 - (i) in tanks having a water capacity exceeding 500 litres; or
 - (ii) in cylinders having an aggregate water capacity exceeding 1 000 litres.
- (2) The provisions of sections 8, 9, 10 and 11 do not apply to or in relation to gas supplied directly by a pipeline licensee to a consumer for industrial purposes in any case where the gas is not supplied by means of a reticulation system generally serving consumers in the same locality.
- (3) The Governor may from time to time, by proclamation, declare that all or any of the provisions of this Act do not apply to or in relation to the manufacture or supply of any gas which is not ordinarily used as a fuel by consumers generally and which is specified in the proclamation.
- (4) A proclamation made under subsection (3) may —

s. 7

7. Act to prevail over other Acts

- (1) Any provisions of this Act with respect to the heating value of gas or the testing of the heating value of gas shall have effect in lieu of any provisions relating to the calorific value or illuminating power of gas, or the testing of the calorific value of gas, whether to the same effect or inconsistent therewith, in any other Act relating or applying to any undertaker, and any such other Act shall, so far as applicable and with all necessary adaptations, be read and construed accordingly.
- (2) Any provisions of this Act with respect to the purity, quality, composition or pressure of gas or the testing of gas or with respect to any other matter for which provision is made in this Act shall have effect in lieu of any provisions whether to the same effect or inconsistent therewith in any other Act relating or applying to any undertaker, and any such other Act shall, so far as applicable and with all necessary adaptations, be read and construed accordingly.

8. Heating standard of gas to be approved

- (1) Subject to the provisions of subsection (5), an undertaker shall not, after the coming into operation of this Act, distribute gas unless he has first obtained the written approval of the Minister

of the minimum standard of heating value of the gas to be distributed by that undertaker.

Penalty: \$250 000.

- (2) Subject to section 9, the Minister may upon application by an undertaker approve any alteration of the minimum standard of heating value of gas previously approved or deemed to have been approved pursuant to subsection (1).
- (3) The Minister may approve different minimum standards of heating values in respect of the type of gas distributed by an undertaker in different areas.
- (4) Any approval given by the Minister pursuant to this section may be given subject to such conditions as the Minister determines, and notice of any approval so given shall be published in the *Government Gazette*.
- (5) Where on the day immediately preceding the date of the coming into operation of this Act, an undertaker was supplying gas, the declared standard under the *Gas (Standards) Act 1947* of the undertaker on that day shall be deemed to be the minimum standard of heating value approved for that undertaker under subsection (1), until that standard is altered in accordance with subsection (2).
- (6) An undertaker who has been directed under section 10 to keep a continuous record of the heating value of gas supplied by him, shall not supply gas of which the average heating value, measured in accordance with subsection (7) over any continuous period of 28 days, is less by more than 1% than the minimum standard of heating value for the time being approved under this section in respect of the gas.
Penalty: For a first offence, \$40 000 and for a second or subsequent offence, \$250 000.
- (7) For the purposes of subsection (6), the average heating value of gas supplied by an undertaker over any period of 28 days shall be measured by obtaining the aggregate of the mean heating

s. 9

values of gas supplied in each period of one hour during that period of 28 days, and dividing the aggregate so obtained by 672.

(8) Where —

- (a) an undertaker has not been directed under section 10 to keep a continuous record of the heating value of gas supplied by him; and
- (b) the average heating value of gas supplied by that undertaker, as ascertained by the taking of 3 tests of that gas during any period of 2 hours, is less by more than 1% than the minimum standard of heating value for the time being approved under this section in respect of that gas,

the undertaker is guilty of an offence.

Penalty: For a first offence, \$20 000 and for a second or subsequent offence, \$250 000.

[Section 8 amended by No. 87 of 1979 s. 6; No. 63 of 1985 s. 5; No. 5 of 2007 s. 23.]

