This Division applies to a driver making a left turn at an intersection and, where specifically expressed to do so, applies to a driver entering a roundabout.

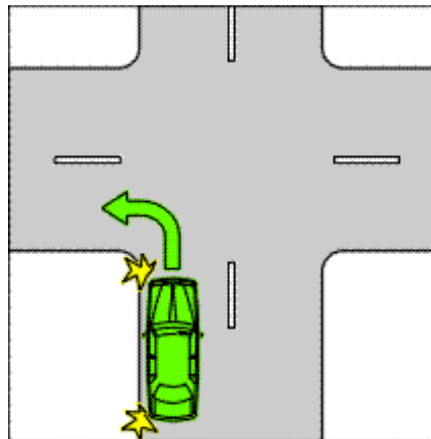

20. Left turns (single lanes)

A driver who is about to make a left turn from a carriageway (other than a multi-lane carriageway) at an intersection shall so drive the vehicle that, when it reaches the intersection, it is as near as practicable to the left edge or boundary of the carriageway.

Long vehicle turning left from the left lane and next marked lane

- (3) In this regulation —
“left lane” means —
 - (a) the lane nearest to the far left side of the carriageway;
or

Division 5 — Turns from a carriageway to land abutting the carriageway

33. Turns to enter abutting land

- (1) A driver who is about to make a left turn from a carriageway, to enter land abutting that carriageway, shall so drive the vehicle that, when it reaches the point at which the turn is to be made, it is —
 - (a) to the left of any vehicle that is abreast of his or her own and travelling in the same direction; and
 - (b) as near as practicable to the left edge or boundary of the carriageway.

Points: 2 Modified penalty: 2 PU

- (2) Subject to subregulation (3), a driver who is about to make a right turn to enter land abutting a carriageway shall —
 - (a) where he or she is travelling on a two-way carriageway, approach the point at which the turn is to be made so that the vehicle is to the left of, parallel with, and as near as practicable to, the centre of the carriageway; and

- (b) where he or she is travelling on a one-way carriageway, approach the point at which the turn is to be made so that the vehicle is parallel with and as near as practicable to, the right boundary of the carriageway.

Points: 2 Modified penalty: 2 PU

- (3) Subregulation (2) does not apply where a vehicle is in a marked lane that has a sign alongside or over it or markings on its surface indicating that a right turn shall, or may be, made by vehicles in that lane.

[Regulation 33 amended in Gazette 22 Dec 2006 p. 5819.]

Part 5 — Turning and stop signals

34. Interpretation

- (1) In this Part, a driver is **“turning left”** if the driver is doing any of the following:
 - (a) turning left;
 - (b) changing lanes to the left;
 - (c) diverging to the left;
 - (d) entering a marked lane, or a line of traffic, to the left;
 - (e) moving to the left from a stationary position;
 - (f) turning left into a marked lane, or a line of traffic, from a median strip parking area;
 - (g) at a T-intersection where the continuing road curves to the right — leaving the continuing road to proceed straight ahead onto the terminating road.
- (2) In this Part, a driver is **“turning right”** if the driver is doing any of the following:
 - (a) turning right;
 - (b) changing marked lanes to the right;
 - (c) diverging to the right;
 - (d) entering a marked lane, or a line of traffic, to the right;
 - (e) moving to the right from a stationary position;
 - (f) turning right into a marked lane, or a line of traffic, from a median strip parking area;
 - (g) making a U turn;
 - (h) at a T-intersection where the continuing road curves to the left — leaving the continuing road to proceed straight ahead onto the terminating road.
- (3) In this Part, a rider is not taken to be **“turning right”** if the rider is making a hook turn in accordance with regulation 28.

35. When drivers are to give signals

A driver shall not turn right or left, or stop or suddenly decrease speed, without giving warning of his or her intentions, by a signal as prescribed by this Part.

[Regulation 35 amended in Gazette 1 Dec 2000 p. 6753.]

36. How drivers are to give signals

- (1) A driver who is required to give a signal of intention to turn right or left, or to drive a public bus out from a bus embayment shall, where the vehicle is equipped with the appropriate flashing light signalling device or illuminated indicator in working order, give the signal by means of that flashing light signalling device or illuminated indicator.

Points: 2 Modified penalty: 2 PU

- (2) A driver who is required to give a signal of intention to turn right shall, where the vehicle is not equipped with an appropriate flashing light signalling device or illuminated indicator in working order, give the signal —
- (a) by means of a hand-shaped signalling device; or
 - (b) by fully extending his or her right arm and hand horizontally beyond the right side of the vehicle and approximately at right angles to the centre line of the vehicle.

