alienated from the Crown before the commencement of this Act, and has from a date prior to the commencement of this Act been so taken and used by such owner or owners or occupier or occupiers for purposes and uses in respect of such land, other than domestic and ordinary use and watering cattle or other stock and the irrigation of a garden not exceeding five acres in extent, being part of such land and used in connection with a dwelling, such owner or occupier may at any time with twelve months from the commencement of this Act apply to the Minister for a special license to continue in like manner to divert or take and use such water for a further period of ten years from the date of the commencement of this Act.

Application.

(2) Such application shall be in writing, signed by the applicant or by his agent, duly empowered, in writing, and shall give the following particulars:—

- (a) a sufficient description of such land to enable proper searches as to title to be made;
- (b) the name or description of such water-course, lake, lagoon, swamp or marsh;
- (c) the use to which such land is applied at the time of making the application;
- (d) the approximate date when the water was first so diverted or taken and used, and approximately the quantity used daily;
- (e) the mode of such diversion;
- (f) the date when any dam was constructed or channel cut or flume erected for the purpose of such diversion, with a statement of the dimensions and other sufficient description of such dam, channel, or flume;
- (g) a description of any engines or other machinery in use at the time of the application;
- (h) the quantity of water for daily consumption for which the license is sought;
- (i) the names and addresses of the occupier or occupiers of such land, and of the owners and occupiers respectively of the lands contiguous to such water-course, lake, lagoon, swamp or marsh, within a distance of three miles of such land;
- (j) the application shall be accompanied by a statutory declaration verifying the several statements therein made.

(3) The Minister shall cause notice of every such application to be published in the *Gazette*, and in at least one issue of a newspaper circulating generally in the neighbourhood of the land, and shall direct copies of such notice to be served on such persons as he thinks fit, and shall appoint a time, not more than six months from the date of such notice or of the first of such advertisements, within which objections to such application may be received.

Advertisement.

(4) Within the time limited as aforesaid, any owner or occupier of land contiguous to such water-course, or lake, lagoon, swamp or marsh within the said distance of three miles may, in writing signed by him and addressed to the Minister, object to such application being granted, and submit to the Minister the grounds of such objection, together with evidence by statutory declaration supporting the same.

Objections.

(5) The Minister, after such inquiry into the subject-matter of the application and of any objections thereto as he thinks proper to direct, may, subject to the approval of the Commissioners, submit the application to the Governor with a recommendation that the application be refused or that it be granted either wholly or in part.

Powers of Governor.

The Governor may thereupon either refuse the application or direct that a special license, in a form to be prescribed by the Governor, be issued to the applicant in respect of the land and user of the water specified in the application or of so much of such land and water as the Governor thinks fit.

Such special license shall be subject to such special conditions and provisions as the Governor shall determine, and to the provisions of this Act so far as the same are applicable thereto, and to the further condition that, notwithstanding that such special license is expressed to be for a period of ten years, it may be determined or modified at any time in the event or manner hereinafter prescribed.

(6) The licensee under such special license may divert, take, and use water to the extent and in respect of the land and in the manner specified in such license.

Privileges and duty of special licensee.

The licensee shall, at the end of each year of the currency of such license, lodge at the office of the Minister a statutory declaration, headed in the matter of this Act

and of his special license, declaring whether the diversion and use of the water have been throughout the past year and still are only as sanctioned by the license.

Determina-
tion of special
license.

(7) If at any time during the currency of such license it is proved to the satisfaction of the Minister that the licensee has failed to observe and perform the conditions and provisions subject to which it was issued and held, or that it is expedient, in the interests of the public, as to the diversion and user of the water sanctioned by such license, that the license should be determined or modified, the Minister may give the licensee notice in writing by registered letter sent through the post office that after the expiration of one month from the date of such notice, it is his intention to recommend the Governor to revoke or to modify such license.

Unless the licensee before the expiration of the month so fixed shows to the Minister sufficient cause why the license should not be revoked and determined or modified, the Minister may make such recommendation to the Governor, and the Governor may thereupon make an order revoking or modifying such license.

If such order is made in the interests of the public it may direct such amount by way of compensation to be paid to the licensee out of the Consolidated Revenue Fund as to the Governor seems equitable.

After the construction of any such works of water supply, such person shall be entitled, by virtue of such right, to use only so much water as would be equal to the quantity of the water of the water-course, or lake, lagoon, swamp or marsh which would be available to him, and to which he would be lawfully entitled but for the existence of such works of water supply; but in no case shall he be entitled to a greater quantity of water than five thousand gallons per day for domestic and ordinary use and for watering cattle or other stock, in respect of every mile of frontage measured by the general course to such water-course, or to such lake, lagoon, swamp or marsh, and three hundred thousand cubic feet per annum for the irrigation of a garden not exceeding five acres in extent, being part of the land adjoining the bed thereof, and used in connection with a dwelling.

Provided that this subsection shall not be deemed to affect the right of property of any private owner in any artesian well constructed prior to or after the commencement of this section in any other manner or to any greater extent than that in or to which such right of property was affected by this Part of this Act as in force prior to the commencement of this section.

