That if default is made by the mortgagor in repayment or discharge of the moneys secured by the mortgage for a period of one month after demand, or if the mortgagor fails to perform or observe any of the covenants contained in the mortgage and on the part of the mortgagor to be observed and performed the mortgagee may —

- (i) enter upon and take possession of the property comprised in the mortgage, or any part thereof, and work or let the same, subject to the provisions of the Act, but in that case the mortgagee shall be liable to account to the mortgagor for the rents and profits of such property until the mortgagor's right to redeem the same has been determined by sale or otherwise; or
- (ii) cause the property comprised in the mortgage, or any part thereof, together with any right, title or interest the mortgagor may have in any mining product from the property, to be sold by auction after having not less than 30 days clear before the date of sale —
 - (I) advertised his intention so to do by such means as the Minister approves; but —
 - (II) the mortgagee shall, at any such auction be at liberty to bid for and purchase the property or any part thereof;

- (IV) if, after sale, there remains a balance over and above the amount due to the mortgagee, he shall lodge a statement of account at the office of the mining registrar together with such balance for payment to any other mortgagees according to their respective priorities, and to the mortgagor.

Mortgagee's expenses may be added to security

80. All expenses properly incurred by the mortgagee under the covenants, stipulations, agreements, or powers contained or implied in the mortgage together with interest thereon from the date of disbursement, at the rate named in the mortgage with respect to the principal moneys thereby secured, may be added to the security.

Minister may determine value of mineral for the purpose of calculating royalties

87. (1) Where a royalty has been paid under regulation 86 and the Minister is of the opinion that the realized value on which the royalty was based was not a true or fair value on which to calculate the royalty because —

- (a) the value does not represent the market value of the mineral at the date the mineral was first sold, transferred or otherwise disposed of or the costs deducted to calculate the realized value by the person liable to pay the royalty are excessive having regard to the type of sale, transfer or disposal, the Minister shall determine the value of the mineral in accordance with the market value for that type of mineral, assessed at an arms length basis at the date the mineral was first sold, transferred or otherwise disposed of for that type of sale, transfer or other disposal; or
- (b) the first sale, transfer or other disposal of the mineral was to a corporation which is a related corporation to the holder of, or applicant for, the mining tenement and the holder or applicant has not shown to the satisfaction of the Minister within the time specified by the Minister that the sale,
