ADVANCE HEALTH DIRECTIVE FORM

This form is for people who want to make an Advance Health Directive in Western Australia.

To make an Advance Health Directive, you must be 18 years or older and have full legal capacity. Your Advance Health Directive is about your future treatment. It will only come into effect if you are unable to make reasonable judgments or decisions at a time when you require treatment.

- ✦ Part 4, marked with this symbol, contains your treatment decisions. If you choose not to make any treatment decisions in Part 4, then the document is not considered a valid Advance Health Directive under the *Guardianship and Administration Act 1990*.

Please tick the box below to indicate that by making this Advance Health Directive you revoke all prior Advance Health Directives completed by you.

- In making this Advance Health Directive, I revoke all prior Advance Health Directives made by me.

This form includes instructions to help you complete your Advance Health Directive. For more information on how to complete the form and to see examples, please read *A Guide to Making an Advance Health Directive in Western Australia*.

Before you make your Advance Health Directive, you are encouraged to seek legal and/or medical advice, and to discuss your decisions with family and close friends. It is important that people close to you know that you have made an Advance Health Directive and where to find it. Once you complete your Advance Health Directive, it is recommended that you:

- store the original in a safe and accessible place and tell your close family and friends that you have made an Advance Health Directive and where to find it

- upload a copy of your Advance Health Directive to your My Health Record — this will ensure that your Advance Health Directive is available to your treating doctors if it is needed
- give a copy of your Advance Health Directive to health professionals regularly involved in your health care (for example, your General Practitioner (GP), a hospital you attend regularly, and/or other health professionals involved in your care).

This form must be completed in English. If English is not your first language, you may need help to understand and complete this form. Contact the National Accreditation Authority for Translators and Interpreters for help.

PART 4: MY ADVANCE HEALTH DIRECTIVE

TREATMENT DECISIONS

This part of your Advance Health Directive contains treatment decisions in respect of your future treatment. A **treatment** is any medical or surgical treatment (including palliative care or life-sustaining measures such as assisted ventilation and cardiopulmonary resuscitation), dental treatment, or other health care.

A **treatment decision** in an Advance Health Directive is a decision to consent or refuse consent to the commencement or continuation of any treatment and includes a decision to consent or refuse consent to the commencement or continuation of the person's participation in medical research. This decision applies at any time you are unable to make reasonable judgments in respect of that treatment.

Treatment you consent to in this Advance Health Directive can be provided to you. Treatment you refuse consent to in this Advance Health Directive cannot be provided to you. Your enduring guardian or guardian or another person cannot consent or refuse consent on your behalf to any treatment to which this Advance Health Directive applies.

It is recommended that you discuss your treatment decisions with your doctor before completing this part.

Cross out any parts that you do not want to complete.

You MUST make at least one treatment decision in Part 4 to make a valid Advance Health Directive.

4.1 Life-sustaining treatment decisions

Use Part 4.1 to indicate your instructions for future life-sustaining treatments.

You can give an overall instruction or list individual treatments that you consent or refuse consent to receiving in the future. You can also list circumstances in which you consent or refuse consent to a particular treatment.

Life-sustaining treatments are treatments used to keep you alive or to delay your death.

Read all options before making a decision. The options are over two pages.

If I do not have the capacity to make or communicate treatment decisions about my health care in the future, I make the following decisions about life-sustaining treatment:

(Tick **only one** of the following options. If you choose Option 4, complete the table overleaf).

Option 1 **I consent to all** treatments aimed at sustaining or prolonging my life.

OR

Option 2 **I consent to all** treatments aimed at sustaining or prolonging my life **unless** it is apparent that I am so unwell from injury or illness that there is no reasonable prospect that I will recover to the extent that I can survive without continuous life-sustaining treatments. In such a situation, I withdraw consent to life-sustaining treatments.

OR
