Artificial Breeding of Stock Act 1965

Artificial Breeding (Horses) Regulations 1982

Part I — Preliminary

1. Citation

These regulations may be cited as the *Artificial Breeding (Horses) Regulations 1982*¹.

2. Commencement

These regulations shall come into operation on the 28th day after the day on which they are published in the *Government Gazette*¹.

3. Interpretation

In these regulations, unless the contrary intention appears —

“**artificial insemination**” means the artificial insemination of mares;

“**authorized inseminator**” means a person who holds a certificate of competency as an authorized inseminator of mares;

“**certificate of competency**” means a certificate of competency as an authorized inseminator;

r. 3A

“collection” in relation to semen, means a quantity collected at any one time;

“licence” means a licence for the artificial breeding of horses that is current and valid;

“processing” in relation to semen, means any procedure used in the preparation of collected semen before final use in insemination;

“semen” means semen obtained from a stallion.

[Regulation 3 amended in Gazette 14 June 1985 p.2171.]

3A. Prescribed stock

Horses are a prescribed species of stock for the purposes of —

- (a) paragraph (b) of the definition of “artificial breeding” in section 4 of the Act; and
- (b) section 5B(3) of the Act.

[Regulation 3A inserted in Gazette 16 October 1987 p.3925.]

Part II — Certificate of competency

4. Certificate of competency

- (1) An application for a certificate of competency as an authorized inseminator shall be in the form of Form 1 in Schedule 2.
- (2) A certificate of competency shall be in the form of Form 2 in Schedule 2.

5. Authorized inseminator

A person shall be issued with a certificate of competency if he —

- (a) attends a course of instruction in the practice of artificial breeding of horses conducted by a person or organization approved by the Chief Veterinary Surgeon; and
- (b) passes an examination on the theory and practice of artificial breeding of horses conducted by a person or organization approved by the Chief Veterinary Surgeon.

6. Conditions of certificate of competency

- (1) The holder of a certificate of competency —
 - (a) shall be nominated in writing by the holder of a licence; and
 - (b) shall not carry out artificial breeding of horses except at the licensed premises of the person referred to in paragraph (a) and specified on the certificate of competency.

Penalty: \$100.

- (2) The holder of a certificate of competency shall not change the name of his nominator unless he has the written approval of the Chief Veterinary Surgeon.

Penalty: \$100.

Part III — Licensed premises

7. Licence forms

- (1) An application for a licence or renewal of a licence shall be in the form of Form 3 in Schedule 2.
- (2) A licence shall be in the form of Form 4 in Schedule 2.
- (3) An application for the transfer of a licence shall be in the form of Form 5 in Schedule 2.

8. Veterinary supervision

- (1) It is a condition of a licence that a veterinary surgeon nominated on the licence shall supervise the procedure of artificial breeding at the licensed premises on at least one occasion in each week, except where artificial breeding is carried out at less frequent intervals than once per week, in which case the veterinary surgeon shall supervise the procedure on each occasion.
- (2) The nominated veterinary surgeon shall certify on each occasion on which he supervises artificial breeding whether the artificial breeding is, in his opinion, being carried out in accordance with these regulations.
- (3) A licensee shall not alter the name of a veterinary surgeon nominated on a licence unless he has the written approval of the Chief Veterinary Surgeon.

Penalty: \$100.

9. Licensed premises

- (1) A licence shall not be issued unless the premises to which the licence applies are provided with —
 - (a) fences and gateways constructed so as to prevent the transmission of disease to stock on the premises, and

prevent the unauthorized movement of stock onto, within or out of the premises;

- (b) a quarantine area so situated that the drainage of effluent cannot flow onto or escape from that area to any other part of the premises to which stock have access;
- (c) a hospital area for the housing, diagnosis and treatment of intercurrent diseases of horses which have been admitted to licensed premises; and
- (d) a laboratory equipped with the necessary equipment for the examination, appraisal, dilution and use of semen.