(2) In so far as rivers, streams, watercourses, lagoons, lakes, swamps, and marshes are situated within the boundaries of irrigation districts constituted under Part IV. of this Act, before the commencement of this section and the water therefrom has been and is still required for irrigation under Part IV. of this Act, and in so far as the water in rivers, streams, watercourses, lagoons, lakes, swamps, and marshes not situate within an irrigation district has prior to the commencement of this section been required and used for irrigation under Part IV. of this Act, this part shall be deemed to have applied to and to have had effect in relation to such rivers, streams, watercourses, lagoons, lakes, swamps, and marshes as from the dates respectively when the irrigation districts aforesaid, within the boundaries whereof they are situate, were constituted as aforesaid, and as from the dates respectively when water in the rivers, streams, watercourses, lagoons, lakes, swamps, and marshes not situated within an irrigation district began to be required for irrigation under Part IV. aforesaid, as the case may be, and after the commencement of this section, this Part shall continue to apply to and to have effect in relation to all the said rivers, streams, watercourses, lagoons, lakes, swamps, and marshes, notwithstanding that the water therefrom may not now or may hereafter cease to be required for irrigation under Part IV. of this Act, and notwithstanding that the irrigation district within which any such river, stream, watercourse, lagoon, lake, swamp, or marsh is situated may be dissolved or the boundaries thereof altered, until the Governor by proclamation under this section as hereinafter provided for declares that this Part shall no longer apply to or have

- (iii) unless the context otherwise requires, any reference to this Act in any section contained in this Part shall, so far as may be necessary or expedient to enable the proclamation to have and take effect according to the tenor thereof, be read and construed as if such reference were a reference to the issue of the proclamation.

(7) Whenever the Governor issues any proclamation under the authority of paragraph (c) of subsection (5) of this section, this Part shall, as from the publication of the proclamation and in accordance with the tenor thereof, cease to apply to or have effect in relation to any rivers, streams, watercourses, lagoons, lakes, swamps, or marshes affected by the proclamation or to which the proclamation relates.

Within one month after the publication of such notice of any proposition to borrow money it shall be competent for one-fourth of the owners of the irrigable land in the district by notice delivered to the board to demand that the question whether or not such loan be incurred be submitted to the election of the owners of irrigable land in the district.

(3) Any money borrowed by a board may be raised by the issue of debentures in the prescribed form.

(4) All debentures, and the interest thereon, shall be a charge upon the works constructed by or vested in the board under this Act, and upon the revenues of the board.

(6) All moneys so appropriated as a sinking fund, and all interest accruing thereon, shall be paid to and invested by the Colonial Treasurer in the joint names of the Colonial Treasurer and the board, in such securities as the Colonial Treasurer may think fit.

(7) The accumulated sinking fund shall be applied in payment of the principal of the loan when the same becomes payable, or may be applied from time to time in the redemption of debentures issued.

No. 19 of 1914, s. 62.

- (a) by agreement with the owner; or
- (b) by compulsory process.

Provided that land actually under irrigation shall not be acquired by compulsory process, except so far as the land may be required for the construction of works.

(2) If the Governor approves of any such land being acquired by compulsory process, the Minister may, by notification published in the *Gazette*, declare that such land has been acquired accordingly.

(3) Upon publication of the notification in the *Gazette*, the land described therein shall, by force of this Act—

- (a) be vested in His Majesty the King; and
- (b) be freed and discharged from all trusts, obligations, estates, interests, contracts, licenses, rates, and assessments.

(4) If a copy of the notification in the *Gazette*, certified under the hand of the Minister, is lodged with the Registrar of Titles, or the Registrar of Deeds and Transfers, as the case may be, he shall register the certified copy of the notification in the register, in the manner as nearly as may be in which dealings with land are registered (but production of the Certificate of Title shall not be required), and shall deal with and give effect to the notification as if it were an instrument of transfer or a conveyance of the land to His Majesty the King.

- (b) the damage (if any) sustained by the claimant by reason of the severance of such land from the other adjoining land of such claimant, or by reason of such other lands being injuriously affected by the taking;
- (c) the Court may award such amount as the Court deems proper, not exceeding ten pounds per centum on the amount ascertained under the provisions of this section for compulsory taking;
- (d) where the land taken produces any rent or profits the amount thereof received by the Minister, less the reasonable cost of collection from the day the land was taken to the date of the award, shall be added to the compensation payable, or, at the option of the Minister, interest shall be paid on the amount of compensation for the same period, at the rate of six pounds per centum per annum:

Provided that unless the land is rated under this Act the value shall be assessed without reference to any increase in value arising from any works constructed or to be constructed under this Act.

(9) The Governor may dedicate any land of the Crown to the purposes of this Act, including closer settlement; and the capital value of such land, so dedicated, shall be charged by the Department of Lands and Surveys against the Minister.

(12) The Governor may make regulations for the purposes of this section.

63. The Minister may, at the request of the owner or occupier of any land within a district, undertake and carry out any work upon such land that may be necessary to render the land or any portion thereof fit for irrigation, upon the repayment by such owner or occupier to the Minister of the moneys expended with interest being secured to the satisfaction of the Minister.
