

Western Australia

Beekeepers Act 1963

Beekeepers Regulations 1963

Reprint 2: The regulations as at 21 January 2005

Guide for using this reprint

What the reprint includes

Endnotes, Compilation table, and Table of provisions that have not come into operation

1. Details about the original regulations and legislation that has amended its text are shown in the Compilation table in endnote 1, at the back of the reprint. The table also shows any previous reprint.
2. Transitional, savings, or other provisions identified in the Compilation table may be important. The table may refer to another endnote setting out the text of these provisions in full.
3. A table of provisions that have not come into operation, to be found in endnote 1a if it is needed, lists any provisions of the regulations being reprinted that have not come into operation and any amendments that have not come into operation. The full text is set out in another endnote that is referred to in the table.

Notes amongst text (italicised and within square brackets)

1. If the reprint includes a regulation that was inserted, or has been amended, since the regulations being reprinted were made, editorial notes at the foot of the regulation give some history of how the regulation came to be as it is. If the regulation replaced an earlier regulation, no history of the earlier regulation is given (the full history of the regulations is in the Compilation table).

Notes of this kind may also be at the foot of Schedules or headings.

2. The other kind of editorial note shows something has been —
 - removed (because it was repealed or deleted from the law); or
 - omitted under the *Reprints Act 1984* s. 7(4) (because, although still technically part of the text, it no longer has any effect).

The text of anything removed or omitted can be found in an earlier reprint (if there is one) or one of the written laws identified in the Compilation table.

Reprint numbering and date

1. The reprint number (in the footer of each page of the document) shows how many times the regulations have been reprinted. For example, numbering a reprint as “Reprint 3” would mean that the reprint was the 3rd reprint since the regulations were published. Reprint numbering was implemented as from 1 January 2003.
2. The information in the reprint is current on the date shown as the date as at which the regulations are reprinted. That date is not the date when the reprint was published by the State Law Publisher and it is probably not the date when the most recent amendment had effect.

Reprinted under the
Reprints Act 1984 as
at 21 January 2005

Beekeepers Act 1963

Beekeepers Regulations 1963

1. Citation

These regulations may be cited as the *Beekeepers Regulations 1963*¹.

Revocation

[2. *Omitted under the Reprints Act 1984 s. 7(4)(e).*]

Interpretation

3. Interpretation

In these regulations, unless the context requires otherwise —
“**colony of bees**” means a nest of bees whether in a full sized or a nucleus hive;
“**disease**” includes any disease mentioned in the First Schedule;
“**schedule**” means a schedule to these regulations;
“**the Act**” means the *Beekeepers Act 1963*;
words and expressions used in these regulations have the same respective meanings as are given them in, and for the purposes of, the Act.

Registration of Beekeepers

4. Application for registration or renewal

Application for registration or renewal of registration as a beekeeper shall be made in the form of Form No. 1 in the Second Schedule.

5. Fee to accompany application

Every application for registration or renewal of registration shall be accompanied by the fee prescribed in the Third Schedule.

6. Certificate of registration

- (1) The certificate of registration shall be in the form of Form No. 2 in the Second Schedule.

[(2) repealed]

[Regulation 6 amended in Gazette 25 Jun 1969 p. 1869.]

Hive Brands

7. Application for brand

Application for the issue of a registered brand shall be made in the form of Form No. 3 in the Second Schedule.

8. Accompanying fee

Every application for a registered brand shall be accompanied by the fee prescribed in the Third Schedule.

9. Issue of brand

The Registrar shall issue a distinctive brand to each applicant in the form of Form No. 4 in the Second Schedule, and shall record such brand in a register maintained for that purpose.

10. Notification by person who ceases to be a beekeeper

- (1) A person shall, on ceasing to be a beekeeper, notify the Director General that he is no longer a beekeeper and forfeit the brand issued to him.
- (2) Notification that a person has ceased to be a beekeeper shall be made in the form of Form 4A in the Second Schedule.

[Regulation 10 inserted in Gazette 18 Nov 1997 p. 6471.]

11. Content of brand

A brand shall consist of a combination of one or more letters and one or more numerals, each of at least 12 millimetres in height, set in alignment but not conjoined.

[Regulation 11 amended in Gazette 16 Nov 1973 p. 4255.]

12. Affixing brand

The brand may be burnt in, stamped, carved or scored, so that the brand is distinctly impressed below the level of the surface branded.

13. Where to brand

A beekeeper shall brand each brood box and each honey super of every hive, on one exterior surface.

[Regulation 13 amended in Gazette 31 Dec 1981 p. 5406.]

14. Successive owners' brands

Hives shall be so branded that successive owners' brands shall appear immediately below the former or last preceding owner's brand and preceding owners' brands shall be cancelled by a straight line drawn through the letters and figures.

