## Guide for using this reprint

### *What the reprint includes*

### ***Endnotes, Compilation table, and Table of provisions that have not come into operation***

1. Details about the original Act and legislation that has amended its text are shown in the Compilation table in endnote 1, at the back of the reprint. The table also shows any previous reprint.
2. Validation, transitional, savings, or other provisions identified in the Compilation table may be important. The table may refer to another endnote setting out the text of these provisions in full.
3. A table of provisions that have not come into operation, to be found in endnote 1a if it is needed, lists any provisions of the Act being reprinted that have not come into operation and any amendments that have not come into operation. The full text is set out in another endnote that is referred to in the table.

### ***Notes amongst text (italicised and within square brackets)***

1. If the reprint includes a section that was inserted, or has been amended, since the Act being reprinted was passed, editorial notes at the foot of the section give some history of how the section came to be as it is. If the section replaced an earlier section, no history of the earlier section is given (the full history of the Act is in the Compilation table).  
Notes of this kind may also be at the foot of Schedules or headings.
2. The other kind of editorial note shows something has been —
  - removed (because it was repealed or deleted from the law); or
  - omitted under the *Reprints Act 1984* s. 7(4) (because, although still technically part of the text, it no longer has any effect).

The text of anything removed or omitted can be found in an earlier reprint (if there is one) or one of the written laws identified in the Compilation table.

- (2) This Division does not apply to the land specified in the Third Schedule.

*[Section 27 amended by No. 100 of 1985 s. 19; No. 37 of 1993 s. 12(2).]*

#### **28. Unlawful entry on private land**

No person shall enter or remain upon the surface of any private land for any of the purposes of this Division or those specified in section 104(1) unless he —

- (a) is the owner in occupation of that private land; or

- (b) is authorised to do so, by a permit issued by the warden under section 30, or by any other provision of this Act, or by virtue of a mining tenement.

**29. Granting of mining tenements in respect of private land**

- (1) Subject to this Act, but notwithstanding any other Act or law, a mining tenement may be granted in respect of an area that consists of private land only or partly of private land and partly of any other land and the authority conferred thereby on the holder thereof may be exercised by that holder in respect of any such land.
- (2) Except with the consent in writing of the owner and the occupier of the private land concerned, a mining tenement shall not be granted in respect of private land —
  - (a) which is in *bona fide* and regular use as a yard, stockyard, garden, orchard, vineyard, plant nursery or plantation or is land under cultivation;
  - (b) which is the site of a cemetery or burial ground;
  - (c) which is the site of a dam, bore, well or spring;
  - (d) on which there is erected a substantial improvement;
  - (e) which is situated within 100 metres of any private land referred to in paragraph (a), (b), (c) or (d); or
  - (f) which is a separate parcel of land and has an area of 2 000 square metres or less,

unless the mining tenement is granted only in respect of that part of that private land which is not less than 30 metres below the lowest part of the natural surface of that private land.

- (a) has been granted wholly or partly in respect of private land referred to in subsection (2)(a), (b), (c), (d), (e) or (f); but
  - (b) has not been granted in respect of that portion of the private land referred to in paragraph (a) that is less than 30 metres below the lowest part of the natural surface of that private land because the consents referred to in subsection (2) have not been given,
- may apply to the Minister for that mining tenement to be amended by granting it in respect of the portion referred to in paragraph (b) as well as in respect of the land in respect of which that mining tenement is already granted and that portion, whilst the right so to apply subsists, is not open for mining to any other person.
- (6) On receiving an application made under subsection (5), the Minister may, if he is satisfied that both the owner and the occupier of the private land referred to in paragraph (a) of that subsection have consented in writing to the grant of the mining tenement concerned in respect of the portion referred to in paragraph (b) of that subsection, grant that application.
- (6a) Subsection (6b) applies to a mining tenement if it —
- (a) has been granted wholly or partly in respect of private land referred to in subsection (2)(a), (b), (c), (d), (e) or (f); but
  - (b) has not been granted in respect of that portion of the private land (“**the relevant portion**”) that is less than 30 metres below the lowest part of the natural surface of that private land because the consents referred to in subsection (2) have not been given.
- (6b) If during the currency of a mining tenement to which this subsection applies, the relevant portion or any part of the relevant portion ceases to be private land, the relevant portion or

that part of the relevant portion, as the case requires, is, by operation of this subsection, included in the mining tenement.