10. Collection of semen

- (1) Semen shall be collected by means of an artificial vagina and not otherwise.

Penalty: \$100.

- (2) Each stallion shall be allocated an artificial vagina which shall be clearly marked with the identity of the stallion.

Penalty: \$100.

11. Equipment

All equipment with which semen may come into contact during collection or any laboratory procedure shall —

- (a) be effectively cleaned and sterilized before any occasion of its use for that purpose; and
- (b) not be used on any other premises without prior consent of the Chief Veterinary Surgeon.

Penalty: \$100.

12. Vessels to be clearly identified

- (1) Any vessel used to hold semen between the time of use or processing shall be clearly marked so as to enable the semen it contains to be identifiable.

Penalty: \$100.

r. 13

- (2) The mark referred to in subregulation (1) shall correspond to the identity number in the records kept pursuant to regulation 15(1)(ii).

13. Semen to be appraised after collection

All semen shall, as soon as possible after collection, be appraised for the concentration, motility and morphology of its contents of spermatozoa.

14. Destruction of semen

A licensee shall destroy, or cause to be destroyed, all semen collected in the same collection for dilution or use if the semen appraised is, in the opinion of the licensee or veterinary surgeon nominated on the licence, not suitable for dilution or use.

Penalty: \$100.

15. Records

The licensee shall cause records to be maintained on the premises at all times showing —

- (a) with respect to the collection of semen —
- (i) the identity of the stallion from which the semen was collected;
 - (ii) the date of collection and the identity number assigned to such collection and batch of semen;
 - (iii) the total quantity collected;
 - (iv) the results of the appraisal with respect to the concentration, motility and morphology of spermatozoa;
 - (v) the degree to which the semen is diluted and the constituents of the diluent used;
 - (vi) the identity of the authorized inseminator who carried out the collection;

- (b) with respect to the use of semen —
 - (i) the identity of the stallion from which the semen originated and the markings on each container received;
 - (ii) the identity of the mare inseminated;
 - (iii) the name and address of the owner of the mare inseminated;
 - (iv) the date on which the semen was used for artificial insemination;
 - (v) the quantity of semen used for each insemination;
 - (vi) the method, date of disposal and particulars of any semen not otherwise accounted for in the records;
 - (vii) the conception rate resulting from the use of semen, identifying the rate in each case with particulars of the stallion from which the semen was collected;

and

- (c) with respect to the movement of horses —
 - (i) the date of entry of each horse to, and its departure from, the premises;
 - (ii) the identity of the horse;
 - (iii) the name and address of the owner of the horse.

Penalty: \$100.

16. Use of semen

An authorized inseminator shall not process or use semen for artificial insemination except on the licensed premises on which it is collected unless the prior written approval of the Chief Veterinary Surgeon has been obtained.

Penalty: \$100.

17. Preservation of spermatozoa

An authorized inseminator shall take all reasonable precautions to maintain the number of live spermatozoa in semen used for artificial insemination at a level compatible with normal fertility.

18. Prevention of transmission of diseases

- (1) An authorized inseminator, when collecting semen from stallions and inseminating mares, shall take every precaution necessary to ensure that disease is not transmitted between horses whether in the same licensed premises or not.
Penalty: \$100.
- (2) Fresh sterile equipment shall be used for each insemination and shall be discarded after use.
Penalty: \$100.
- (3) The equipment used for the collection of semen shall be cleaned and sterilized after use.
Penalty: \$100.

Part IV — Miscellaneous

19. Mixing semen

A person shall not mix semen of one stallion with that of another stallion or mix semen collected on one day with that collected on another day.

Penalty: \$100.

20. Destruction of records

Records required to be kept under these regulations shall not be destroyed until after a period of 3 years from the date of their being made.

Penalty: \$100.

21. Fees

Every application for the issue, renewal or transfer of a licence or an application for a certificate of the competency shall be accompanied by a fee prescribed in Schedule 1.