Points: 2 Modified penalty: 2 PU

Example

Giving a hand signal for turning (inc. diverging) to the right

- (3) A rider of a bicycle who is required to give a signal of intention to turn left, shall give a signal by fully extending his or her left arm and hand horizontally beyond the left side of the vehicle and approximately at right angles to the centre line of the vehicle.

Modified penalty: 2 PU

- (4) A driver who is required to give a signal of intention to stop or to reduce speed suddenly shall, where the vehicle is equipped with a stop light or lights in working order, give the signal by means of that stop light or those lights.

Points: 2 Modified penalty: 2 PU

- (5) A driver who is required to give a signal of intention to stop or to reduce speed suddenly shall, where the vehicle is not equipped with a stop light or lights in working order, give the signal —

- (a) by means of a hand-shaped signalling device; or
- (b) by extending his or her right arm beyond the right side of the vehicle with the upper arm horizontal and the forearm and fingers pointing upwards.

Points: 2 Modified penalty: 2 PU

Example

Giving a hand signal for stopping or reducing speed suddenly

- (6) Despite subregulation (5), the rider of a motor cycle may give the hand signal to stop or to reduce speed suddenly by extending the left arm and hand at right angles from the left side of the motor cycle, with the upper arm horizontal and the forearm and hand pointing upwards, and with the hand open and the palm facing the direction of travel.
- (7) Nothing in this regulation —
- (a) prevents a driver who complies with subregulation (1) or (4) from also giving the arm and hand signal that he or she would be required to give if the vehicle were not equipped with the appropriate flashing light signalling device, illuminated indicator or stop light or lights as the case may be; or
 - (b) requires the driver of a vehicle, which is not a bicycle, to give a signal of intention to turn left if the vehicle is not equipped with a flashing light signalling device or illuminated indicator capable of being used to give such a signal.

37. How long should the signals be given

- (1) A driver shall give —
- (a) a signal to turn right or left; or
 - (b) any signal required to be given where a vehicle is not equipped with a flashing light signalling device or

r. 38

illuminated indicator capable of being used to give such a signal,

for long enough to give sufficient warning to other drivers and pedestrians.

Points: 2 Modified penalty: 2 PU

- (2) In addition to subregulation (1), a driver shall give a signal prescribed by this Part, where he or she intends —
- (a) to join a line of traffic and the vehicle is stationary at the side of a carriageway, or in a centre of the road parking area — continuously for 5 seconds before pulling out;
 - (b) to stop or suddenly reduce speed — while the brakes are being applied; and
 - (c) to drive a public bus away from a bus embayment or from the side of a carriageway — for at least 5 seconds.

Points: 2 Modified penalty: 2 PU

38. Use of signalling devices

- (1) A driver shall not permit a signalling device to be operated, except for the purpose of giving a signal in accordance with the provisions of these regulations (including operation as part of the vehicle's hazard warning lights).

Modified penalty: 1 PU

- (2) A driver shall not permit a signalling device on the vehicle to remain in operation after the completion of the turn in respect of which the device was put into operation.

Modified penalty: 1 PU

Part 6 — Traffic-control signals (traffic lights and twin alternating red lights)

Division 1 — Obeying traffic-control signals (traffic lights)

39. Effect of a circular green signal or green arrow

- (1) If a traffic-control signal facing a driver displays a circular green signal the driver may —
- (a) proceed straight ahead; or
 - (b) turn right or turn left, if the driver —
 - (i) does not conflict or interfere with pedestrians crossing the roadway;
 - (ii) does not turn the vehicle contrary to an instruction on a traffic sign at the intersection; and
 - (iii) gives way to any vehicle on the right and, if turning right, gives way to any vehicle that has entered or is approaching the intersection from the opposite direction.

Modified penalty: 3 PU

- (2) The display of a green arrow on a traffic-control signal is a direction to a driver facing it that opposing traffic has been stopped to enable him or her to proceed, or that traffic does not conflict with his or her proceeding, in the direction indicated by the arrow; and, where the arrow has not come into operation, the display of a circular green signal, alone, is a direction to a driver facing it that he or she may make the turn that would otherwise be indicated by the arrow, but only if the movement can be made with safety, in the face of oncoming traffic.

40. Stopping for a circular red signal or red arrow

- (1) If a traffic-control signal facing a driver displays a circular red signal —
- (a) subject to regulation 43, the driver shall not proceed beyond the stop line associated with the signal;
 - (b) if there is a “stop here on red signal” sign at or near the signal, but no stop line, the driver shall not proceed beyond the sign; or
 - (c) in the absence of a stop line, the driver shall not proceed beyond a point adjacent to the nearest appropriate traffic-control signal.

