- (4) An impairment is, or is likely to be, permanent only if the impairment does not require further medical treatment or review in order for its permanency or likely permanency to be demonstrated (even though the impairment may continue to be treated and reviewed after this has been demonstrated).
- (5) If an impairment is of a degenerative nature, the impairment is, or is likely to be, permanent if medical or other treatment would not, or would be unlikely to, improve it.

*[Regulation 19 inserted: Gazette 30 Jun 2014 p. 2400-1;
amended: Gazette 14 Jun 2016 p. 1822.]*

20. Disability requirement — substantially reduced functional capacity (NDIS rule 5.8)

- (2) An impairment results in substantially reduced functional capacity to undertake an activity if its result is that —
 - (a) the person is unable to participate effectively or completely in the activity, or to perform tasks or actions required to undertake or participate effectively or

completely in the activity, without assistive technology, equipment (other than commonly used items such as glasses) or home modifications; or

- (b) the person usually requires assistance (including physical assistance, guidance, supervision or prompting) from other people to participate in the activity or to perform tasks or actions required to undertake or participate in the activity; or

- (4) An impairment is, or is likely to be, permanent only if the impairment does not require further medical treatment or review in order for its permanency or likely permanency to be demonstrated (even though the impairment may continue to be treated and reviewed after this has been demonstrated).

22. Early intervention requirement — supports to benefit person (NDIS rules 6.9 and 6.10)

- (1) For the purposes of section 26H(1)(c)(ii) of the Act, the Commission must apply the criteria set out in this regulation in deciding whether a person meets the early intervention requirements in the NDIS Act section 25(1)(b) and (c).
- (2) In deciding whether provision of early intervention supports is likely to benefit the person the Commission may consider —
 - (a) the likely trajectory and impact of the person’s impairment over time; and
 - (b) the potential benefits of early intervention on the impact of the impairment on the person’s functional capacity and in reducing their future needs for supports; and
 - (c) evidence from a range of sources, such as expert opinion and information provided by the person with disability or their family members or carers.
- (3) The Commission is taken to be satisfied that provision of early intervention supports for a child under the age of 6 is likely to benefit the child if one or more of the child’s impairments is a mental or physical impairment which, by itself or in combination with other mental or physical impairments, results in developmental delay.

- (4) In subregulation (3) —

developmental delay has the meaning given in the NDIS Act section 9.

[Regulation 22 inserted: Gazette 30 Jun 2014 p. 2403-4; amended: Gazette 14 Jun 2016 p. 1823.]

- (1) In this regulation —

operational policy means a policy made under section 12(1)(b) of the Act as published by the Commission and amended from time to time.

- (2) In deciding whether a prospective participant meets the disability requirements or the early intervention requirements, the Commission may, if the Commission considers it appropriate, conduct an assessment using an assessment tool specified in an operational policy.

[Regulation 23 inserted: Gazette 30 Jun 2014 p. 2404.]

Division 3 — Supports for participants

[Heading inserted: Gazette 30 Jun 2014 p. 2404.]

Subdivision 1 — General

[Heading inserted: Gazette 30 Jun 2014 p. 2404.]

24. References in regulation headings to comparable Commonwealth rules

Without limiting the *Interpretation Act 1984* section 32(2), a reference to “NDIS rule” followed by a rule designation in the heading to a regulation in this Division is a reference to the rule of the *National Disability Insurance Scheme (Supports for*

Participants) Rules 2013 (Commonwealth) with which the regulation in this Division is comparable.

[Regulation 24 inserted: Gazette 30 Jun 2014 p. 2404.]

Subdivision 2 — Assessing proposed supports

[Heading inserted: Gazette 30 Jun 2014 p. 2405.]

25. Value for money (NDIS rule 3.1)

In deciding whether a support represents value for money in that the costs of the support are reasonable, relative to both the benefits achieved and the cost of alternative support, the Commission must consider the following matters —

- (a) whether there are comparable supports which would achieve the same outcome at a substantially lower cost;
- (b) whether there is evidence that the support will substantially improve the life stage outcomes for, and be of long-term benefit to, the participant;
- (c) whether funding or provision of the support is likely to reduce the cost of the funding of supports for the participant in the long-term (for example, some early intervention supports may be value for money given their potential to avoid or delay reliance on more costly supports);
- (d) for supports that involve the provision of equipment or modifications —
 - (i) the comparative cost of purchasing or leasing the equipment or modifications; and
 - (ii) whether there are any expected changes in technology or the participant's circumstances in the short-term that would make it inappropriate to fund the equipment or modifications;
- (e) whether the cost of the support is comparable to the cost of supports of the same kind that are provided in the area in which the participant resides;

- (f) whether the support will increase the participant's independence and reduce the participant's need for other kinds of supports (for example, some home modifications may reduce a participant's need for home care).

