the part of the seabed that is within the areal and vertical extents specified in the agreement, the specified proportion would be consistent with such proportion of all petroleum so recovered as may reasonably be treated as being derived from the licence area, having regard to the nature and probable extent of the petroleum in that part of the seabed; and

(d) the agreement contains a provision to the effect that if it becomes apparent that the areal and vertical extents of the petroleum pool, as specified in the agreement, comprise or are likely to comprise more than one petroleum pool, the apportionment set out in the apportionment provision will apply to the petroleum recovered from any or all of those petroleum pools, regardless of their location but within those areal and vertical extents; and

(e) after the time of the making of the agreement, it becomes apparent that the areal and vertical extents of the petroleum pool, as specified in the agreement, comprise, or are likely to comprise, 2 or more petroleum pools; and

(f) petroleum is recovered from any of those petroleum pools through a well or wells in the licence area, the other area or both,

then —

(g) for the purposes of this Act, there is taken to have been recovered in the licence area such proportion of all petroleum so recovered as is specified in the apportionment provision; and

(h) subsection (4), (6) or (7A), as the case requires, does not apply to any of those petroleum pools.

(8B) The question of whether there is or was a petroleum pool covered by subsection (8A)(a) is to be determined on the basis of information known at the time of the making of the relevant agreement referred to in that provision.

- (8C) The question of whether subsection (8A)(c) applies is to be determined on the basis of information known at the time of the commencement of the apportionment provision.
- (8D) The location of any of the 2 or more petroleum pools mentioned in subsection (8A)(e) is immaterial.
- (8E) If —
- (a) at a particular time after the commencement day, a petroleum pool is partly in a licence area and partly in another area (the *other area*) in which the licensee has authority under the Commonwealth Act, a corresponding law or another written law to explore for, or recover, petroleum; and
 - (b) at that time, an agreement is made between —
 - (i) if the licensee has authority under the Commonwealth Act — the licensee, the Joint Authority and the Minister; or
 - (ii) if the licensee has authority under a corresponding law — the licensee, the Minister and the Minister administering the corresponding law; or
 - (iii) if the licensee has authority under another written law — the licensee, the Minister and, if the other written law is administered by a Minister of the Crown other than the Minister, that Minister of the Crown;
- and
- (c) the agreement specifies a part of the seabed by reference to its areal and vertical extents; and
 - (d) the areal and vertical extents of the specified part consist of —
 - (i) the whole or a part of the licence area; and
 - (ii) the whole or a part of the other area;
- and
- (e) the areal and vertical extents of the specified part include the petroleum pool; and
 - (f) the agreement contains a provision (the *apportionment provision*) that provides that, for the purposes of this section, there is taken to be recovered in the licence area a specified proportion of all of the petroleum recovered from the specified part; and
 - (g) assuming that petroleum were recovered from the specified part, the specified proportion would be

consistent with such proportion of all petroleum so recovered as may reasonably be treated as being derived from the licence area, having regard to the nature and probable extent of the petroleum in the specified part; and

(h) petroleum is recovered from the specified part through a well or wells in the licence area, the other area or both,

then —

(i) for the purposes of this Act, there is taken to have been recovered in the licence area such proportion of all petroleum so recovered as is specified in the apportionment provision; and

(j) subsection (4), (6) or (7A), as the case requires, does not apply to a petroleum pool located in the specified part.

(8F) The question of whether there is or was a petroleum pool covered by subsection (8E)(a) at a particular time is to be determined on the basis of information known at that time.

(8G) The question of whether subsection (8E)(g) applies is to be determined on the basis of information known at the time of the commencement of the apportionment provision.

(8H) In subsection (8E)(a) —

commencement day means the day on which the *Petroleum Legislation Amendment Act 2017* section 28 comes into operation.
