Division 5 — Dutiable value

Subdivision 1 — Dutiable value

27. Dutiable value of dutiable transactions, unless otherwise provided

Unless otherwise provided in this Chapter, the dutiable value of a dutiable transaction is —

- (a) the consideration for the dutiable transaction; or
- (b) the unencumbered value of the dutiable property the subject of the transaction when liability for duty on the transaction arises if —
 - (i) there is no consideration for the transaction; or
 - (ii) the consideration cannot be ascertained when liability for duty on the transaction arises; or
 - (iii) the unencumbered value is greater than the consideration for the transaction.

28. Dutiable value of certain dutiable transactions

- (1) If the value of a dutiable transaction referred to in section 11(1)(d)(ii) or (e) is stated in a court order the value stated in the order is the dutiable value of the transaction.
- (2) Subject to subsection (1), the dutiable value of a dutiable transaction that is the foreclosure of a mortgage over dutiable property is the unencumbered value of the dutiable property and not the value of the debt secured by the mortgaged property.
- (3) The dutiable value of a dutiable transaction that is the surrender of a lease (other than a pastoral lease or diversification lease) is the consideration for the surrender of the lease paid or payable by the lessor.

- (3A) The dutiable value of a dutiable transaction that is the surrender of a pastoral lease or diversification lease in the circumstances referred to in section 18(caa) is the consideration for the surrender of the lease referred to in section 18(caa)(ii).

- (4A) The dutiable value of a dutiable transaction that is the grant of a pastoral lease is the sale price subject to the payment of which the lease is granted under the *Land Administration Act 1997* section 101.
- (4B) The dutiable value of a dutiable transaction that is the grant of a diversification lease is the consideration for the grant of the lease.
- (5) The dutiable value of a dutiable transaction under a discretionary trust that would be a transaction described in section 114(1) or 115 except that —
- (a) consideration is paid or payable for the transaction; and
 - (b) that consideration is consideration referred to in section 30(1),
- is that consideration.
- (6) The dutiable value of a dutiable transaction that is a transfer of, or an agreement for the transfer of, dutiable property from the

trustee of a superannuation fund on which nominal duty would be chargeable under section 127 but for section 127(2)(d), is the amount by which the unencumbered value of the dutiable property transferred exceeds the value of the member's interest in the superannuation fund.

[Section 28 amended: No. 30 of 2008 s. 24; No. 32 of 2012 s. 4; No. 12 of 2019 s. 14; No. 4 of 2023 s. 118.]

29. Dutiable value of certain dutiable transactions relating to corporation or unit trust scheme property on winding up

- (1) A reference in this section to a transfer of corporation or unit trust scheme property is to a transfer, or agreement for the transfer, of property (some or all of which is dutiable property) by —

- (a) the liquidator of the corporation to any of its shareholders in the course of a distribution of its assets as a consequence of the winding up of the corporation; or
- (b) the trustee of a unit trust scheme to any unit holder in the scheme in the course of the winding up of the unit trust scheme.

- (2) The dutiable value of a dutiable transaction that is a transfer of corporation or unit trust scheme property is —

- (a) in relation to a corporation — determined in accordance with the following formula —

$$\text{DV} = A \times \frac{X}{Y}$$

$$\text{DV} = A \times \frac{X}{Y}$$

where —

DV is the dutiable value;

A is the greater of the following amounts —

- (i) the amount (if any) by which the value, when the winding up begins, of all the assets distributed, or to be distributed, to the shareholder exceeds the value, at that time, of the shareholder's entitlement to the net assets of the corporation; or
- (ii) the amount that is the total of —
 - (I) the amount (if any) owing to the shareholder that the shareholder has released the corporation from paying in the relevant period; and
 - (II) the amount (if any) of any liability that the shareholder, or a person related to the shareholder, has assumed or discharged on behalf of the corporation in the relevant period;

X is the unencumbered value of all dutiable property the subject of the transfer;

Y is the unencumbered value of all property the subject of the transfer;

and

- (b) in relation to a unit trust scheme — determined in accordance with the following formula —

$$\cancel{DV = A \times \frac{X}{Y}}$$
$$DV = A \times \frac{X}{Y}$$

where —

DV is the dutiable value;

A is the greater of the following amounts —

- (i) the amount (if any) by which the value, when the winding up begins, of all the assets distributed, or to be distributed, to the unit holder exceeds the

value, at that time, of the unit holder's entitlement to the net assets held by the trustee of the unit trust scheme as trustee of that trust; or

- (ii) the amount that is the total of —
- (I) the amount (if any) owing to the unit holder that the unit holder has released the trustee of the unit trust scheme from paying in the relevant period; and
 - (II) the amount (if any) of any liability that the unit holder, or a person related to the unit holder, has assumed or discharged on behalf of the trustee of the unit trust scheme in the relevant period;

X is the unencumbered value of all dutiable property the subject of the transfer;

Y is the unencumbered value of all property the subject of the transfer.

Note for this subsection:

For example, Company X has 2 equal shareholders A and B. The company has total assets of \$800 000, total liabilities of \$100 000 and net assets of \$700 000. The shareholder entitlement of each of A and B is \$350 000.

There are no liquid assets to satisfy the liability and the liquidator distributes the assets subject to the liability. A receives assets of \$450 000 (\$100 000 in excess of A's entitlement) comprising \$400 000 of dutiable property and \$50 000 non-dutiable property and assumes the whole mortgage. B receives assets comprising dutiable property of \$350 000.

A's duty assessment:

$$\frac{\$100\,000 \text{ (excess entitlement)} \times \$400\,000 \text{ (value of dutiable property)}}{\$450\,000 \text{ (value of all property received)}}$$

Transfer duty is charged on \$88 888.

B's duty assessment:

Nominal duty is charged, as B has received a distribution of assets equal to the shareholder entitlement.

- (3) In subsection (2) —

person related, to a shareholder or unit holder, means that the person and the shareholder or unit holder are related persons within the meaning of section 162(1)(a) to (g);

relevant period means the period beginning on the day that is 12 months before the day on which the winding up begins and ending on the day that the property is transferred.