- (2) If a traffic-control signal facing a driver displays a red arrow signal —
- (a) subject to regulation 43, the driver shall not proceed beyond the stop line associated with the signal;
 - (b) if there is a “stop here on red arrow” sign at or near the signal, but no stop line, the driver shall not proceed beyond the sign; or
 - (c) in the absence of a stop line, the driver shall not proceed beyond a point adjacent to the nearest appropriate traffic-control signal,

as the case may be, in the direction indicated by the arrow.

41. Stopping for a circular yellow signal or yellow arrow

- (1) If a traffic-control signal facing a driver displays a steady circular yellow signal or a yellow arrow, the driver shall not proceed beyond the stop line associated with the signal or the stop line of the lane associated with the signal or in the absence of a stop line, at a point adjacent to the nearest appropriate traffic-control signal, unless the driver is so close to the stop line, or traffic-control signal, when the circular yellow signal or yellow arrow first appears, that the driver cannot safely stop the vehicle before passing over the stop line.

Points: 2 Modified penalty: 2 PU

- (2) If a traffic-control signal facing a driver displays a steady circular yellow signal or a yellow arrow and the driver cannot safely stop the vehicle in accordance with subregulation (1), but can stop safely before entering the intersection, the driver shall stop before entering the intersection.

Points: 2 Modified penalty: 2 PU

- (3) If a traffic-control signal facing a driver displays a steady circular yellow signal or a yellow arrow and the driver is not able to stop safely under subregulation (1) or (2), and enters the intersection, the driver shall leave the intersection as soon as the driver can do so safely.

42. Exceptions (red and yellow signals with a green arrow)

If a traffic-control signal facing a driver displays a green arrow, in conjunction with a circular red or yellow signal, the driver may proceed, but only in the direction indicated by the arrow.

43. Turning left on a red signal

Despite regulation 40, a driver may turn left at an intersection —

- (a) at which there is a traffic-control signal facing the driver and displaying a circular red signal, alone; and
- (b) at or near which there is a “left turn on red permitted after stopping” sign,

if —

- (c) before starting to make the turn, the driver —
 - (i) stops the vehicle as near as possible to, but without passing over, the stop line associated with the traffic-control signal; or
 - (ii) in the absence of a stop line, stops the vehicle, without entering the intersection, at a point adjacent to the nearest appropriate traffic-control signal;

and

- (d) the driver can make the turn with safety.

Points: 3 Modified penalty: 3 PU

44. What to do if signals change when intersection congested, etc.

- (1) This regulation applies to a driver —
- (a) if a traffic-control signal facing the driver displays a circular green signal at an intersection and the driver has stopped after the stop line, “stop here on red signal” sign, or nearest or only traffic lights, at the intersection; or
 - (b) if a traffic-control signal facing the driver at an intersection displays a green traffic arrow and the driver is turning in the direction indicated by the arrow but the driver has stopped after the stop line, “stop here on red arrow” sign, or nearest or only traffic arrows, at the intersection.
- (2) Subject to this regulation, if the traffic-control signals change to yellow or red while a driver is stopped and the driver has not fully entered the intersection, the driver shall not begin to enter the intersection, or proceed further into the intersection.
- Points: 3 Modified penalty: 3 PU
- (3) Despite subregulation (2) —
- (a) if the traffic-control signals are at an intersection with a “left turn on red after stopping” sign and the driver is turning left at the intersection, the driver may turn left after stopping;
 - (b) if a traffic-control signal facing the driver at an intersection changes, to display a circular red signal, but a green traffic arrow is also displayed and the driver is turning in the direction indicated by the arrow, the driver

may continue to turn in the direction of the arrow if safe to do so.

- (4) If the traffic-control signals change to yellow or red while the driver is stopped and the driver has fully entered the intersection, the driver shall leave the intersection as soon as the driver can do so safely.

45. Right of way during turns at an intersection with traffic-control signals

- (1) A driver who intends to turn, is turning or has turned, right at an intersection with traffic-control signals shall give way to any oncoming vehicle that is going straight ahead or turning left at the intersection (except a vehicle turning left using a slip lane).

Points: 3 Modified penalty: 3 PU

- (2) A driver who intends to turn, is turning or has turned, left at an intersection with traffic-control signals and a “left turn on red after stopping” sign shall give way to any vehicle approaching from the right, turning right at the intersection into the carriageway the driver is entering or making a U turn at the intersection.

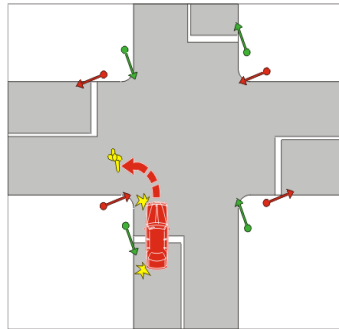

Points: 3 Modified penalty: 3 PU

- (3) A driver turning to the right or left (except a driver turning left using a slip lane) at an intersection with traffic-control signals shall give way to all pedestrians.