15. Offence

Every person who —

- (a) brands a hive with the registered brand of another person without the authority of that other person; or
- (b) alters, defaces or otherwise renders indistinguishable a registered brand on a hive,

commits an offence.

Notices

15A. Erection, position and content of notice

- (1) A beekeeper maintaining an apiary on land which he does not own, or on land which he does not have his usual place of residence shall erect and display in such a position as to be clearly visible to all persons approaching the apiary a notice bearing —

- (a) the name;
- (b) the telephone number;
- (c) the hive brand; and
- (d) the usual address,

of the beekeeper in letters of not less than 50 millimetres in height.

- (2) Nothing in subregulation (1) permits the nailing of notices to trees in contravention of the *Forests Act 1918*².

[Regulation 15A inserted in Gazette 2 Mar 1973 p. 636; amended in Gazette 16 Nov 1973 p. 4255.]

Imports from other States

16. Certificate required to import

- (1) A person shall not introduce into the State any bees, honey, combs, used hives or used beekeeping appliances from any

other State or any Territory of the Commonwealth except upon the production of a certificate in the form of Form No. 5 in the Second Schedule, and a person shall not introduce or attempt to introduce into this State any bees, honey, combs, used hives or used beekeeping appliances, except as provided by these regulations.

- (2) Nothing in this regulation affects any conditions prescribed by any other of these regulations.
- (3) Subregulation (1) does not apply to honey introduced into the State in a quantity not exceeding 1 kg for scientific or analytical purposes.
- (4) This regulation does not prevent honey being treated at temperature and time regimes approved by the Director General of Agriculture.

[Regulation 16 amended in Gazette 16 Nov 1973 p. 4255; 21 Dec 1979 p. 3990; 3 Mar 1995 p. 767.]

[16A. Repealed in Gazette 3 Mar 1995 p. 768.]

17. Written authority from inspector

- (1) A person shall not introduce any bees, combs, used hives, honey or used beekeeping appliances into the State whether by land, sea or air from any other State or any Territory of the Commonwealth without the authority in writing of an inspector given in the form of Form No. 6 in the Second Schedule; and, except in accordance with these regulations, an inspector shall not grant any such authority, until he is satisfied that all the provisions of every law, regulation or order of the Governor at the time being in force with respect to the introduction of such bees, combs, used hives, honey or used beekeeping appliances have been complied with.
- (2) Any inspector may detain, and prevent the movement of, bees, combs, used hives, honey or beekeeping appliances newly introduced into the State, until the provisions of these regulations have been complied with.

- (3) A person receiving bees, combs, used hives, honey or used beekeeping appliances in the course of their consignment to this State from some other State or a Territory of the Commonwealth shall not deliver them or any of them up to the consignee until an authority in writing such as is mentioned in subregulation (1) is presented by the consignee.
- (4) The Senior Apiculturist may in any case order an inspector to withhold the issue of the authority referred to in subregulation (1), for such time as the Senior Apiculturist thinks expedient, and the inspector shall comply with any such order.

Eradication of Brood Diseases

18. Disease control

Every beekeeper in whose apiary any disease of the brood is present, or suspected to be present, shall —

- (a) send to the Senior Apiculturist or nearest inspector —
 - (i) a specimen of infected comb not less than 75 mm square and securely packed;
 - (ii) 4 smears taken from the infected brood; and
 - (iii) a written statement concerning the occurrence, giving the location of the apiary;
- (b) where directed by an inspector to do so —
 - (i) destroy the bees in every infected, or suspected, hive in the apiary immediately after flying has ceased at night, by closing the entrance of each such hive, pouring petrol into the top of the hive and closing the lid immediately;
 - (ii) burn in a pit in the ground, the dead bees, all combs and frames, bottom boards, lids and inner cover, mats and scrapings of propolis and wax from the inside of the hive parts of each such hive;
 - (iii) bury the burnt remains under at least 0.3 metres of earth;

- (iv) char with a flame all the interior surfaces of brood boxes and honey supers and apply similar heat to queen excluders or burn and bury these items with the material referred to in subparagraph (ii);
- (c) where directed by an inspector to do so, treat the infected or suspected colonies with antibiotics as directed by the inspector.

[Regulation 18 inserted in Gazette 31 Dec 1981 p. 5406.]

18A. Interpretation of “antibiotics”

- (1) For the purposes of section 15A of the Act “antibiotics” are prescribed as a class of substance which a beekeeper shall not use for treatment of disease in an apiary without the prior approval of an inspector.
- (2) In this regulation “**antibiotics**” means substances derived from micro-organisms, derivatives of such substances produced wholly or partially by synthesis, and other synthetic substances with a specific antimicrobial effect which may be used for the specific treatment of human or animal infections by bacteria, fungi or viruses, but the term does not include non-specific disinfectants, that is, non-specific antibacterial substances not derived from micro-organisms and used exclusively for topical application.

