Limited or party schemes

63. Recovery of cost of limited schemes from owners of premises served

- (1) Where the local government proposes to carry out any sewerage or drainage works which will be of special benefit to a particular portion only of its district, the local government may decide that the cost of constructing such works (in so far as it is not defrayed out of loan moneys) shall be recoverable by action in any court of competent jurisdiction from the owners of rateable lands situated within the aforesaid portion of the district, and such moneys shall be recoverable accordingly: Provided that the respective amounts to be recoverable from the various owners shall be proportionate to the values of the rateable lands owned by them respectively within such portion of the district. No direction or order given or made under this section shall be subject to appeal or review.
- (2) Any such sums shall be a charge, together with interest at such rate as may be prescribed (but not exceeded by more than 0.5% the rate of interest payable in respect of any loan moneys expended on such works) on the premises to which such sum or sums relate.

63A. Interpretation

Without limiting the generality of sections 63 and 64, it is hereby declared that any sewerage or drainage works, or any sewer, carried out or constructed at the expense of the local

government, are sewerage or drainage works, or is a sewer, carried out by or constructed by the local government for the purposes of those sections, notwithstanding that those works or that sewer are or is connected to a sewer or drain vested in the Water Corporation established by the *Water Corporation Act 1995* and notwithstanding that the works or the sewer may not have been actually carried out or constructed by the local government.

[Section 63A inserted by No. 52 of 1968 s. 2; amended by No. 73 of 1995 s. 188; No. 14 of 1996 s. 4.]

64. Agreements for recouping costs and paying maintenance in case of limited schemes

- (1) When it shall appear to any local government that the use of any sewer constructed or to be constructed by the local government will be confined to the owners or occupiers of a limited number of premises, and will not be general, then the local government may enter into agreements relating to the use of the sewer with the respective owners of such premises.
- (2) Any such agreement shall provide for the drainage into the sewer of sewage and liquid waste from the premises, and may provide for the local government constructing and providing any drain to connect the premises with the sewer.
- (3) In every such agreement there shall be contained an undertaking on the part of the owner to pay to the local government such annual sum as may in accordance with the agreement of the parties be necessary to cover —
 - (a) a reasonable instalment of a due proportion of the cost of making and providing the sewer and any incidental works;
 - (b) interest at such reasonable rate as may be stipulated on such proportion of the cost;
 - (c) the expenses of the local government for the year in maintaining and operating such sewer and works:

Provided that, in so far as the local government has expended loan moneys on the construction and provision of such sewer and works, the period over which such instalments shall be payable shall not extend beyond the period of the loan, and the rate of interest to be charged shall not exceed by more than 0.5% that payable on the loan.

- (4) In the event of any person subsequently availing himself of the use of the sewer under agreement with the local government, any person who has entered into a prior agreement may apply to the local government for a revision and adjustment of the amount to be paid by him thereunder, and, in the event of no agreement thereon being arrived at within 2 months, then the application, and all questions connected therewith, shall be deemed to have been referred by the parties to arbitration under the *Commercial Arbitration Act 1985*.
- (5) Whenever, in the opinion of the local government, the amount of any noxious or waste matter discharged into any sewer from any premises is greater than was estimated at the time any such agreement was entered into the local government may, by notice in writing served on the owner, increase the amount to be paid by the owner, pursuant to any agreement, and the remaining payments to fall due under the said agreement shall be adjusted accordingly; provided that if the owner concerned considers the increased amount excessive he may, within 2 months after the service on him of the notice, serve a notice on the local government requiring the question of what (if any) is a fair sum by way of increase, and all questions connected therewith to be submitted to arbitration, and the provisions of the *Commercial Arbitration Act 1985*, shall apply as if the parties had agreed to a reference of such question.

The provisions of this subsection shall apply retrospectively as well as prospectively, and in their retrospective operation shall include all agreements made under section 53B⁴ of the *Health Act 1911*, or made since 4 January 1934.