- (7) A mining tenement granted under this Division in respect of any private land —
- (a) shall, subject to this Act, authorise the holder of that mining tenement —
    - (i) to carry out mining on the natural surface of the private land and at any depth thereunder; or
    - (ii) to carry out mining at a depth of not less than 30 metres from the lowest part of the natural surface of the private land;
  - (b) shall comprise a right of access by a right of way, to be marked in the prescribed manner at the expense of the holder of that mining tenement, from the private land through any land, whether occupied under a mining tenement or otherwise, to the nearest practicable point of a street or road, but except with the consent in writing of the owner and the occupier of any land used as a yard, garden, orchard or cultivated field no such right of way shall be had by the holder of that mining tenement through that land;
  - (c) does not without the consent in writing of the owner and the occupier of the private land authorise the holder of that mining tenement to use water artificially conserved by that owner or occupier or to fell trees, strip bark or cut timber on the private land or, except in connection with mining carried out on the private land, to remove earth or rock therefrom;
  - (d) does not authorise the holder of that mining tenement to impound any stock or other animals belonging to or being in the custody or under the control of the owner or occupier of any land adjoining the mining tenement, or to disturb or molest any such stock or other animals in any manner whatever, or to prevent any such stock or

other animals from depasturing on or over the land the subject of the mining tenement, unless that land is fenced.

- (1) A person who desires to enter on any private land to search for any mineral or to mark out a mining tenement may apply in writing to a warden for a permit to enter on the private land.
- (2) An application under subsection (1) shall be made in the prescribed manner and be in the prescribed form and shall contain —
  - (a) such description of the private land concerned as in the opinion of a warden will enable it to be identified; and
  - (b) such particulars relating to the private land concerned as are sufficient to enable a warden to be satisfied that the land is private land.
- (3) A warden, on being satisfied that an application made under subsection (1) is made in good faith, may grant a permit in writing to enter on the private land concerned —
  - (a) for such term not exceeding 30 days from the date thereof; and
  - (b) subject to such conditions, not being conditions preventing the marking out of any mining tenement or the maintenance of any marks or notices relating thereto,

as he thinks fit and specifies in that permit and, where the holder of the permit marks out and applies for a mining tenement in relation to that land or any part thereof, the permit shall be deemed to continue in force, for the purpose only of repairing or maintaining the marks so set up and the notices posted thereon, until such time as the application for the mining tenement is determined.

**56A. Special prospecting licences**

- (1) Where any land is the subject of a prospecting licence (in this section called “**the primary tenement**”) then, notwithstanding section 117 and whether or not the primary tenement is converted into a retention licence or a mining lease pending the determination of the application for a special prospecting licence, a person may at any time after the expiry of 12 months from —
- (a) in the case of land which was the subject of a mineral claim or dredging claim granted under the repealed Act that by the operation of the transitional provisions set forth in the Second Schedule became subject to the prospecting licence, the date of approval of the claim; and
  - (b) in any other case, the date on which the prospecting licence was granted,

mark out and, in accordance with section 41, apply for a prospecting licence for gold (in this section called a “**special prospecting licence**”) in respect of any part of the land the subject of the primary tenement.

- (1a) A special prospecting licence may only be applied for by, granted to or held by a natural person.
- (2) Within 14 days after lodging an application for a special prospecting licence under subsection (1) the applicant shall serve notice of his application on the holder of the primary tenement as if that holder were the occupier of the land to which that application relates.
- (3) If, after being served with notice of an application for a special prospecting licence, the holder of the primary tenement does not lodge an objection against that application, the mining registrar may, subject to this Act, grant that application as provided in subsection (6).
- (4) If the holder of the primary tenement lodges an objection to an application for a special prospecting licence, the warden shall

obtain a report from the Director, Geological Survey, in respect of the prospecting carried on by the holder of the primary tenement on the land to which the application relates.