- (4A) For the purposes of paragraph (a)(ii)(II) or (b)(ii)(II) of the definition of the variable “A” in subsection (2), the Commissioner may exclude part or all of the amount of any liability that a person related to a shareholder or unit holder, as the case requires, has assumed or discharged if the Commissioner is satisfied that it is appropriate to do so having regard to the application of subsection (2) to all other transfers of corporation or unit trust scheme property in respect of the same corporation or unit trust scheme.
- (4) Subject to subsection (2), nominal duty is chargeable on a dutiable transaction that is a transfer of corporation or unit trust scheme property if —
- (a) in relation to a transfer of corporation property — the total value of the transaction to the shareholder, when the winding up begins, is equal to or less than the value of the shareholder’s entitlement to the net assets of the corporation at that time; or
 - (b) in relation to a transfer of unit trust scheme property — the total value of the transaction to the unit holder, when the winding up begins, is equal to or less than the value of the unit holder’s entitlement to the net assets held in the unit trust scheme at that time.
- (5) This section does not apply to a transfer of corporation or unit trust scheme property if the Commissioner is satisfied that the corporation or unit trust scheme is being wound up as a scheme or arrangement, or part of a scheme or arrangement, for which a

dominant purpose of any party was the reduction of the duty otherwise chargeable on the transaction.

- (6) In considering whether or not the Commissioner is satisfied for the purposes of subsection (5), the Commissioner may have regard to any of the following in relation to a corporation —
- (a) the duration of the shareholder's shareholding in the corporation;
 - (b) whether or not the shareholder held shares in a related corporation of the corporation that owned the property before it was owned by the corporation;
 - (c) the period for which the property has been owned by the corporation or a related corporation of the corporation;
 - (d) any dealing in shares of the corporation or a related corporation of the corporation by any one or more of the following —
 - (i) the shareholder;
 - (ii) a previous owner of the property;
 - (e) whether there is any commercial efficacy to a scheme or arrangement of transactions involving any one or more of the following —
 - (i) the corporation;
 - (ii) the shareholder;
 - (iii) a related corporation of the corporation;
 - (iv) a person that has a substantial holding (within the meaning given in the Corporations Act) in a person referred to in subparagraph (i), (ii) or (iii),in relation to the winding up, other than to reduce the duty otherwise chargeable on the transfer;
 - (f) whether the transfer is pursuant to a right, attaching to any of the shares in the corporation, to select or receive any particular property of the corporation;
 - (g) any other matters the Commissioner considers relevant.

- (7) In considering whether or not the Commissioner is satisfied for the purposes of subsection (5), the Commissioner may have regard to any of the following in relation to a unit trust scheme —
- (a) the duration of the unit holder's unit holding in the unit trust scheme;
 - (b) whether or not the unit holder held units in a related unit trust scheme that owned the property before it was owned by the trustee of the unit trust scheme;
 - (c) the period for which the property has been owned by the trustee of the unit trust scheme or a related unit trust scheme of the unit trust scheme;
 - (d) any dealing in units of the unit trust scheme or a related unit trust scheme of the unit trust scheme by any one or more of the following —
 - (i) the unit holder;
 - (ii) a previous owner of the property;
 - (e) whether there is any commercial efficacy to a scheme or arrangement of transactions involving any one or more of the following —
 - (i) the trustee of the unit trust scheme;
 - (ii) the unit holder;
 - (iii) a related unit trust scheme,in relation to the winding up, other than to reduce the duty otherwise chargeable on the transfer;
 - (f) whether the transfer is pursuant to a right, attaching to any of the units in the unit trust scheme, to select or receive any particular property held by the trustee of the unit trust scheme as trustee of that trust;
 - (g) any other matters the Commissioner considers relevant.
- (8) For the purposes of subsection (7), unit trust schemes are related if a unit trust holder in one unit trust scheme holds units that

provides the holder to an entitlement to the capital of another unit trust scheme if it were to be wound up.

[Section 29² amended: No. 29 of 2012 s. 4.]

Subdivision 2 — Consideration

30. Consideration for dutiable transaction

- (1) The consideration for a dutiable transaction includes —
 - (a) the amount of any liabilities assumed under the transaction, including an obligation, whether contingent or otherwise, to pay any unpaid purchase money payable under an agreement for the transfer of dutiable property; and
 - (b) the amount or value of any debt to the extent it is released or extinguished under the transaction.
- (2) If the consideration, or any part of the consideration, for a dutiable transaction on which duty is chargeable consists of an amount payable periodically and the total amount to be paid can be ascertained, the consideration or part of the consideration is the total amount.
- (3) It does not matter whether the consideration for a transaction on which duty is chargeable is paid or given or is required to be paid or given.

31. Changes to consideration before transfer, consequences of

- (1) If after an agreement for the transfer of dutiable property is entered into and before the property is transferred —
 - (a) the consideration under the agreement is reduced and the reduced consideration is not less than the unencumbered value of the dutiable property when the consideration was reduced; or
 - (b) the consideration under the agreement is reduced because the parties have agreed not to transfer some of

the dutiable property previously agreed to be transferred and the reduced consideration is not less than the unencumbered value of the dutiable property that remained to be transferred when the consideration was reduced,

the Commissioner is to assess or, on the application of the taxpayer, reassess the liability to duty of the agreement in accordance with the reduced consideration.

- (2) Subsection (1) does not apply in respect of an agreement to which section 32 applies.
- (3) If after an agreement for the transfer of dutiable property is entered into and before the property is transferred —
 - (a) the consideration under the agreement is reduced and the reduced consideration is less than the unencumbered value of the dutiable property when the consideration was reduced; or
 - (b) the consideration under the agreement is reduced because the parties have agreed not to transfer some of the dutiable property previously agreed to be transferred and the reduced consideration is less than the unencumbered value of the dutiable property that remained to be transferred when the consideration was reduced,

the Commissioner is to assess or, on the application of the taxpayer, reassess the liability to duty of the agreement in accordance with the dutiable value of the agreement being the unencumbered value when the consideration was reduced.

