- (3) If a subscriber surrenders a receipted ticket, the subscriber is entitled to a full refund from the agent or a further receipted ticket in exchange for the surrendered ticket.

11. Effect of receipted tickets

- (1) Subject to subrules (2) and (3), a receipted ticket is generated by the Commission to indicate the details of a valid entry, or of a number of system entries, as appearing on the ticket, have been recorded in the central gaming system records in relation to the numbered lotto draw or draws shown on the ticket.
- (2) Subrule (1) does not apply to a receipted ticket that —
 - (a) has been surrendered in accordance with rule 10; or
 - (b) is partially invalid because a “consecutive week” option is not allowed for some of the draws on the receipted ticket; or

- (c) has, during the selling period for that draw, been found to be invalid as a result of non-compliance with these rules; or
 - (d) is forged or altered, or obtained as a direct result of fraud, by the subscriber or person claiming a prize.
- (3) If the details appearing on the receipted ticket are ambiguous, illegible or appear to be at odds with the information in the central gaming system records, the central gaming system records are taken to be the correct details in relation to that receipted ticket.

12. Which divisions can be won by a receipted ticket

- (1) The holder of a receipted ticket or the purchaser of an entry under Part 2 Division 5 may claim a prize in only one division for each lotto game entered with that ticket or entry.
- (2) The holder of a receipted ticket which contains, or the purchaser of an entry under Part 2 Division 5 which comprises, a system entry may claim a prize in one division for each notional game making up that system entry, resulting in prizes in more than one division for that entry.
- (3) The holders of a syndicate share receipted ticket which contains a system entry may claim a share in a prize in one division for each notional game making up that system entry, resulting in shares in prizes in more than one division for that entry.

13. Agents not required to check accuracy of receipted tickets

An agent who generates a receipted ticket by processing a playslip, a promotional coupon, a ticket repeat or as a result of an oral request for entry is under no duty to ensure that receipted ticket accurately reflects the playslip, coupon, ticket or request.

14. Commission may require a statutory declaration as to compliance

The Commission may require the holder of a receipted ticket to complete a statutory declaration, upon the payment of any lotto prize or share of a prize to that person, stating that the person has not, or is not to that person's knowledge part of a group which has, acted in a manner contrary to the Act or these rules in relation to a receipted ticket.

15. Player Registration Service

- (1) A player's card with a PRS number will be issued to a subscriber who requests a number from the Commission under this rule, pays the amount determined by the Commission (if any) and provides what the Commission accepts as appropriate confirmation of identification.
- (2) A person who presents a winning receipted ticket that is endorsed with a PRS number, within 5 weeks of the relevant draw, will be paid in accordance with these rules, unless —
 - (a) the Commission has been notified that the particular ticket has been lost or stolen, within a day of the loss or theft; or
 - (b) the Commission requests verification of ownership or identity at the time of presentation, by means of a statutory declaration, and that verification is not provided.
- (3) The prize entitlement of a winning receipted ticket that —
 - (a) is endorsed with a PRS number; and
 - (b) is not claimed, or paid, within 5 weeks of the relevant draw,

will be paid in a manner determined by the Commission to the person named, and to the bank details recorded, against that player's PRS number.

- (4) Payment of a prize entitlement under subrule (2) or (3) discharges the liability of the Commission in relation to any particular winning receipted ticket that is endorsed with a PRS number, and possession by a subscriber of a player's card does not entitle the subscriber to claim a prize from the Commission that has already been paid.

16. Information on playslips

The Commission must ensure that a playslip for lotto displays —

- (a) such details to facilitate entry; and
- (b) such instructions to subscribers,

as the Commission considers necessary.

17. Status of instructions on playslips

- (1) The subscriber and any other person claiming a prize in respect of a receipted ticket should follow the instructions on any playslip or promotional coupon used, and on the back of the receipted ticket.
- (2) In the event of any inconsistency arising between the instructions on a playslip or promotional coupon or receipted ticket and these rules, these rules prevail to the extent of the inconsistency.

18. Commission's decisions are final

A decision or determination of the Commission in relation to a lotto draw, and the declaration and payment of prizes under these rules, is final and binding upon the holders of receipted tickets and any other persons claiming prizes in respect of the lotto draw.

Division 2 — Conducting a lotto draw

19. Lotto draws to be numbered

Each lotto draw conducted by the Commission is to be identified with a draw number.

20. Lotto draws to be supervised

Each lotto draw is to be supervised in the manner determined by the Commission.

21. Availability of results

The Commission is to ensure that, as a minimum, the result of each lotto draw is available on the Lotterywest website, on and from the commencement of business hours of the trading day following the results.

22. Publication of results

After each lotto draw the Commission is to publish —

- (a) the draw number; and
- (b) the winning numbers and any supplementary or bonus numbers; and
- (c) the amount allocated to a winning game in each division; and
- (d) the validation period and the date after which the division 1 or 1st prizes will be paid; and
- (e) any variation in the day on which the payout period commences.