[Regulation 18A inserted in Gazette 31 Dec 1981 p. 5406.]

19. Pest eradication

Every beekeeper in whose apiary or in whose comb, cappings, or beeswax, pests appear, shall —

- (a) give any lightly infested combs to strong colonies of bees; or
- (b) melt and strain those combs, cappings, or that beeswax in hot water or steam, and destroy, by burning, the material separated from the wax; or

(c) burn the infested material,
and shall destroy all larvae, cocoons and adult pests present in his apiary, beekeeping appliances and premises.

Duties of Inspectors

20. Inspector to mark diseased hive

An inspector, on finding disease present in a hive, shall mark the parts of the diseased hive in a distinctive manner.

21. Direction to beekeeper

- (1) An inspector to whom the occurrence of disease or pests in an apiary has been reported, or who finds disease or pests in an apiary, shall forthwith direct the beekeeper to carry out such measures as are necessary to eradicate or control the disease or pests.
- (2) Directions given under this regulation shall be in the form of Form No. 7 in the Second Schedule.

[Regulation 21 amended in Gazette 31 Dec 1981 p. 5407.]

Quarantine

22. Quarantine order

An inspector, on finding, or suspecting, disease to be present in an apiary, shall issue a quarantine order in the form of Form No. 8 in the Second Schedule.

23. Inspection of apiary

An inspector shall make an inspection of an apiary for disease, at times appropriate for the control or eradication of the disease, after a quarantine order has been issued in respect of that apiary.

[Regulation 23 inserted in Gazette 31 Dec 1981 p. 5407.]

24. Issue of release from quarantine

If the inspector is satisfied that —

- (a) the quarantine order has been obeyed; and
- (b) there has been no removal or interchange of any parts from any hives since the quarantine order was issued; and
- (c) the course of the disease is normal; and
- (d) all diseased hives have been treated as required; and
- (e) the disease organisms in the bees, combs or apiary equipment have been controlled or eradicated,

he shall issue a release from quarantine in the form of Form No. 9 in the Second Schedule.

[Regulation 24 amended in Gazette 31 Dec 1981 p. 5407.]

25. Removal of apiary

- (1) An inspector may authorise the removal of an apiary to which a quarantine order applies, from an apiary site to a site approved by the inspector, but —
 - (a) the quarantine order shall continue to apply to that apiary while in transit and on the new site; and
 - (b) there shall be no interchange of hive parts between hives; and
 - (c) where any part of any hive is removed for the purpose of transport it shall be replaced on the same hive on the new site.
- (2) An inspector may authorise the extraction and removal of honey from an apiary that is in quarantine, but any part of a hive removed for the purpose of extracting the honey shall be returned forthwith to the same hive.
- (3) Any authorisation given under this regulation shall be in writing appropriate.

Hives

26. Bees to be kept in hives

- (1) Bees shall be kept in hives of which the combs are built in removable frames, but nothing in this regulation precludes the use of cages or ventilated boxes without frames, for the purpose of transporting bees from place to place.
- (2) Every hive shall be of sound construction and of approved design.

Abandoned or Neglected Hives

27. Powers of inspector in regard to abandoned or neglected hives

- (1) Prior to taking possession of abandoned or neglected bees or hives, an inspector shall obtain from the owner or occupier of the land upon which the bees or hives are situated, authority to remove, and dispose of, the bees or hives and any other abandoned or neglected beekeeping equipment.
- (2) An authority required under this regulation shall be in the form of Form No. 12 in the Second Schedule.
- (3) This regulation does not apply to bees or hives that are abandoned or neglected and which are infected with disease or harbour pests.

Approved Devices

[Heading inserted in Gazette 24 Aug 2000 p. 4904.]

27A. Devices approved for pollination purposes

- (1) A beekeeper who owns bees, or has the charge, care or possession of bees, that are kept in a device approved for the purposes of section 8(1a) of the Act shall clearly and indelibly mark on the device the date when the bees are first placed in it.

- (2) The prescribed manner of disposing of the bees and the device for the purposes of section 8(1a) of the Act is —
- (a) by destroying the bees immediately after flying has ended at night by pouring petrol into the device and immediately closing it;
 - (b) by burning the device and the dead bees in a pit in the ground; and
 - (c) by burying the burnt remains under at least 0.3 metres of earth.

[Regulation 27A inserted in Gazette 24 Aug 2000 p. 4904.]