- (4) If after an agreement for the transfer of dutiable property is entered into and before the property is transferred —
 - (a) the consideration under the agreement is increased; and

- (b) the increased consideration is not less than the unencumbered value of the dutiable property when the agreement was entered into,

the Commissioner is to assess or reassess the liability to duty of the agreement in accordance with the increased consideration.

- (5) If after a dutiable transaction is duty endorsed the consideration under the transaction is increased as referred to in subsection (4), the person liable to pay duty must lodge —
 - (a) if the increase in consideration is effected by an instrument in hard copy form — that instrument and if there is more than one such instrument, each of them; or
 - (b) if the increase in consideration is not effected by an instrument in hard copy form — an instrument in hard copy form that evidences the increase in consideration and if there is more than one such instrument each of them, or a transfer duty statement for the transaction that shows the increase in consideration,

within 2 months after the day on which consideration under the transaction is increased.

Penalty: a fine of \$20 000.

- (6) Duty is chargeable on a reassessment under this section in relation to a transaction at the same rate and using the same thresholds that applied when liability for duty on the transaction initially arose.

32. Contingent consideration not paid, consequences of

- (1) If an agreement for the transfer of dutiable property is duty endorsed and any part of the consideration under the agreement was dependent on the happening of a future event (the **contingent consideration**) and —
 - (a) the contingent consideration has not been paid; and

- (b) the event did not happen, or did not happen within the time specified for the happening of the event, in an instrument effecting or evidencing the agreement; and
- (c) either —
 - (i) the event cannot happen in the future; or
 - (ii) the time specified for the happening of the event in an instrument effecting or evidencing the agreement has passed or expired;
- and
- (d) the taxpayer makes an application for a reassessment under this section in the approved form,

the Commissioner is to reassess the liability to duty of the agreement in accordance with the consideration not including the contingent consideration.

- (2) For the purposes of this section, the Taxation Administration Act section 17 applies as if the original assessment had been made when liability to duty on the agreement arose.
- (3) In this section, a reference to the happening of an event includes a reference to an event not happening.

33. Agreement by instalments determined before final payment, consequences of

- (1) In this section —

agreement by instalments means an agreement for the transfer of dutiable property —

 - (a) wholly or partly in consideration of the making of 2 or more payments at intervals specified in an instrument effecting or evidencing the agreement; and
 - (b) which is subject to the right of the purchaser or transferee to determine the agreement at any time before the property is transferred on making such of the

payments as are due and payable at the time of the determination.

- (2) If, after an agreement by instalments has been duty endorsed, the agreement is determined before the final payment had become due and payable under the agreement, the Commissioner, on the application of the taxpayer, is to reassess the liability to duty of the agreement in accordance with the consideration paid, or due and payable, when the agreement is determined.
- (3) For the purposes of this section, the Taxation Administration Act section 17 applies as if the original assessment had been made when the determination was made.

34. Options conferred by dutiable transactions that are exercised or not renewed, consequences of

- (1) If —
 - (a) after a dutiable transaction that —
 - (i) confers on a person the right of an option to acquire dutiable property; and
 - (ii) provides for the renewal of that right on one, or more than one, occasion specified in an instrument effecting or evidencing the transaction,is duty endorsed based on the consideration for the transaction which includes the sum of the amounts paid by way of consideration for the right of the option and the amount or amounts, as the case may be, payable for the renewal or renewals of the option; and
 - (b) the person on whom the right of the option was conferred under the transaction, before the occurrence of the final occasion specified in an instrument effecting or evidencing the transaction —
 - (i) exercised the option; or

- (ii) failed to renew the right of option,

the Commissioner, on the application of the taxpayer, is to reassess the liability to duty of the transaction as if the consideration was an amount equal to the amount paid or payable in respect of any occasion or occasions specified in an instrument effecting or evidencing the transaction that have occurred before the person exercised the option, or failed to renew the right of option.

- (2) For the purposes of this section, the Taxation Administration Act section 17 applies as if the original assessment had been made when the person exercised the option, or failed to renew the right of option.

35. Option to acquire dutiable property, duty paid on to be credited

If —

- (a) a transaction record for the grant or renewal of an option to acquire dutiable property is duty endorsed; and
- (b) the consideration for the grant or renewal will form part of the consideration for the transaction if the option is exercised; and
- (c) the option is exercised,

the amount of duty payable on the transfer of, or the agreement for the transfer of, dutiable property is to be reduced by the amount of duty paid on the grant or renewal of the option to acquire the property.

Note for this section:

For example, consideration is paid for the grant of an option to acquire dutiable property. The transaction provides for the renewal of the right for further consideration.

The transaction also provides that the consideration paid for the grant and renewal of the option forms part of the consideration for the property if the option is exercised.

Duty of \$200 is charged on the total consideration for the grant and renewal of the option (the **first dutiable transaction**).

The option is exercised after the renewal of the option and an agreement for the transfer of dutiable property is entered into for consideration (the **second dutiable transaction**).

The amount of duty payable on the second dutiable transaction is reduced by the amount of duty paid on the first dutiable transaction.

If the duty payable on the second dutiable transaction would be \$2 000, it is reduced by the duty of \$200 paid on the first dutiable transaction. The duty payable on the agreement to transfer the property is therefore \$1 800.

Subdivision 3 — Unencumbered value

36. Determining unencumbered value of property

- (1) The **unencumbered value** of property is the value of the property determined without regard to —
- (a) any encumbrance to which the property is subject, whether contingently or otherwise; or
 - (b) any overriding power of revocation or reconveyance; or
 - (c) any scheme or arrangement —
 - (i) that results in the reduction of the value of the property; and
 - (ii) for which a dominant purpose of any party to the scheme or arrangement was, in the opinion of the Commissioner, the reduction of the value of the property.