[Regulation 25 inserted: Gazette 30 Jun 2014 p. 2405-6.]

26. Effective and beneficial and current good practice (NDIS rules 3.2 and 3.3)

- (1) In deciding whether a support will be, or is likely to be, effective and beneficial for a participant, having regard to current good practice, the Commission must consider the available evidence of the effectiveness of the support for others in like circumstances, for example —
 - (a) published and peer-reviewed literature and any consensus of expert opinion; or
 - (b) the experience of the participant or their carers; or
 - (c) anything the Commission has learned through conducting a trial under section 26G(1) of the Act.
- (2) In deciding whether a support will be, or is likely to be, effective and beneficial for a participant, having regard to current good practice, the Commission must take into account and, if necessary seek, expert opinion.

[Regulation 26 inserted: Gazette 30 Jun 2014 p. 2406.]

27. Reasonable family, carer and other support (NDIS rule 3.4)

In deciding whether funding or provision of a support takes account of what it is reasonable to expect families, carers, informal networks and the community to provide, the Commission must consider the following matters —

- (a) for a participant who is a child —
 - (i) that it is normal for parents to provide substantial care and support for children; and

- (ii) whether, because of the child's disability, the child's care needs are substantially greater than those of other children of a similar age; and
 - (iii) the extent of any risks to the wellbeing of the participant's family members or carers; and
 - (iv) whether the funding or provision of the support for a family would improve the child's capacity or future capacity, or would reduce any risk to the child's wellbeing;
- (b) for other participants —
- (i) the extent of any risks to the wellbeing of the participant arising from the participant's reliance on the support of family members, carers, informal networks and the community; and
 - (ii) the suitability of family members, carers, informal networks and the community to provide the supports that the participant requires, including such factors as —
 - (I) the age and capacity of the participant's family members and carers, including the extent to which family and community supports are available to sustain them in their caring role; and
 - (II) the intensity and type of support that is required and whether it is age and gender appropriate for a particular family member or carer to be providing that support; and
 - (III) the extent of any risks to the long-term wellbeing of any of the family members or carers (for example, a child should not be expected to provide care for their parents, siblings or other relatives or be

required to limit their educational opportunities);

and

(iii) the extent to which informal supports contribute to or reduce a participant's level of independence and other outcomes;

(c) for all participants — the desirability of supporting and developing the potential contributions of informal supports and networks within their communities.

[Regulation 27 inserted: Gazette 30 Jun 2014 p. 2406-8.]

Subdivision 3 — Criteria for supports

[Heading inserted: Gazette 30 Jun 2014 p. 2408.]

28. General criteria for supports (NDIS rules 5.1 - 5.3)

- (1) A support will not be provided or funded under the Act if —
- (a) it is likely to cause harm to the participant or pose a risk to others; or
 - (b) it is not related to the participant's disability; or
 - (c) it duplicates other supports provided to the participant; or
 - (d) it relates to day-to-day living costs (for example, rent, groceries and utility fees) that are not attributable to a participant's disability support needs; or
 - (e) the provision of the support would be contrary to a law of the Commonwealth or of this State; or
 - (f) the support consists of income replacement.
- (2) The day-to-day living costs mentioned in subregulation (1)(d) do not include the following —
- (a) additional living costs that are incurred by a participant solely and directly as a result of their disability support needs;

(Commonwealth) with which the regulation in this Division is comparable.

[Regulation 30 inserted: Gazette 30 Jun 2014 p. 2410.]

Subdivision 2 — Compensation

[Heading inserted: Gazette 30 Jun 2014 p. 2410.]