- (4a) A report prepared by the Director, Geological Survey for the purposes of subsection (4) is to be based solely on information contained in reports filed by or on behalf of the holder of the primary tenement under section 51 or 115A.
- (5) After hearing an objection referred to in subsection (4), the warden may refuse the application for the special prospecting licence concerned on the ground that prospecting for gold on the land to which that application relates would result in undue detriment to the prospecting being carried on by the holder of the primary tenement or he may recommend that application to the Minister, who may —
- (a) refuse that application; or
  - (b) subject to this Act, grant that application as provided in subsection (6),

but, if the warden refuses an application under this subsection, the applicant may within the time and in the manner prescribed appeal to the Minister against that refusal and the Minister may dismiss that appeal or uphold that appeal and grant that application as provided in subsection (6).

- (6) Subject to this section, the mining registrar, the warden or the Minister may grant an application for a special prospecting licence on such terms and conditions as he thinks fit, but a special prospecting licence so granted —
- (a) shall not exceed 10 hectares in area;

  - (c) shall not, unless the Minister otherwise directs, prevent the holder of the primary tenement from prospecting for minerals other than gold in or on the land the subject of the special prospecting licence;

- (d) does not authorise the holder thereof to excavate, extract or remove during the period for which the tenement remains in force a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 500 tonnes, except in so far as the prior written approval of the Minister may otherwise permit; and
  - (e) does not authorise mining to be carried out in any portion of the land that is —
    - (i) below a depth specified in the terms and conditions of the special prospecting licence, and any depth so specified shall be less than 50 metres below the lowest part of the natural surface of the land the subject of the special prospecting licence; or
    - (ii) if a depth is not so specified, 50 metres or more below the lowest part of the natural surface of the land the subject of the special prospecting licence, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit.
- (6aa) A special prospecting licence may be granted for a period of 3 months or for any period which is a multiple of 3 months but which does not exceed 4 years.
- (6a) A special prospecting licence —
- (a) continues in force notwithstanding that the holder of the primary tenement may apply for and be granted a retention licence, mining lease or general purpose lease in respect to the land; but
  - (b) ceases (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that special prospecting licence.

- (7) No legal or equitable interest in or affecting —
- (a) a special prospecting licence; or
  - (b) a mining lease in respect of the land or any part thereof the subject of a special prospecting licence,
- is capable of being created, affected or dealt with, whether directly or indirectly, except with the prior written consent of the holder of the primary tenement, and no person shall hold or have any beneficial, legal or equitable interest in —
- (c) more than 3 such special prospecting licences; or
  - (d) more than one such mining lease.
- (7a) A reference in subsection (7) to a person includes a reference to any other person who would, for the purposes of the Corporations Act, be taken to be an associate of the first-mentioned person.
- (7b) No more than one special prospecting licence, or mining lease in respect of the land or any part thereof which is the subject of a special prospecting licence, shall be granted in respect of the primary tenement.
- (8) The holder of a special prospecting licence granted for a period of 4 years may make an application for a mining lease for gold in respect of the land or any part thereof which is the subject of the special prospecting licence, and on an application being made the Minister may, if —
- (a) after being served with the prescribed notice of that application, the holder of the primary tenement does not lodge an objection against that application; or
  - (b) it is proved to the satisfaction of the Minister by a report from the Director, Geological Survey, that gold exists in payable quantities on or in the land to which that application relates,
- grant the application for a lease in respect to that portion of the land to which the special prospecting licence relates that is less

than a depth of 50 metres, or such greater depth as the Minister approves with the prior written consent of the holder of the primary tenement, below the lowest part of the natural surface of the land and on such terms and conditions as the Minister thinks fit, and thereupon the area of land in respect of which that mining lease is granted shall be excised from the primary tenement (whether or not the primary tenement has in the meantime been converted into a retention licence or a mining lease).