9. Requirements as to change in gas

- (1) An undertaker shall not cause or permit any alteration to be made in the specific gravity, flame speed or other prescribed characteristic of gas supplied by him unless he has first applied for, and obtained, the written approval of the Minister to the alteration.
- (2) Where the Minister —
 - (a) has received from an undertaker an application under section 8(2) or subsection (1) for his approval to the alteration of the heating value or other characteristic of the gas supplied by the undertaker; and
 - (b) is of opinion that if the alteration is effected, all or any of the consumers' installations to which the gas is

supplied will require modification or replacement by reason of the alteration,

the Minister shall not approve of the alteration until he is satisfied that the undertaker has satisfactorily undertaken, at his own expense, the, modification or replacement, as the case requires, of those consumers' installations.

10. Testing of gas

- (1) The Director may at any time test gas supplied by an undertaker to determine its heating value, pressure, purity and odour and for such other purposes as in the opinion of the Director are necessary or expedient for the proper administration and enforcement of this Act, and shall furnish the undertaker with the result of any test carried out under this subsection.
- (2) The Director may from time to time by notice in writing served on an undertaker, direct the undertaker to keep a continuous record of the heating value of all or any of the gas supplied by that undertaker, and the Director may, for that purpose, from time to time require the undertaker to install, operate and maintain such measuring and recording devices or apparatus as are specified in a notice in writing served by the Director on the undertaker.
- (3) The results of any tests carried out by the Director under subsection (1) and any records kept by an undertaker pursuant to subsection (2) are admissible in evidence in any proceedings instituted under this Act, as evidence of the matters therein stated.

 - (b) cause or permit any false entry to be made in any record kept pursuant to subsection (2);
 - (c) do, or cause or permit to be done, or fail to do, any act or thing with intent to cause any measuring or recording

device or apparatus installed pursuant to subsection (2) to incorrectly record the heating value of the gas supplied by that undertaker; or

- (d) fail to report forthwith to the Director any fault occurring in or any breakdown or failure of any apparatus or device installed pursuant to subsection (2).

Penalty: \$250 000.

[Section 10 amended by No. 63 of 1985 s. 6; No. 89 of 1994 s. 93; No. 5 of 2007 s. 24.]

11. Defences against certain proceedings

In any proceedings instituted against an undertaker for an offence against section 8(6) or (8), it is a defence for the undertaker to prove that —

- (a) the supplying of gas at less than the relevant approved minimum heating value which gave rise to the proceedings was caused by circumstances over which the undertaker had no control and could not reasonably have been expected to have exercised control; and
- (b) he notified the Director forthwith upon his becoming aware of those circumstances.

[Section 11 amended by No. 89 of 1994 s. 93.]

[12. Repealed by No. 5 of 2007 s. 25.]

 - (a) may commence to supply gas to a newly installed consumer gas installation; or
 - (b) supply gas to a consumer gas installation that has been altered by the installation of a Type B gas appliance,

if, and only if, the installation has been inspected by an inspector and complies with the requirements, if any, prescribed in respect of that installation.

Penalty: \$250 000.

- (2) If an undertaker or a pipeline licensee has an Inspection Policy Statement and Plan approved by the Director under section 13J, the undertaker or pipeline licensee may commence to supply gas to a consumer gas installation if, and only if, the installation has been inspected in accordance with that plan and complies with the requirements, if any, prescribed in respect of that installation.

Penalty: \$250 000.

- (3) In proceedings for an offence against subsection (2) it is a defence for the accused to show that an inspection was carried out after the gas was supplied to the consumer's gas installation under section 13K(2).

- (4) If, on an inspection under subsection (1), the inspector makes an order under section 18(2)(a) of the *Energy Coordination Act 1994* or issues a notice under this Act, the undertaker or pipeline licensee must send a copy of the order or notice to the Director within 28 days of the completion of the inspection.

Penalty: \$100 000.

- (5) If an accident involving gas occurs at an installation referred to in subsection (1), the undertaker or pipeline licensee who supplies gas to the installation must give the Director a report, in a form approved by the Director, on the accident within 3 days of the accident.

Penalty: \$100 000.