Points: 3 Modified penalty: 3 PU

46. Giving way at an intersection with traffic-control signals not operating or only partly operating

- (1) If all the traffic-control signals facing a driver approaching an intersection do not appear to be functioning, or are displaying a flashing yellow signal, and there is a traffic light-stop sign, the driver shall treat that intersection as if the driver were facing a “stop” sign and no traffic-control signals.

Points: 3 Modified penalty: 3 PU

- (3) Despite subregulations (1) and (2), a driver may only proceed beyond the stop line associated with traffic-control signals facing a driver that do not appear to be functioning, or display flashing yellow signals, or (in the absence of a stop line) beyond a point adjacent to the nearest signals, if the driver —

- (a) does not conflict or interfere with pedestrians crossing the roadway;

Points: 3 Modified penalty: 3 PU

47. Giving way at a flashing yellow traffic arrow at an intersection

A driver turning in the direction indicated by a flashing yellow traffic arrow at an intersection with traffic-control signals shall give way to —

- (a) any vehicle travelling on the carriageway the driver is entering;
- (b) any pedestrian at or near the intersection who is on the carriageway the driver is entering; and

Division 1 — General

108. Obstruction of vehicles and pedestrians

- (1) A person shall not, with intent to hinder or obstruct the passage of any vehicle or vehicles on a carriageway, park or stop a vehicle on the carriageway in such a manner as to cause the passage of any other vehicle on the carriageway to be obstructed or hindered.
- (2) A driver shall not unreasonably obstruct the path of another driver or a pedestrian.

Example of a driver driving abnormally slowly

A driver driving at a speed of 20 km/h on a length of carriageway to which a speed-limit of 80 km/h applies when there is no reason for the driver to drive at that speed on the length of carriageway.

109. Keeping a safe distance behind vehicles

Except when overtaking and passing, the driver of any vehicle shall, when following another vehicle, keep such distance behind it as will enable the driver to stop the vehicle in an emergency with safety, and without running into the vehicle in front of him or her.

- (c) any other lane that is not for the use of general traffic on the carriageway;

“right lane”, in relation to 2 or more marked lanes that are available exclusively for vehicles travelling in the same direction, means the marked lane that is further or furthest to the right side of the carriageway.

- (2) This regulation applies to a driver driving on a carriageway that has 2 or more marked lanes available exclusively for vehicles travelling in the same direction where —

- (a) the speed limit is 90 km/h or more; or
- (b) a “keep left unless overtaking” sign applies to that part of the carriageway,

or both.

- (3) A driver shall not drive the vehicle in the right lane unless —
- (a) the driver is turning right, or making a U turn from the centre of the road, and is giving a right turn signal;
 - (b) the driver is overtaking;
 - (c) a “left lane must turn left” sign or left traffic arrows apply to any other lane, and the driver is not turning left,

- (1) Except where these regulations otherwise provide, a driver on a two-way carriageway without a dividing line or median strip shall travel to the left of the carriageway, unless the driver can see ahead for a distance sufficient to enable him or her to do so with safety or without interfering with the progress of any oncoming vehicle.

Points: 3 Modified penalty: 3 PU

- (2) Except where these regulations otherwise provide, a driver on a two-way carriageway without a median strip shall not permit any portion of the vehicle to travel on or over or to the right of the centre of the carriageway when —

- (1) A driver on a part of the road that is a service road (except a service road to which a “two-way” sign applies) shall drive in the same direction as a vehicle travelling on the carriageway used by the main body of moving vehicles in the marked lane or line of traffic closest to the service road.

Points: 1 Modified penalty: 1 PU

- (2) In this Part, a service road to which a “two-way” sign applies is treated as if it were a separate two-way carriageway.

Two-way sign

Note for diagram There is another permitted version of the “two-way” sign.

Example

In this example, it is unlawful for vehicle B to have commenced driving on the painted island unless B intends to enter or leave the carriageway, or enter

a turning lane, immediately after the painted island. In any case, B cannot drive on the painted island for more than 50 m.

 - (c) the driver can do so safely.
- (3) In subregulation (2), if the dividing line is a single continuous dividing line to the left of a broken dividing line, a single continuous dividing line only or 2 parallel continuous dividing lines, the hazard in driving to the right of such a dividing line must be taken into account in deciding whether it is reasonable to drive to the right of the dividing line.

Division 3 — Overtaking

121. No overtaking unless safe to do so