Note for this subsection:

Example for paragraph (c) —

A owns land that B wishes to purchase. The land is valued at \$1m. Before the purchase, A grants B a 50 year lease of the land. B is not required to pay any rent under the lease. A and B then enter into an agreement for the transfer of the land for \$50 000, being the value of A's interest in the land taking into account that it is subject to the lease to B.

The unencumbered value of the land is determined without regard to the grant of the lease if the Commissioner is of the opinion there is a scheme or arrangement under which A or B's purpose in entering into it was to reduce the value of the land.

- (2) Subsection (1)(c) does not apply to or in respect of a scheme or arrangement that was entered into before 27 December 1996.
- (3) For the purposes of subsection (1)(c), the Commissioner may have regard to —
 - (a) the duration of the scheme or arrangement before the dutiable transaction or the relevant transaction concerning the property; and
 - (b) whether the scheme or arrangement has been entered into with a related person within the meaning given in section 162; and
 - (c) whether there is any commercial efficacy to the making of the scheme or arrangement other than to reduce duty; and
 - (d) any other matters the Commissioner considers relevant.
- (4) When determining the unencumbered value of property —
 - (aa) the ordinary principles of valuation apply, except to the extent that those principles are modified due to the operation of another paragraph of this subsection; and
 - (a) the unencumbered value of an undivided share in the property, whether held jointly or in common, is to be ascertained by multiplying the total unencumbered value of the property by the share expressed as a fraction; and
 - (b) it is to be assumed that a hypothetical purchaser would, when negotiating the price of property, have knowledge of all existing information relating to the property; and
 - (ca) information relating to the property (including the right to and use of the information) —
 - (i) will be regarded as an attribute of the property; and

- (ii) will not be regarded as something to which an independent value can be ascribed.
- (5) When determining the unencumbered value of property that is land —
- (a) if the land is the subject of an agreement for transfer, any improvement made to the land at the expense of the purchaser or transferee before the date liability to duty arises on the agreement is to be taken not to have been made to the land; and
 - (b) if the land is the subject of a transfer, any improvement made to the land at the expense of the transferee before the land is transferred is to be taken not to have been made to the land; and
 - (c) the value is to be determined having regard to the use of the land that would best enhance its commercial value; and
 - (d) the value is to be determined having regard to commercial advantages (such as goodwill) that —
 - (i) attach to the location or other aspects of the land; and
 - (ii) would affect the price that a reasonable purchaser would be willing to pay for the land;and
 - (e) if section 36A applies, the value is to be determined having regard to that section.

[Section 36 amended: No. 1 of 2015 s. 24; No. 12 of 2019 s. 15.]

36A. Determining unencumbered value: fixtures and mining tenement fixtures

- (1) In this section —
mining tenement fixture, in relation to a mining tenement, means a thing that —
- (a) under the authority (whether direct or indirect) of the mining tenement, is fixed to land that is the subject of the mining tenement; and
 - (b) would be part of that land as a fixture if the mining tenement were a freehold estate in the land.
- (2) In determining the unencumbered value of dutiable property that is land, anything that is part of the land as a fixture is to be taken into account even if the dutiable transaction does not, or purports not to, apply to the fixture as well as the land.
- (3) Subsection (2) does not apply if the value of the fixture would, apart from that subsection, be taken into account separately in determining the dutiable value of the dutiable transaction relating to the land or another dutiable transaction that is aggregated with that dutiable transaction under section 37.
- (4) In determining the unencumbered value of dutiable property that is a mining tenement or an estate or interest in a mining tenement, anything that is a mining tenement fixture in relation to the mining tenement is to be taken into account even if the dutiable transaction does not, or purports not to, apply to the mining tenement fixture as well as the mining tenement or the estate or interest in the mining tenement.
- (5) Subsection (4) does not apply if the value of the mining tenement fixture would, apart from that subsection, be taken into account separately in determining the dutiable value of the dutiable transaction relating to the mining tenement or the estate or interest in the mining tenement or another dutiable transaction that is aggregated with that dutiable transaction under section 37.

- (6) In this section, a reference to land does not include anything that is land under section 3A(1)(b), (c), (f) or (g).

[Section 36A inserted: No. 12 of 2019 s. 16.]

Subdivision 4 — Miscellaneous

37. Aggregation of dutiable transactions

- (1) Dutiable transactions relating to separate items of dutiable property that together form, evidence, give effect to or arise from what is, substantially one arrangement are to be aggregated and treated as a single dutiable transaction.
- (2) Without limiting subsection (1), unless the Commissioner is satisfied to the contrary, dutiable transactions relating to separate items of dutiable property together form, evidence, give effect to or arise from what is, substantially one arrangement if —
 - (a) the transactions have taken place within 12 months; and
 - (b) in respect of each of the transactions, the person liable to pay duty is the same person (whether that person is the only person liable to pay duty or is liable to pay duty with the same or different persons).
- (3) Dutiable transactions relating to separate items of dutiable property are not to be aggregated under this section unless the transactions to be aggregated —
 - (a) are all chargeable at the same rate of duty; or
 - (b) are all chargeable with nominal duty; or
 - (c) are all exempt transactions.
- (4) If dutiable transactions are aggregated, then they are to be treated as a single dutiable transaction that took place at the time that the last of the aggregated transactions took place.

- (5) This section does not apply to a dutiable transaction to the extent that it relates to the grant of an option to acquire dutiable property, other than as required under section 34.
- (6) Duty chargeable on the dutiable transaction aggregated under this section is to be —
 - (a) assessed on the total of the dutiable values for each of the transactions (calculated as if each transaction was a dutiable transaction) at the time when liability for duty on each transaction arose; and
 - (b) apportioned between the transactions as decided by the Commissioner.
- (7) The amount of duty payable in accordance with this section is to be reduced by the amount of any duty paid on a previous dutiable transaction that is, or previous dutiable transactions that are, aggregated under this section.
- (8) Transactions aggregated and treated as a single dutiable transaction under this section may include a transaction that would not otherwise be a dutiable transaction, and where such a transaction is included, that transaction is taken to be a dutiable transaction and is liable to duty accordingly.