- (8a) A mining lease granted pursuant to subsection (8) —
- (a) has effect in relation to gold and any minerals occurring in conjunction with that gold;
  - (b) does not authorise the lessee thereof, his agents or employees to excavate, extract or remove a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 750 tonnes in any year, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit;
  - [(c) deleted]*
  - (d) ceases to have effect (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that lease.
- (9) Subject to this section, the provisions of this Act relating to —
- (a) prospecting licences apply to a special prospecting licence; and
  - (b) mining leases apply to a mining lease,
- granted under this section.
- (10) On the surrender, forfeiture or expiry of the primary tenement, a special prospecting licence in respect of any land the subject of the primary tenement immediately before the date of its surrender, forfeiture or expiry is, by virtue of this subsection,

converted into a prospecting licence in respect of that land and, subject to subsection (11), the provisions of this Act relating to prospecting licences apply accordingly.

- (11) Where a special prospecting licence is converted into a prospecting licence, the prospecting licence remains in force, subject to this Act, for the remainder of the period for which the special prospecting licence was granted.
- (12) Subsection (10) does not apply if —
- (a) the primary tenement is amalgamated with an exploration licence under section 67A(1); or
  - (b) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement applies for a retention licence, a mining lease or a general purpose lease and the licence or lease is subsequently granted in respect of any land the subject of the special prospecting licence.

- (1a) A special prospecting licence may only be applied for by, granted to or held by a natural person.
- (2) Within 14 days after lodging an application for a special prospecting licence under subsection (1) the applicant shall give notice thereof to the holder of the exploration licence as if such holder were the occupier of the land to which the application relates.
- (3) Where, after being served with notice of the application for the special prospecting licence, the holder of the exploration licence does not lodge an objection against the application the mining registrar may, subject to this Act, grant the application as provided in subsection (6).
- (4) Where such an objection is lodged by the holder of the exploration licence the warden shall obtain a report from the Director, Geological Survey in respect of the exploration carried on by the holder of the primary tenement on the land to which the application relates.
- (4a) A report prepared by the Director, Geological Survey for the purposes of subsection (4) is to be based solely on information contained in reports filed by or on behalf of the holder of the primary tenement under section 68(3) or 115A.
- (5) After hearing the objection of the holder of the exploration licence the warden may refuse the application for the special prospecting licence on the ground that prospecting for gold on the land to which the application relates would result in undue detriment to the exploration being carried on by the holder of the primary tenement or he may recommend the application to the Minister who may refuse the application or subject to this Act, grant it as provided in subsection (6), but where the warden refuses an application under this subsection, the applicant may within the time and in the manner prescribed appeal to the Minister against such refusal and the Minister may dismiss the appeal or uphold the appeal and grant the application as provided in subsection (6).

- (6) Subject to this section the mining registrar, the warden or Minister may grant the application on such terms and conditions as he thinks fit but a special prospecting licence granted pursuant to this section —
- (a) shall not exceed 10 hectares in area;
  - (b) shall authorise the holder to prospect only for gold;
  - (c) shall not unless the Minister otherwise directs, prevent the holder of the exploration licence from exploring for minerals other than gold in or on the land the subject of the special prospecting licence and the exploration licence;
  - (d) does not authorise the holder thereof to excavate, extract or remove during the period for which the tenement remains in force a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 500 tonnes, except in so far as the prior written approval of the Minister may otherwise permit; and
  - (e) does not authorise mining to be carried out in any portion of the land that is —
    - (i) below a depth specified in the terms and conditions of the special prospecting licence, and any depth so specified shall be less than 50 metres below the lowest part of the natural surface of the land the subject of the special prospecting licence; or
    - (ii) if a depth is not so specified, 50 metres or more below the lowest part of the natural surface of the land the subject of the special prospecting licence, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit.