31. Application of Division (NDIS rules 3.1 and 3.2)

- (1) This Division applies in relation to a person who is a participant, or who later becomes a participant, if the person's disability was caused to any extent by a personal injury, and one of the following cases applies —
 - (a) the person received compensation under a judgment or settlement in respect of the injury in which —
 - (i) it is possible to identify the Commission component of the amount of compensation; and
 - (ii) the component is either fixed by a non-consent judgment or is objectively identifiable (for example, commutation of benefits under a statutory scheme);
 - (b) the person received compensation under a judgment or settlement in respect of the injury that —
 - (i) does not satisfy paragraph (a); and
 - (ii) fixes an amount of compensation in respect of the injury;
 - (c) the person is receiving compensation under a scheme of insurance or compensation under a Commonwealth, State or Territory law, including a payment under a contract entered into under such a scheme;
 - (d) the person —
 - (i) entered into an agreement to give up a right to compensation in respect of the injury; and

- (ii) because of that agreement, there are amounts that the person did not receive by way of a compensation payment (even if the person received other amounts by way of compensation payment in respect of the injury); and
 - (iii) the Commission is not satisfied that it was reasonable, in the circumstances, for the person to have entered into the agreement.
- (2) For the purposes of subregulation (1)(d)(iii), in considering whether the person's entry into the agreement was reasonable, the Commission must have regard to the following matters —
- (a) the disability of the participant or prospective participant, including whether the disability affected his or her ability to reasonably assess the terms of the agreement;
 - (b) the circumstances which gave rise to the entitlement or possible entitlement to compensation;
 - (c) any reasons given by the participant or prospective participant as to why he or she entered into the agreement;
 - (d) the impact (including any financial impact) on the participant or prospective participant and his or her family that would have occurred if the claim for compensation had been pursued or continued;
 - (e) any other matter the Commission considers relevant, having regard to the principles and objects set out in Schedules 1 and 2 of the Act.

[Regulation 31 inserted: Gazette 30 Jun 2014 p. 2410-12.]

32. Periodic payments (NDIS rule 3.3)

For the purposes of this Division, if the Commission component of compensation under a judgment or settlement includes an

element that consists of periodic payments, the amount attributable to that element is taken to be —

- (a) if the amount is specified in a judgment — that amount; or
- (b) if the amount is not specified in a judgment, but the Commission is satisfied that a specified amount was paid by the defendant to ensure the provision of the periodic payments — that amount; or
- (c) otherwise — the value of the periodic payments as assessed in accordance with accepted actuarial standards, in consultation with the trial actuary.

Subdivision 3 — Compensation, or foregone compensation, to be taken into account

[Heading inserted: Gazette 30 Jun 2014 p. 2413.]

33. Funding to be reduced by compensation reduction amount (NDIS rules 3.5 and 3.6)

- (1) In considering whether or not to approve a plan for a participant, the Commission must take account of any compensation mentioned in regulation 31(1) by reducing the funding for reasonable and necessary supports that would otherwise be approved by the appropriate compensation reduction amount.
- (2) To avoid doubt, a compensation reduction amount may arise in relation to each amount of compensation fixed or foregone in respect of injury, including amounts to which different paragraphs of regulation 31(1) apply — in this case, more than one compensation reduction amount may apply for the purposes of subregulation (1).

[Regulation 33 inserted: Gazette 30 Jun 2014 p. 2413.]

Subdivision 4 — Compensation reduction amount

[Heading inserted: Gazette 30 Jun 2014 p. 2415.]

37. Compensation reduction amount — support component objectively identified (NDIS rules 3.11 and 3.12)

- (1) In the case of a judgment or settlement mentioned in regulation 31(1)(a), the Commission must identify the compensation reduction amount as follows —
 - (a) identify the Commission component of the amount of compensation;
 - (b) subtract an amount that the Commission considers equivalent to the total of the amounts that were paid by the participant for supports of that kind after the date of the judgment or settlement and before becoming a participant;
 - (c) subtract the amount of any reduction in funding under regulation 33(1) that occurred in relation to a previous plan of the participant.
- (2) If, by subtracting a particular amount under subregulation (1), the compensation reduction amount would be reduced to nil or less than nil, the Commission must subtract only so much of the amount that would reduce the compensation reduction amount to nil.

[Regulation 37 inserted: Gazette 30 Jun 2014 p. 2415.]