- (6) Any amount payable to the local government under any such agreement shall be and remain until paid a charge upon the premises to which the agreement refers, and on all the owner's estate and interest therein, as if the agreement had contained an express charge to that effect, and the personal obligation to make the payments stipulated for in the agreement, and to perform and observe the terms thereof, shall be binding not only on the original party but on every subsequent owner of the premises, but so that no person shall be personally liable for the making of any payment or the discharge of any obligation which shall accrue due or arise after he has ceased to be owner of the premises.
- (7) The obligations of the local government under any such agreement shall be enforceable by the owner for the time being of the premises as if had been entered into with him.
- (8) Nothing in this section shall deprive the local government of any power of imposing any rate, except in so far as any such agreement as aforesaid may impose a restriction on such power for the benefit of any person liable under or entitled to the benefit of such agreement.
- (9) In the event of the ownership of any premises to which an agreement refers becoming divided between 2 or more persons, then the benefit and burden of the agreement may be so apportioned and adjusted between the owners as the Minister may determine, and the Minister's determination shall have effect as if embodied in an agreement under this section.

[Section 64 inserted by No. 38 of 1933 s. 21 and 42; amended by No. 16 of 1935 s. 4; No. 109 of 1985 s. 3(1); No. 14 of 1996 s. 4.]

65. Power to acquire land

- (a) The local government may take and acquire any land it may from time to time deem necessary for any of the purposes of this Part. Any such land shall be taken under and subject to the provisions of Part 9 of the *Land Administration Act 1997*.

- (b) If a local government fails to serve an offer on any claimant against the local government for compensation under the said Act within the time limited for that purpose by that Act, the Minister may at any time thereafter serve an offer on behalf of the local government, and such offer shall be deemed to be an offer made by the local government for the purposes of the said Act.

[Section 65 inserted by No. 38 of 1933 s. 22 and 42; amended by No. 14 of 1996 s. 4; No. 31 of 1997 s. 142.]

complied with, the local government may make the alterations required.

68. Alteration of sewerage works

The local government may open the ground, and change the level or otherwise amend or enlarge any sewer lying under any public or private street or place within the district for better communicating with the main sewer or stormwater drains: Provided that no person shall by means of any such alteration, amendment, or enlargement be deprived of the use and enjoyment of any private sewer or drain which he shall be entitled to use, but the local government may at its own cost so construct and alter such private sewer or drain as to render the same as effectual for the purposes for which it was intended as any such sewer or drain may be at the time of such alteration.

[Section 68 inserted by No. 38 of 1933 s. 25 and 42; amended by No. 14 of 1996 s. 4.]

69. Ventilating shafts, etc., may be attached to buildings, etc.

The local government may cause any ventilating shaft, pipe, or tube of any sewer or drain to be attached to any wall or building within its district; provided that the mouth of every such shaft, pipe, or tube shall be at least 1.8 metres higher than any window or door situated at a distance of 9 metres therefrom, and also make use of the chimney of any public building, or of any factory or any tramway building, for a ventilating shaft or tube: Provided that no ventilating shaft for the purpose of ventilating any sewer shall be attached to a private residence.

[Section 69 inserted by No. 38 of 1933 s. 26 and 42; amended by No. 94 of 1972 s. 4(1) (as amended by No. 83 of 1973 s. 3); No. 14 of 1996 s. 4.]

The local government shall cause to be made a map of all sewerage works in its district, on such scale and with such indications of levels and particulars of sewers and other works as may be prescribed, and shall cause such map to be revised from time to time and such additions made thereto as may show any new sewers, drains, and works, and the date of every revision shall be expressed therein. A copy of every such map shall be kept in the office of the Executive Director, Public Health, and another copy shall be kept in the office of the local government, and shall be open at all reasonable times to the inspection of the owner or occupier of any land within the district of the local government.

- (3) The local government may in such case recover from every such owner or occupier in any court of competent jurisdiction, the full amount of the expenses of making such drains and fittings, or attaching or connecting such ventilating shafts, pipes, or tubes, together with interest at such rates as may be prescribed, but not exceeding by more than 0.5% the rate of interest on any loan moneys expended in carrying out such work; and the cost of providing, laying down, constructing, and fixing in readiness for use such drains and fittings shall, as between the owner and occupier of the land, be payable by the owner.