- (6aa) A special prospecting licence may be granted for a period of 3 months or for any period which is a multiple of 3 months but which does not exceed 4 years.
- (6a) A special prospecting licence —
- (a) continues in force notwithstanding that the holder of the primary tenement may apply for and be granted a retention licence, mining lease or general purpose lease in respect to the land; but
  - (b) ceases (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that special prospecting licence.
- (7) No legal or equitable interest in or affecting —
- (a) a special prospecting licence; or
  - (b) a mining lease in respect of the land or any part thereof the subject of a special prospecting licence,
- is capable of being created, affected or dealt with, whether directly or indirectly, except with the prior written consent of the holder of the primary tenement, and no person shall hold or have any beneficial, legal or equitable interest in —
- (c) more than 3 such special prospecting licences; or
  - (d) more than one such mining lease.
- (7a) A reference in subsection (7) to a person includes a reference to any other person who would, for the purposes of the Corporations Act, be taken to be an associate of the first-mentioned person.
- (7b) A special prospecting licence, or a mining lease in respect of the land or any part thereof which is the subject of a special prospecting licence, shall not be granted in respect of the primary tenement where the number of such licences or leases granted in respect of that primary tenement exceeds one for each 200 hectares of the primary tenement.

- (8) The holder of a special prospecting licence granted for a period of 4 years may make an application for a mining lease for gold in respect of the land or any part thereof which is the subject of the special prospecting licence, and on an application being made if —
- (a) after being served with the prescribed notice of the application, the holder of the exploration licence does not lodge an objection against it; or
  - (b) it is proved to the satisfaction of the Minister by a report from the Director, Geological Survey that gold exists in payable quantities on or in the land to which the application relates,

the Minister may grant the application for a lease in respect to that portion of the land to which the special prospecting licence relates that is less than a depth of 50 metres, or such greater depth as the Minister approves with the prior written consent of the holder of the primary tenement, below the lowest part of the natural surface of the land and on such terms and conditions as the Minister thinks fit, and thereupon the area of land in respect of which the mining lease is granted shall be excised from the primary tenement (whether or not the primary tenement has in the meantime been converted into a retention licence or a mining lease).

- (8a) A mining lease granted pursuant to subsection (8) —
- (a) has effect in relation to gold and any minerals occurring in conjunction with that gold;
  - (b) does not authorise the lessee thereof, his agents or employees to excavate, extract or remove a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 750 tonnes in any year, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit; and
  - [(c) *deleted*]

- (d) ceases to have effect (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that lease.
- (9) Subject to this section, the provisions of this Act relating to a prospecting licence, or mining lease apply to a special prospecting licence or mining lease granted pursuant to this section.
- (10) On the surrender, forfeiture or expiry of the primary tenement, a special prospecting licence in respect of any land the subject of the primary tenement immediately before the date of its surrender, forfeiture or expiry is, by virtue of this subsection, converted into a prospecting licence in respect of that land and, subject to subsection (11), the provisions of this Act relating to prospecting licences apply accordingly.
- (11) Where a special prospecting licence is converted into a prospecting licence, the prospecting licence remains in force, subject to this Act, for the remainder of the period for which the special prospecting licence was granted.
- (12) Subsection (10) does not apply if —
- (a) the primary tenement is amalgamated with an exploration licence under section 67A(1); or
  - (b) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement applies for a retention licence, a mining lease or a general purpose lease and the licence or lease is subsequently granted in respect of any land the subject of the special prospecting licence.

*[Section 85A inserted by No. 37 of 1993 s. 12(1).]*

**85B. Special prospecting licence on a mining lease**

- (1) Where any land is the subject of a mining lease (in this section called “**the primary tenement**”) then, notwithstanding section 117 and whether or not the primary tenement is

converted into a retention licence pending the determination of the application for a special prospecting licence, a person may at any time mark out and, in accordance with section 41, apply for a prospecting licence for gold (in this section called a “**special prospecting licence**”) in respect of any part of the land the subject of the primary tenement.

- (1a) A special prospecting licence may only be applied for by, granted to or held by a natural person.
- (2) An application for a special prospecting licence shall be accompanied by the written consent of the holder of the primary tenement to the granting of the special prospecting licence.
- (3) Subject to this section, the mining registrar may, if the mining registrar is satisfied that the holder of the primary tenement has consented in writing to the granting of the special prospecting licence, grant a special prospecting licence on such terms or conditions as the mining registrar thinks fit, but a special prospecting licence so granted —
  - (a) shall not exceed 10 hectares in area;
  - (b) authorises the holder of the special prospecting licence to prospect only for gold;
  - (c) does not, unless the Minister otherwise directs, prevent the holder of the primary tenement from prospecting for minerals other than gold in or on the land the subject of the special prospecting licence;
  - (d) does not authorise the holder of the special prospecting licence to excavate, extract or remove during the period for which the mining tenement remains in force a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 500 tonnes, except in so far as the prior written approval of the Minister may otherwise permit; and