38. Transactions as to dutiable and not dutiable property, duty on

If a dutiable transaction relates to dutiable property and property that is not dutiable property, duty is chargeable only to the extent that the transaction relates to dutiable property.

39. Partitions of property, dutiable values in case of

- (1) For the purposes of this section, a partition occurs when property (some or all of which is dutiable property) that is held by persons jointly (as joint tenants or tenants in common) and beneficially is transferred or agreed to be transferred to one or more of those persons.

- (2) The dutiable value of a partition is to be determined in accordance with the following formula —

$$\cancel{DV = A \times \frac{X}{Y}}$$

$$DV = A \times \frac{X}{Y}$$

where —

DV is the dutiable value;

A is the greater of the following amounts —

- (i) the sum of the amounts by which the unencumbered value of the property transferred or agreed to be transferred to a person exceeds the unencumbered value of the interest held by the person in all of the property immediately before the partition; or
- (ii) the sum of any consideration for the partition paid by any of the parties;

X is the unencumbered value of all dutiable property the subject of the partition;

Y is the unencumbered value of all property the subject of the partition.

- (3) The minimum amount of duty payable on a transaction that effects a partition is the amount of nominal duty.

Note for this section:

For example, A and B own lot 1 which has an unencumbered value of \$400 000 and a boat that has an unencumbered value of \$300 000.

The total value of the property being partitioned is \$700 000 and A and B are each entitled to \$350 000.

A is taking lot 1 by way of partition and the value of that lot exceeds A's entitlement by \$50 000.

A's duty assessment:

$$\frac{\$50\,000 \text{ (excess entitlement)} \times \$400\,000 \text{ (value of dutiable property)}}{\$700\,000 \text{ (value of all property)}}$$

The dutiable value for the transfer of land to A is \$28 571.

- (4) This section does not apply to a transaction if section 78 or 78A applies to the transaction or if the transaction is a subsequent transfer referred to in section 120A.

[Section 39 amended: No. 12 of 2019 s. 17.]

40. Exchanges of dutiable property, duty on

Duty is chargeable on any dutiable transactions effecting an exchange of dutiable property for any other dutiable property as if the exchange involved —

- (a) the transfer of the first-mentioned property for consideration equal to the unencumbered value of that property; and
- (b) the transfer of the second-mentioned property for consideration equal to the unencumbered value of that property.

Division 6 — No double duty

41. No double duty — general

- (1) If a transaction for property constitutes more than one dutiable transaction for the property and the charging of duty on all of the dutiable transactions for the property would result in duty being imposed more than once on the transaction, the Commissioner is to decide the dutiable transaction on which duty is imposed and duty is not chargeable on the other dutiable transaction, or dutiable transactions.
- (2) For the purposes of subsection (1), the Commissioner is to decide the dutiable transaction for the property that is the most applicable dutiable transaction having regard to this Chapter and the sole or dominant purpose of the transaction.

42. No double duty — particular dutiable transactions

- (1) Duty is not chargeable on the transfer of dutiable property to a transferee in conformity with an agreement for the transfer of dutiable property if that agreement is duty endorsed.
- (2) Duty is not chargeable on the transfer of dutiable property to a transferee under an agreement for the transfer of dutiable property if —
 - (a) when liability for duty on the agreement arises, the transferee and the purchaser of the property under the agreement are related as referred to in section 43; and
 - (b) the agreement is duty endorsed on the basis that duty has been paid or is payable at the general or a concessional rate (that is, under Schedule 2 Division 1 or 2); and
 - (c) duty would, but for this section, be chargeable on the transfer of the property at the rate at which duty was chargeable on the agreement.
- (3) If an agreement for the transfer of dutiable property is duty endorsed and either, or both, of the following applies —
 - (a) there is a difference in the parties liable to duty under the agreement and the transferees under the transfer, and subsection (2)(a) does not apply;
 - (b) there is a difference between the division of the property between the transferees under the transfer and the division of the property between the parties liable to duty under the agreement, and subsection (2)(a) does not apply,

duty is not chargeable on the transfer of the property except to the extent of the change between the agreement and the transfer.

Note for this subsection:

Example for subsection (3) —

On 1 July, under an agreement for the transfer of dutiable property, A agrees to sell land in Western Australia to B and C as tenants in common in the undivided shares of 90/100 to B and 10/100 to C for \$100 000.

At settlement, under the transfer, B and a new party, D are tenants in common in equal shares.

Transfer duty is chargeable on the transfer of the property only to the extent of the change in the interests in the property between the agreement and the transfer.

Transfer duty would be chargeable on the transfer of the property on $50/100 \times \$100\,000$, which is \$50 000 i.e. 10/100 from C to D and 40/100 from B to D.

- (4A) If, but for this subsection, subsections (1) and (3) would both apply to the transfer of dutiable property, subsection (1) does not apply.
- (4B) If an agreement is for the transfer of dutiable property to a purchaser acting in the purchaser's own capacity, but the property is transferred to the purchaser acting in a capacity as a trustee of a trust, subsection (1) does not apply to the transfer of the property unless —
- (a) the purchaser is an individual and the trust is a unit trust scheme in which the purchaser is the sole unit holder; or
 - (b) the trust is a unit trust scheme in which the purchaser is a unit holder and each of the other unit holders are related, as referred to in section 43(1)(a), (b), (c), (ca), (cb), (d) or (e), to the purchaser; or
 - (c) the trust is not a discretionary trust or a unit trust scheme and each beneficiary of the trust is related, as referred to in section 43(1)(a), (b), (c), (ca), (cb), (d) or (e), to the purchaser.
- (4C) A reference in subsection (4B) to a unit holder or to a beneficiary is limited to a reference to a unit holder or beneficiary acting in their own capacity and not as agent, trustee or otherwise on behalf of any other person.
- (4) If an agreement for the transfer of dutiable property is duty endorsed, duty is not chargeable on the subsequent transfer of the property if, when liability for duty on the agreement arose, the person named in the instrument effecting, or evidencing, the

agreement as the purchaser was acting as the agent of the transferee of the subsequent transfer.