Standards of Quality and Packaging of Honey for Sale

28. Content of honey for sale

A person shall not sell, or offer for sale, any honey that —

- (a) has a refractive index of less than 1.49025 at 20°C.;
- (b) is not, when offered for sale to packers, as free from wax and foreign matter as if it had been strained through a wire gauze with an aperture size of not more than 1.130 millimetres at a temperature of not more than 43°C.;
- (c) is not, when offered for sale to the public, as free from wax and foreign matter as if it had been strained through a wire gauze with an aperture size of 0.1854 millimetres at a temperature of not more than 43°C.;
- (d) is not free from damage, including damage caused by overheating, metallic staining, fermentation, or any flavour or aroma from a foreign source; or
- (e) has had added to it any sugar, glucose, flavouring matter, colouring matter or any other foreign substance.

[Regulation 28 inserted in Gazette 27 Oct 1966 p. 2809-10; amended in Gazette 16 Nov 1973 p. 4255.]

29. Transportation, storage and selling

A person shall not transport, store or sell or offer for sale honey, except in containers that are clean, air tight and free from corrosion, both internally and externally.

[Regulation 29 inserted in Gazette 27 Oct 1966 p. 2810.]

30. Information required on container

(1) A person shall not sell or offer for sale, to the public, honey, except in a container that bears —

(a) a description of the contents including the word “HONEY”; and

(b) information as to —

(i) the net weight of honey in the container; and

(ii) the name and address of any one of the following, namely —

the person selling the honey or offering it for sale;

the packer of the honey; or

the producer of the honey.

(2) The description of the contents of the container prescribed by subregulation (1)(a) may be qualified by information indicating the locality of origin or floral source or both of the honey, but a person shall not use, or permit the use of, a description that is misleading or not characteristic of the contents.

NOTES

1. A person who owns, or has the charge, care or possession of, bees or any hive that contains, or has contained, bees is a "beekeeper", and is required, within 14 days after becoming a "beekeeper", to apply to be registered as such (*Beekeepers Act 1963*, section 8).
2. This form should be completed and sent with the appropriate application/renewal fee to AGRICULTURE WESTERN AUSTRALIA ³, BARON-HAY COURT, SOUTH PERTH, 6151.
3. On receipt of this completed form and the appropriate application/renewal fee you will be issued with —
 - (a) a Certificate of Registration as a beekeeper (if this is an initial registration); or
 - (b) a receipt showing that the original certificate has been renewed (if this is an application for renewal of registration).
4. If you have ceased to be a beekeeper, you should notify the Director General using Form 4A (Notification that a Person has Ceased to be a Beekeeper) and forfeit your brand accordingly.

BRANDS ON HIVES

The letters and numerals of which the brand consists shall be each of at least 12 millimetres in height, set in alignment but not conjoined.

The brand may be burnt in, stamped, carved or scored so that the brand is distinctly impressed below the level of the surface branded.

A beekeeper shall brand each brood box and each honey super of every hive, on one exterior surface, and may also brand the floor board, inner and outer covers, frame top bars and other of his beekeeping appliances.

Hives shall be so branded that successive owners' brands shall appear immediately below the former or last preceding owner's brand and brands of former owners shall be cancelled by means of an oblique line through them, but must not be rendered indistinguishable.

ORIGINAL — To accompany the article.

DUPLICATE —

*2) The honey/honeycomb/beeswax/pollen/bee colonies/used hive
equipment/queen bees/queen cells/packages/or other apiary products*
described herein were derived from apiaries which are free of American
foul brood (*Bacillus larvae*) and are not showing field symptoms of any
other disease of bees.

*3) The bee colonies are not in quarantine and are not from a declared
quarantine area or declared prohibited zone.

*4) Pollen used for feedback to bees has been sufficiently irradiated to a
minimum of 15 kilo Gray prior to distribution to beekeepers.

*5) For importation into Western Australia, Tasmania and Northern Territory
the State/Territory* from which the bees, honey bee products or
equipment originates is free of European foul brood (*Melissococcus
pluton*) (not Tasmania) and chalkbrood disease (*Ascosphaera apis*) OR:

i) The honey/or other apiary products described herein have been
pasteurised by heating to a temperature of 65° Celsius for not less
than 8 hours or 70° Celsius for 2 hours (not Northern Territory).

Second Schedule

- *ii) Honey used in queen candy, pollen or food for package bees containing bee products has been irradiated at a minimum of 15 kilo Gray to inactivate all infectious agents.
- *iii) The beeswax described herein has been refined by heat treatment to melting point at premises approved by the senior apicultural officer (W A only).
- *iv) The equipment described herein is free from honey, beeswax, propolis, hive material and contamination with honey bee diseases and, in the case of beehives, have not previously been used for keeping bees (W A only).
- *v) The queen bee and not more than 6 escorts must be derived from an apiary free of chalkbrood, American and European foul brood for the previous 12 months (Northern Territory only).
- *6) For movement out of Tasmania, the bees/honeycomb/used hive equipment* are accompanied by a written approval under Quarantine Proclamation No. 114A from the Director of Quarantine or authorised delegate.