23. Publishing the names and addresses of prize winners

Subject to rule 51, the Commission may publish the name and address of any prize recipient except where the back of the winning receipted ticket is marked to indicate that the name and address on the ticket is not for publication.

24. These rules to be made available

- (1) A copy of these rules must be kept and maintained on the Lotterywest website.
- (2) The Commission may also publicise the rules, and any amendment to them, in any other manner that it thinks fit.

Division 3 — Syndicate entries

25. Application of this Part to informal syndicate entries

- (1) An “informal syndicate entry” in a lotto draw (or an entry that has been bought using pooled money, with the understanding that the prize will be shared) may be organised by a person (whether or not that person is an agent), by means of a collective contribution to the payment for an entry, but the receipted ticket will not acknowledge that more than one person has contributed to the payment.
- (2) This Division does not apply to an informal syndicate entry in a lotto draw.
- (3) This Division only applies to syndicate entries if the syndicate entries are offered in accordance with this Division by the Commission or an agent, as the case may be.

26. Creating a syndicate

- (1) In this rule —
syndicate sales (subscription) adjustment means an adjustment of the difference in value between the master ticket subscription value and the sum of the actual subscription values of the syndicate shares.
- (2) To create a syndicate, the Commission or an agent must produce a syndicate master ticket, which confirms that the particular syndicate with the parameters printed on that master ticket has been established in the central lotteries computer system.

- (3) A playslip may be used to set up a syndicate under this Part, but cannot be used to purchase a syndicate share.
- (4) The Commission or the agent that produces the master ticket is the holder of the master ticket.
- (5) A syndicate sales (subscription) adjustment may be required from time to time and the adjustment will be made against the master ticket held by the Commission or the agent.

27. Syndicate share numbers and cost parameters

- (1) The minimum number of shares that may be made available in a syndicate is 5.
- (2) The maximum number of shares that may be made available in a syndicate is 500.
- (3) The minimum and maximum costs of entry for a syndicate are set out in Schedule 2.
- (4) The cost of a share in a particular syndicate is calculated by a method determined by the Commission that includes truncation to the nearest cent for the subscription component and agent commission component, followed by rounding down, where necessary, to the nearest sum containing a 5 cent multiple.

28. Agent's component of syndicate share

The agent's component per share is the difference between the final price per share and the subscription per share.

29. Syndicate participation parameters

- (1) A syndicate cannot be created for more than one draw.
- (2) A syndicate can be for more than one system entry of the same or different system type on the one playslip, but the aggregate cost of the playslip cannot exceed the limit set out in Schedule 2.

- (3) A syndicate cannot be for a combination of more than one type of lotto under these rules.

30. Types of syndicate entries

Division 2 — Prize pool and prize reserve fund

- (2) The total contribution under subrule (1) is to be divided so that —

 - (b) the balance of the contribution goes towards the Australian Lottery Blocs prize reserve fund.
- (3) Distribution of the prize reserve fund must be as additional prize money or promotional prizes, in such amounts and in such OZ Lotto draws, as are agreed by the Australian Lottery Blocs members.

Division 3 — OZ Lotto draw

78. Nature of an OZ Lotto draw

An OZ Lotto draw involves the mechanical, equally random selection of 9 numbered balls selected from balls individually numbered from 1 to 45 inclusive, in a manner and using such equipment as the Commission or designated authority determines to be adequate.

79. Criteria for winning

In an OZ Lotto draw the holder of a receipted ticket or the purchaser of an entry under Part 2 Division 5 of these rules wins —

- (a) division 1, if all 7 winning numbers;

- (b) division 2, if any 6 winning numbers and a supplementary number;
- (c) division 3, if any 6 winning numbers;
- (d) division 4, if any 5 winning numbers and a supplementary number;
- (e) division 5, if any 5 winning numbers;
- (f) division 6, if any 4 winning numbers;
- (g) division 7, if any 3 winning numbers and a supplementary number,

are selected in the one game.

80. Only one prize per game except for system entries

- (1) An entry in which 7 numbers have been selected per game does not entitle the holder of the receipted ticket or the purchaser of an entry under Part 2 Division 5 of these rules to claim to have won in more than 1 division per game in an OZ Lotto draw.
- (2) A system entry in which 4 to 19 numbers (but not 7 numbers) have been selected may entitle the holder of the receipted ticket or the purchaser of an entry under Part 2 Division 5 of these rules to claim to have won in more than 1 division per game in an OZ Lotto draw.
- (3) The holders of a syndicate share receipted ticket which contains a system entry may claim a share in a prize in one division for each notional game making up that system entry, resulting in shares in prizes in more than one division for that entry.

81. Distribution of prize pool

- (1) If no one wins a division 1 prize in a particular OZ Lotto draw, then the division 1 prize pool for that OZ Lotto draw (calculated without any prize reserve fund augmentation) must be added to, and form a part of, the next OZ Lotto draw division 1 prize pool.