- (5) If —
- (a) an agreement for the transfer of dutiable property is duty endorsed; and
 - (b) the person named in the agreement as the purchaser entered into the agreement with the intention that the property would be transferred to —
 - (i) a corporation that the person intended to be incorporated; or
 - (ii) a dormant corporation, the shares in which the person intended to be acquired,and that property will not be held by the corporation as trustee of a trust; and
 - (c) when liability for duty on the agreement arose, action was being taken to —
 - (i) incorporate the corporation referred to in paragraph (b)(i); or
 - (ii) acquire the shares in the corporation referred to in paragraph (b)(ii),

duty is not chargeable on the subsequent transfer of the property to the corporation referred to in paragraph (b)(i) or (ii).

- (6) In subsection (5) —
- dormant corporation** means a corporation that, since it was incorporated —
- (a) has not had any assets or liabilities other than share capital for subscriber shares or shares issued to replace subscriber shares of the same value on their redemption; and
 - (b) has not been party to an agreement or a beneficiary or trustee of a trust; and

- (c) has not issued or sold any shares or rights relating to shares other than subscriber shares, rights relating to subscriber shares or shares issued to replace subscriber shares of the same value on their redemption.
- (7) Duty is not chargeable on a transfer of dutiable property by the vendor under an agreement for the transfer of the property that results in the property becoming scheme property for a managed investment scheme if —
 - (a) the Commissioner is satisfied that a managed investment scheme has been, or is to be, established by means of an offer to subscribe to the scheme made to the public; and
 - (b) the Commissioner is satisfied that before the establishment of the scheme —
 - (i) the person named as purchaser in an agreement for the transfer of dutiable property entered into that agreement; or
 - (ii) the person promoting the scheme arranged for that agreement to be entered into by the person named in the agreement,with the intention that the property concerned would become scheme property; and
 - (c) the agreement provides to the effect that, if the scheme is not established, the agreement is terminated; and
 - (d) the agreement is duly endorsed.
- (8) If —
 - (a) there is an agreement for the transfer of dutiable property (the **first agreement**); and
 - (b) after the first agreement takes place, one or more dutiable transactions over all or part of the dutiable property the subject of the first agreement takes place (the **intervening transactions**); and

- (c) to give effect to the first agreement and the intervening transactions, one or more transfers of dutiable property (the **transfers**) are effected by one or more parties to the first agreement and the intervening transactions; and
- (d) the first agreement and the intervening transactions are duty endorsed,

duty is not chargeable on the transfers.

Note for this subsection:

Example for subsection (8) —

On 1 July, under an agreement for the transfer of dutiable property, A agrees to sell land in Western Australia to B for \$100 000. Settlement is to take place on 31 July. On 7 July, under an agreement for transfer, B agrees to sell the land to C for \$120 000. Again, settlement is to take place on 31 July. Before 31 July, B directs A, that at settlement, A transfer the land to C.

The agreement between A and B is the first agreement. The agreement between B and C is the intervening transaction. Transfer duty is not chargeable on the transfer from A to C if the first agreement and intervening transactions are duty endorsed.

- (9) Duty is not chargeable on a transfer to a trustee of dutiable property subject to a declaration of trust in respect of the same dutiable property if the declaration of trust is duty endorsed, or under subsection (11) duty is not chargeable on the declaration of trust.
- (10) Duty is not chargeable on a declaration of trust that declares the same trusts as those upon and subject to which the same dutiable property was transferred, or agreed to be transferred, to the person declaring the trust if the transfer, or agreement, is duty endorsed.
- (11) Duty is not chargeable on a declaration of trust if —
 - (a) the declaration of trust supersedes another declaration of trust which is duty endorsed and declares the same trusts as were declared under the superseded declaration of trust; and

- (b) the beneficiary under the declaration of trust is the same as under the superseded declaration of trust; and
- (c) the dutiable property subject to the declaration of trust —
 - (i) is wholly or substantially the same as the property that was the subject of the superseded declaration of trust at the time of the declaration of the superseded declaration of trust; or
 - (ii) represents the proceeds of re-investment of property that was the subject of the superseded declaration of trust at the time of the declaration of the superseded declaration of trust; or
 - (iii) is property to which both subparagraphs (i) and (ii) apply.
- (12) Duty is not chargeable on a transfer of dutiable property resulting from a dutiable transaction referred to in section 11(1)(d) if the vesting of the dutiable property is duty endorsed.
- (13) Duty is not chargeable on a transfer of dutiable property in accordance with a foreclosure order if the foreclosure order is duty endorsed.
- (14) Duty is not chargeable on a transfer of dutiable property in accordance with a partnership acquisition if the partnership acquisition is duty endorsed.
- [(15) *deleted*]
- (16) Duty is not chargeable in respect of a dutiable transaction prescribed, on such condition and under such circumstances as are prescribed, if the dutiable transaction is one of 2 dutiable transactions that relate to the same transaction for the same dutiable property.

 - (b) B has a right to require C, or a person referred to in paragraph (a), to purchase the option property from B,

the assignment of the call option is taken to be an agreement for the transfer of the option property to C and is liable to duty accordingly.

- (a) as set out in paragraphs (b) to (d), the agreement relates to either or both of the following —
 - (i) the mining tenement, or 1 or more of the mining tenements, referred to in section 91L(1)(a)(i) (each such mining tenement to which the agreement relates being a ***relevant mining tenement***);
 - (ii) the derivative mining right, or 1 or more of the derivative mining rights, referred to in section 91L(1)(a)(ii) (each such derivative mining right to which the agreement relates being a ***relevant derivative mining right***);
 - and
 - (b) the farmee is to fulfil, or has the option of fulfilling, an exploration requirement; and
 - (c) if paragraph (a)(i) applies — after the farmee fulfils the exploration requirement, the farmor is to do, or the farmee has the option of requiring the farmor to do, either or both of the following —
 - (i) transfer to the farmee an interest in each relevant mining tenement;
 - (ii) grant the farmee a derivative mining right in relation to each relevant mining tenement;
 - and
 - (d) if paragraph (a)(ii) applies — after the farmee fulfils the exploration requirement, the farmor is to arrange, or the

farmee has the option of requiring the farmor to arrange, for the farmee to acquire an interest in each relevant derivative mining right.

