Section 33

*City of Joondalup***FIRE MANAGEMENT NOTICE**

Notice to all owners and/or occupiers of land situated in the City of Joondalup

To assist in the control of bushfires, and/or prevent the spread, or extension of a bushfire which may occur, all owners and/or occupiers of land within the City of Joondalup's district must, before the 31st day of October in each year, or within 14 days of becoming the owner or occupier of land if after that date, remove from the land all inflammable material and/or clear firebreaks in accordance with the following land areas and thereafter to maintain that land and firebreaks up to or including 31 May in the following year.

Terms and Definitions

- **Inflammable Material**—means any dead plant, tree, grass, substance, object, thing or material that may or is likely to catch fire and burn or any other thing deemed by an authorised officer to be capable of combustion.
- **Roof gutters**—all gutters of any dwelling or building are to be cleared of any leaves or other inflammable material.
- **Firebreak**—means an area constructed to a trafficable surface that is kept and maintained totally clear of all inflammable material.
- **Trafficable**—means to be able to travel from one point to another in a four-wheel drive fire appliance on a clear surface, unhindered without any obstruction that may endanger such fire appliances.
- **Cultivation**—means the planting, tending, improving, or harvesting of crops or plants.

Pursuant to the provisions contained in section 33 of the *Bush Fires Act 1954*, the City of Joondalup sets out the following specifications—

All land with an area of 2,000m²/0.2ha or less

- Remove all inflammable material from the whole of the land, except living trees, shrubs and plants under cultivation, and lawns, by means of slashing, mowing or other means (other than burning) to a height no greater than 50mm across the entire property and maintain in this state to 31st May each year.
- Any living trees, shrubs and plants under cultivation that overhang the property boundary, including overhanging footpaths and verges, must be trimmed back to the property boundary line and have a minimum vertical height clearance of 4m above ground level.

All other land with an area of 2,0001m²/0.2ha or more

- A firebreak, not less than 3m wide, must be cleared immediately inside and around all external boundaries of the land.
- All tree branches and shrubs that over-hang a firebreak must be trimmed back to a minimum height of 4m above ground level.
- After mowing or slashing is carried out the Inflammable material is to be removed and the height of the remaining vegetation must not exceed 50mm over the entire area of the firebreak.

Additional Works to Reduce Hazards

Regardless of land size and location, the City of Joondalup may require a property owner to undertake additional works on their property to improve access and/or undertake further works where in the opinion of the City, these works would be conducive to preventing the outbreak and/or spread or extension of a bushfire.

Alternative Firebreaks

If a firebreak is impractical along your boundary for environmental or other reasons, property owners should notify the City in writing by 1 October to obtain permission for firebreaks in alternative positions or of a different nature. The above firebreak requirements will continue to apply to your property until and unless the City approves alternative firebreaks in writing.