38. Compensation reduction amount — other circumstances (NDIS rules 3.13 - 3.16)

- (1) In the case of a judgment or settlement mentioned in regulation 31(1)(b), the Commission must identify the compensation reduction amount as follows —
 - (a) calculate the amount of compensation fixed under the judgment or settlement;

- (b) subtract the sum of the amounts (if any) payable in respect of the amount of compensation under the following —
- (i) the *Health and Other Services (Compensation) Act 1995* (Commonwealth);
 - (ii) the *Health and Other Services (Compensation) Care Charges Act 1995* (Commonwealth);
 - (iii) Part 3.14 of the *Social Security Act 1991* (Commonwealth);
 - (iv) a law of the Commonwealth, a State or a Territory, prescribed by the National Disability Insurance Scheme rules as defined in the NDIS Act section 9;
- (c) subtract an amount that the Commission considers reflects the value of any period of preclusion —
- (i) that arises from a Commonwealth, State or Territory statutory scheme of entitlements (for example, the *Social Security Act 1991*) (Commonwealth); and
 - (ii) that is in respect of the injury;
- (d) if no preclusion period has arisen for the purposes of paragraph (c) and the Commission is satisfied that —
- (i) the participant claimed damages in relation to lost earnings or lost capacity to earn; and
 - (ii) the amount of compensation fixed under the judgment or settlement included an amount in respect of those damages,
- subtract 50% of the amount of compensation;
- (e) if the amount after applying paragraphs (a) to (d) is greater than the value of the reasonable and necessary supports that the Commission considers would have been provided to the participant and funded under the Act over the participant's expected lifetime, had the

- participant been a participant from the time of the compensable event — replace the amount by that value;
- (f) subtract an amount that the Commission considers equivalent to the total of the amounts that were paid by the participant for supports, being supports of a kind funded under the Act, after the compensable event and before becoming a participant;
 - (g) subtract the amount of any reduction in funding under regulation 33(1) that occurred in relation to a previous plan of the participant.
- (2) For the purposes of subregulation (1)(e), the calculation must be in accordance with any applicable actuarial model published by the Commission and in effect at the time the calculation is undertaken.
- (3) If a compensation reduction amount has also been identified in respect of the injury under regulation 37(1), subregulation (1) is to be applied with the following modifications —
- (a) reduce from the amount to be subtracted under subregulation (1)(f) any amount subtracted in respect of the injury under regulation 37(1)(b);
 - (b) reduce from the amount to be subtracted under subregulation (1)(g) any amount subtracted in respect of the injury under subregulation (1)(c).
- (4) If, by subtracting a particular amount under subregulation (1), the compensation reduction amount would be reduced to nil or less than nil, the Commission must subtract only so much of the amount that would reduce the compensation reduction amount to nil.

[Regulation 38 inserted: Gazette 30 Jun 2014 p. 2415-18.]

39. Compensation reduction amount — participant in a Commonwealth, State or Territory statutory insurance scheme (NDIS rules 3.17 and 3.18)

- (1) In the case of compensation mentioned in regulation 31(1)(c), the Commission must identify the compensation reduction amount by identifying the total value of the care and support expected to be provided to the participant under the scheme until the participant's plan is required to be reviewed in accordance with applicable operational policies.
- (2) For the purposes of subregulation (1), the identification must be —
 - (a) in accordance with any applicable actuarial model published by the Commission and in effect at the time the calculation is undertaken; and
 - (b) done in consultation with the person or entity that administers the scheme.

[Regulation 39 inserted: Gazette 30 Jun 2014 p. 2418.]

40. Compensation reduction amount — agreement to give up compensation (NDIS rules 3.19 - 3.21)

- (1) In the case of an agreement mentioned in regulation 31(1)(d), the Commission must identify the compensation reduction amount as follows —
 - (a) assess the likely amount of the Commission component of compensation that the participant would have received under a judgment (other than a consent judgment) had the participant made a claim for compensation in respect of the personal injury;
 - (b) subtract the amount of any reduction in funding under regulation 33(1) that occurred in relation to a previous plan of the participant;
 - (c) subtract an amount that the Commission considers equivalent to the total of the amounts that were paid by the participant for supports, being supports of a kind

funded under the Act, after incurring the injury and before becoming a participant.

- (2) If a compensation reduction amount has also been identified in respect of the injury under regulation 37(1) or 38(1), subregulation (1) is to be applied with the following modifications —
- (a) between the steps in subregulation (1)(a) and (b), subtract the compensation reduction amounts identified under regulation 37(1) or 38(1);
 - (b) reduce from the amount to be subtracted under subregulation (1)(b) any amount subtracted in respect of the injury under regulation 37(1)(c) or 38(1)(g);
 - (c) reduce from the amount to be subtracted under subregulation (1)(c) any amount subtracted in respect of the injury under regulation 37(1)(b) or 38(1)(f).
- (3) If, by subtracting a particular amount under subregulation (1), the compensation reduction amount would be reduced to nil or less than nil, the Commission must subtract only so much of the amount that would reduce the compensation reduction amount to nil.