- (2) Despite subsection (1), an agreement is not a ***farm-in transaction*** if —
- (a) otherwise than under a purchase agreement, the farmee is to acquire, or has the option of acquiring, a beneficial interest without fulfilling the exploration requirement; and
 - (b) the beneficial interest corresponds (wholly or partly) to a legal interest that the farmee is to acquire, or has the option of acquiring, after fulfilling the exploration requirement as contemplated in subsection (1)(c)(i) or (ii) or (d).
- (3) The requirement of subsection (1)(c)(i) is met only if —
- (a) the agreement specifies —
 - (i) the interest or interests to be transferred; or
 - (ii) the way in which the interest or interests are to be determined;and
 - (b) in relation to each relevant mining tenement, the interest to be transferred is, or will be, such that, were the transfer to be made, the farmor and farmee would both be, or would still both be, holders of the relevant mining tenement.
- (4) The requirement of subsection (1)(c)(ii) is met only if —
- (a) the agreement specifies —
 - (i) the mining to be authorised by each derivative mining right; or
 - (ii) the way in which that mining is to be determined;and

- (b) in relation to each relevant mining tenement, were the derivative mining right to be granted, the grant would not result in the farmee having, at any time, substantially the same authority to carry out mining that the farmor has, at that time, under the relevant mining tenement.
- (5) The requirement of subsection (1)(d) is met only if —
 - (a) the agreement specifies —
 - (i) the interest or interests to be acquired; or
 - (ii) the way in which the interest or interests are to be determined;
 - and
 - (b) in relation to each relevant derivative mining right, the interest to be acquired is, or will be, such that, were it to be acquired, the farmor and farmee would both be, or would still both be, holders of the relevant derivative mining right.
- (6) A **replacement mining tenement**, for a relevant mining tenement, is a mining tenement —
 - (a) that is granted, after the making of the farm-in transaction concerned, to replace (wholly or partly) —
 - (i) the relevant mining tenement; or
 - (ii) an earlier replacement mining tenement for the relevant mining tenement; or
 - (iii) a mining tenement referred to in subparagraph (i) or (ii), together with 1 or more other mining tenements each of which is also a relevant mining tenement for the farm-in transaction or a replacement mining tenement for such a relevant mining tenement;
 - and

- (b) that relates only to the land, or to a part of the land, the subject of —
 - (i) the mining tenement that is replaced; or
 - (ii) the mining tenements that are replaced (taken together as if they were a single mining tenement);and
 - (c) of which the farmor is the holder or 1 of the holders.
- (7) A **replacement derivative mining right**, for a relevant derivative mining right, is a derivative mining right —
- (a) that is granted, after the making of the farm-in transaction concerned, to replace (wholly or partly) —
 - (i) the relevant derivative mining right; or
 - (ii) an earlier replacement derivative mining right for the relevant derivative mining right; or
 - (iii) a derivative mining right referred to in subparagraph (i) or (ii), together with 1 or more other derivative mining rights each of which is also a relevant derivative mining right for the farm-in transaction or a replacement derivative mining right for such a relevant derivative mining right;and
 - (b) that relates only to the land, or to a part of the land, the subject of —
 - (i) the derivative mining right that is replaced; or
 - (ii) the derivative mining rights that are replaced (taken together as if they were a single derivative mining right);and

- (c) subject to subsection (8), that does not authorise any mining beyond the mining authorised by —
 - (i) the derivative mining right that is replaced; or
 - (ii) the derivative mining rights that are replaced;and
 - (d) of which the farmor is the holder or 1 of the holders.
- (8) The requirement of subsection (7)(c) does not have to be met if —
 - (a) the derivative mining right is granted in relation to a mining tenement (the ***new mining tenement***) that was granted to replace (wholly or partly) another mining tenement (the ***previous mining tenement***); and
 - (b) the new mining tenement authorises mining beyond the mining authorised by the previous mining tenement; and
 - (c) the derivative mining right only authorises mining for minerals for which mining is authorised by —
 - (i) the derivative mining right that is replaced; or
 - (ii) the derivative mining rights that are replaced.
- (9) A ***purchase agreement***, in relation to a farm-in transaction, is an agreement made between the farmor and farmee to the effect that —
 - (a) the farmee is to provide consideration, or has the option of providing consideration, to the farmor; and
 - (b) the providing of the consideration by the farmee would be in lieu of the farmee fulfilling a part (but not the whole) of the exploration requirement; and
 - (c) were the farmee to provide the consideration — the farm-in transaction would be varied —
 - (i) so as to reduce the exploration requirement by excluding the part referred to in paragraph (b); and

- (ii) so that, accordingly, the reduced exploration requirement would become the exploration requirement for the farm-in transaction.

[Section 91M inserted: No. 37 of 2022 s. 8.]

