In accordance with Section 33 of the *Bush Fires Act 1954*, you are required to carry out fire prevention work on land owned or occupied by you as set out in this Notice by the dates specified.

If the requirements of this Notice are not met by the due date or are not completed to the satisfaction of an inspecting officer, an on-the-spot fine of \$250 may be issued. The maximum fine for failure to comply is \$5,000. Council can also enter upon the land and carry out required works at the owner/occupier's expense.

1. SPECIAL REQUIREMENTS AND ALTERNATIVES**SPECIAL REQUIREMENTS**

The requirements of this Notice are considered the minimum standard of fire protection required to protect not only the individual property but the community as a whole. Council can impose additional requirements to remove or abate hazards if considered necessary. Any property subject to a Bush Fire Management Plan, or conditions imposed as a result of development approval, must comply with the approved conditions in addition to the requirements of this Notice.

ALTERNATIVES

If you consider it impracticable or environmentally damaging to carry out the requirements set out in this Notice, you can apply to Council by 1 October for permission to provide alternative firebreaks or other fire prevention measures.

Regulated activities under section 3 can be applied for at any time of the year.

In the absence of written approval for alternative measures, the owner/occupier must adhere to the requirements of this Notice.

Enquiries relating to this Firebreak and Fuel Hazard Reduction Notice or fire prevention in general should be directed to the Shire Ranger Services on (08) 9761 0800.

If choosing to carry out fuel reduction by grazing of stock, the property owner must ensure that sufficient stock is used to ensure that all grass is reduced to a maximum height of 100mm by **15 November and maintained at that height until 10 May.**

A 10 metre wide firebreak shall be constructed along the internal boundaries of the plantation, along the boundaries of separate ownership, and all formed public roads. A firebreak 6 metres wide shall be provided in such a position that no compartment of a plantation exceeds 30 hectares. Where power lines pass through the plantation the clearing of vegetation must be in accordance with power supplier specifications.