- (2) Where there is no OZ Lotto division 1 prize winner for 26 consecutive OZ Lotto draws, the Commission must allocate the accumulated division 1 prize pool in the 26th OZ Lotto draw to the prize pool for the division 2 winners in that OZ Lotto draw.
- (3) If an OZ Lotto division 1 prize pool is distributed to division 2 winners, the prize money is still treated as a division 1 prize for the purposes of making a claim.

82. Application of prize pool if divisions 2 to 6 prize not won

If no one wins a prize in division 2, 3, 4, 5 or 6 in a particular OZ Lotto draw, then the prize pool for that division is to be added to the prize pool for the next lower division in which there is at least one winner in that OZ Lotto draw.

83. Bonus draws and guaranteed prize pools for division 1

- (1) The Commission may from time to time declare an OZ Lotto draw to be a bonus draw and fix a minimum guaranteed prize pool for division 1 in that draw.
- (2) The Commission may add all or part of the prize reserve fund to the division 1 prize pool in a bonus draw to increase the division 1 prize pool to the guaranteed amount and any amount so added forms part of that prize pool.
- (3) Where a bonus draw is fixed under this rule, and a jackpot division 1 OZ Lotto prize coincides with that draw, the Commission may elect to reduce the augmentation from the prize reserve fund set out in subrule (2) by the amount of the OZ Lotto division 1 jackpot amount for that draw, and retain that part of the prize reserve fund for a future OZ Lotto bonus draw.
- (4) If —
 - (a) no one wins a division 1 prize in a bonus draw; and

- (b) all or part of the prize reserve fund would have to have been used to increase the division 1 prize pool to a guaranteed amount had there been a division 1 winner,

the amount of the reserve that would have been so used is to be returned to the prize reserve fund and is not to be counted when calculating the jackpot prize pool for the next OZ Lotto draw.

84. Combination of jackpot and prize reserve amount to form single division 1 prize pool

If a jackpot is available for an OZ Lotto draw division 1 prize pool and an amount is to be distributed from the prize reserve fund for that OZ Lotto draw division 1 prize pool, then both amounts form a single OZ Lotto division 1 prize pool for the purposes of these rules.

85. Minimum division 1 prize pool may be guaranteed

- (1) The Commission may from time to time guarantee that a minimum amount for an OZ Lotto draw division 1 prize pool will be available for a particular OZ Lotto draw.
- (2) If a minimum OZ Lotto draw division 1 prize pool is guaranteed for a particular OZ Lotto draw, and the Commission is obliged to contribute an amount to that division 1 prize pool to make up the guaranteed minimum, then the extra amount contributed is not to be taken into account when calculating a jackpot prize pool.

 - (i) the first and second winning digits; or
 - (ii) the fifth and sixth winning digits.
- (2) If the selected digits in one game satisfy the winning criteria for more than one division, that game is a winning game only in the highest of those divisions.

143. Distribution of prize pool

- (1) Subject to rule 144, the Commission must distribute the total prize pool for a Super66 draw as follows —
- (a) division 1 —
 - (i) the balance of the total prize pool after payment of prizes referred to in paragraphs (b), (c), (d) and (e); or
 - (ii) \$16 666; or
 - (iii) in a bonus draw, the minimum guaranteed amount,whichever is the higher amount;
 - (b) division 2 — \$6 666 for each winning game in that division;
 - (c) division 3 — \$666 for each winning game in that division;

- (d) division 4 — \$66 for each winning game in that division;
 - (e) division 5 — \$6.60 for each winning game in that division.
- (2) The division 1 prize pool is to be divided equally between the winning games in that division.

144. Application of prize pool if division 1 not won

- (1) If no one wins a division 1 prize in a particular Super66 draw, then the balance of the total prize pool for that draw, including any prize reserve fund augmentation, is to be added to, and then forms part of, the division 1 prize pool for the next Super66 draw.
- (2) Where there is no Super66 division 1 prize winner for 26 consecutive Super66 draws, the Commission must allocate the accumulated division 1 prize pool in the 26th Super66 draw to the next lowest division in which there is a winner in that draw.
- (3) If the balance of the total prize pool is to be distributed to winners in a division other than division 1, the prize money is to be treated as a division 1 prize for the purposes of claiming and payment of prizes.

145. Bonus draws and guaranteed prize pools for division 1

- (1) The Commission may from time to time declare a Super66 draw to be a bonus draw and fix a minimum guaranteed prize pool for division 1 in that draw.
- (2) The Commission may add all or part of the prize reserve fund to the total prize pool in a bonus draw to increase the division 1 prize pool to the guaranteed amount and any amount so added forms part of that prize pool.
- (3) Where a bonus draw is declared under this rule, and a jackpot division 1 prize coincides with that draw, the Commission may

elect to reduce the augmentation under subrule (2) by the amount of the jackpot.

(4) If —

- (a) no one wins a division 1 prize in a bonus draw; and
- (b) all or part of the prize reserve fund would have to have been used to increase the division 1 prize pool to a guaranteed amount had there been a division 1 winner,

the amount of the reserve that would have been so used is to be included as part of the division 1 prize pool for that draw when calculating the jackpot division 1 prize pool for the next Super66 draw.