- (e) does not authorise mining to be carried out in any portion of the land that is —
  - (i) below a depth specified in the terms and conditions of the special prospecting licence, and any depth so specified shall be less than 50 metres below the lowest part of the natural surface of the land the subject of the special prospecting licence; or
  - (ii) if a depth is not so specified, 50 metres or more below the lowest part of the natural surface of the land the subject of the special prospecting licence, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit.
- (3a) A special prospecting licence may be granted for a period of 3 months or for any period which is a multiple of 3 months but which does not exceed 4 years.
- (4) A special prospecting licence —
  - (a) continues in force notwithstanding that the holder of the primary tenement may apply for and be granted a retention licence, mining lease or general purpose lease in respect of the land; but
  - (b) ceases (and the land in respect of which it was granted reverts to the holder of the primary tenement as an integral part of the mining tenement held by that person) on the surrender, forfeiture or expiry of that special prospecting licence.
- (5) No legal or equitable interest in or affecting —
  - (a) a special prospecting licence; or

- (b) a mining lease in respect of the land or any part of the land the subject of a special prospecting licence, is capable of being created, affected or dealt with, whether directly or indirectly, except with the prior written consent of the holder of the primary tenement, and no person shall hold or have any beneficial, legal or equitable interest in —
- (c) more than 3 such special prospecting licences; or
- (d) more than one such mining lease.
- (6) A reference in subsection (5) to a person includes a reference to any other person who would, for the purposes of the Corporations Act, be taken to be an associate of the first-mentioned person.
- (7) The holder of a special prospecting licence granted for a period of 4 years may make an application for a mining lease for gold in respect of the land or any part of the land which is the subject of the special prospecting licence, and on an application being made the Minister may, if —
- (a) after being served with the prescribed notice of that application, the holder of the primary tenement does not lodge an objection against that application; or
- (b) it is proved to the satisfaction of the Minister by a report from the Director, Geological Survey, that gold exists in payable quantities on or in the land to which that application relates,
- grant the application for a lease in respect of that portion of the land to which the special prospecting licence relates that is less than a depth of 50 metres, or such greater depth as the Minister approves with the prior written consent of the holder of the primary tenement, below the lowest part of the natural surface of the land and on such terms and conditions as the Minister thinks fit, and thereupon the area of land in respect of which that mining lease is granted shall be excised from the primary tenement.

- (8) A mining lease granted pursuant to subsection (7) —
- (a) has effect in relation to gold and any minerals occurring in conjunction with that gold;
  - (b) does not authorise the holder of the mining lease or any agents or employees of the holder to excavate, extract or remove a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 750 tonnes in any year, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit; and
  - (c) ceases to have effect (and the land in respect of which it was granted reverts to the holder of the primary tenement as an integral part of the tenement held by that person) on the surrender, forfeiture or expiry of that lease.
- (9) Subject to this section, the provisions of this Act relating to —
- (a) prospecting licences apply to a special prospecting licence; and
  - (b) mining leases apply to a mining lease,
- granted under this section.
- (10) On the surrender, forfeiture or expiry of the primary tenement, a special prospecting licence in respect of any land the subject of the primary tenement immediately before the date of its surrender, forfeiture or expiry is, by virtue of this subsection, converted into a prospecting licence in respect of that land and, subject to subsection (11), the provisions of this Act relating to prospecting licences apply accordingly.
- (11) Where a special prospecting licence is converted into a prospecting licence, the prospecting licence remains in force, subject to this Act, for the remainder of the period for which the special prospecting licence was granted.

- (12) Subsection (10) does not apply if —
- (a) the primary tenement is amalgamated with an exploration licence under section 67A(1); or
  - (b) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement applies for a retention licence, a mining lease or a general purpose lease and the licence or lease is subsequently granted in respect of any land the subject of the special prospecting licence.