91N. Exploration requirement and exploration amount

- (1) For the purposes of section 91M(1), an **exploration requirement** is a requirement to do either or both of the following after the farm-in transaction is made —
 - (a) expend, on exploration carried out by the farmee after the farm-in transaction is made, an amount that is specified in, or determined in accordance with, the farm-in transaction;
 - (b) carry out exploration as specified in, or determined in accordance with, the farm-in transaction.
- (2) In subsection (1)(a) and (b), references to exploration are to —
 - (a) subject to paragraph (b) and subsection (4), exploration that consists, and only consists, of the following —
 - (i) if only section 91M(1)(a)(i) applies — exploration of each relevant mining tenement;
 - (ii) if only section 91M(1)(a)(ii) applies — exploration of each relevant derivative mining right;
 - (iii) if both section 91M(1)(a)(i) and (ii) apply — exploration of each relevant mining tenement and each relevant derivative mining right;
 - and
 - (b) in relation to exploration of a relevant derivative mining right, exploration that consists only of either or both of the following —
 - (i) mining that is authorised by the relevant derivative mining right;

- (ii) activities that are solely incidental to mining that is so authorised.
- (3) Subsection (4) —
 - (a) applies to any relevant mining tenement that has not been granted when the farm-in transaction is made; but
 - (b) cannot be relied upon in a way that would mean, in effect, that —
 - (i) no amount is required to be expended as referred to in subsection (1)(a); and
 - (ii) no exploration is required to be carried out as referred to in subsection (1)(b).
- (4) Despite subsection (2)(a)(i) and (iii), the exploration on which an amount is required to be expended as referred to in subsection (1)(a), or that is required to be carried out as referred to in subsection (1)(b), need not include any exploration of the relevant mining tenement.
- (5) In relation to a concessional farm-in transaction, the **exploration amount** is, as the case requires —
 - (a) the amount required to be expended as referred to in subsection (1)(a); or
 - (b) the amount expended by the farmee after the concessional farm-in transaction is made on the exploration required to be carried out as referred to in subsection (1)(b); or
 - (c) the amount required to be expended as referred to in subsection (1)(a) and any additional amount expended by the farmee after the concessional farm-in transaction is made on the exploration required to be carried out as referred to in subsection (1)(b).
- (6) The Commissioner may, in relation to an agreement, allow expenditure on administrative costs that would not otherwise be regarded as expenditure on exploration for the purposes of this

section to be so regarded, subject to any limits or other conditions imposed by the Commissioner.

Subdivision 3 — Treatment of farm-in agreements and farm-in transactions for duty purposes

[Heading inserted: No. 37 of 2022 s. 8.]

91O. Consideration

- (1) For the purposes of this Act, the exploration amount for a concessional farm-in transaction is taken not to be consideration for the concessional farm-in transaction.
- (2) Section 11(2) does not prevent a concessional farm-in transaction from being a dutiable transaction.
- (3) Subsections (4) to (6) apply if —
 - (a) a farm-in agreement is made; and
 - (b) there is, or will be, consideration (the **relevant consideration**) that is, or will be, consideration for the farm-in agreement (as opposed to being, for example, consideration for a concessional farm-in transaction, or for another type of transaction, contained in the farm-in agreement).
- (4) The farm-in agreement is taken to contain, in addition to the 1 or more transactions that it actually contains, a dutiable transaction that is the acquisition by the farmee of a derivative mining right.
- (5) The derivative mining right is taken to be acquired by the farmee on the making of the farm-in agreement.
- (6) The dutiable value of the dutiable transaction is taken to be the relevant consideration.

[Section 91O inserted: No. 37 of 2022 s. 8.]

91P. General rules relating to charging of duty

- (1) Nominal duty is chargeable on a concessional farm-in transaction if there is not, and will not be, any consideration for the concessional farm-in transaction.
- (2) Subsection (3) applies if —
 - (a) a farm-in agreement contains 2 or more concessional farm-in transactions; and
 - (b) apart from subsection (3), nominal duty would be chargeable on all of the concessional farm-in transactions contained in the farm-in agreement.
- (3) Nominal duty is chargeable on all of the concessional farm-in transactions taken together as if they were a single dutiable transaction.
- (4) The dutiable value of a dutiable transaction that is a concessional farm-in transaction is the consideration for the concessional farm-in transaction.
- (5) Duty is not chargeable on a concessional farm-in transaction if —
 - (a) apart from this subsection, the concessional farm-in transaction would be chargeable with nominal duty; and
 - (b) the farm-in agreement that contains the concessional farm-in transaction also contains 1 or more other concessional farm-in transactions on which duty is chargeable at the general rate of duty.
- (6) If a farm-in agreement contains 2 or more concessional farm-in transactions on which duty is chargeable at the general rate of duty, the amount of duty chargeable on each of those concessional farm-in transactions must be determined as follows —
 - (a) first, aggregate the dutiable values of the concessional farm-in transactions;

- (b) second, apply the general rate of duty to the aggregate dutiable value;
 - (c) third, apportion the resulting amount of duty between the concessional farm-in transactions in the way determined by the Commissioner.
- (7) If a farm-in agreement contains 2 or more concessional farm-in transactions and the Commissioner is, at any time, reassessing the duty chargeable on any of the concessional farm-in transactions, the Commissioner must also reassess the duty chargeable on any of the other concessional farm-in transactions as necessary for the purpose of applying subsection (3), (5) or (6).
- (8) The limitations as to time in the Taxation Administration Act section 17 do not apply in respect of a reassessment under subsection (7).

[Section 91P inserted: No. 37 of 2022 s. 8.]

91Q. Changes to consideration

- (1) Subsection (3) applies to a concessional farm-in transaction if, before the concessional farm-in transaction is completed, the consideration for the concessional farm-in transaction is increased or reduced.

Example for this subsection:

There is a purchase agreement in relation to a concessional farm-in transaction and the farmee provides the consideration referred to in section 91M(9)(a).

- (2) For the purposes of subsection (1), a concessional farm-in transaction is **completed** when either of the following applies after the farmee has fulfilled the exploration requirement —
 - (a) as contemplated in section 91M(1)(c) or (d), the farmee —
 - (i) acquires an interest in a relevant mining tenement; or

- (ii) is granted a derivative mining right in relation to a relevant mining tenement; or
 - (iii) acquires an interest in a relevant derivative mining right;
- (b) paragraph (a) cannot apply because all of the farmee's options, as contemplated in section 91M(1)(c) and (d), have terminated without being exercised.
- (3) The Commissioner must assess or reassess the duty chargeable on the concessional farm-in transaction on the basis of the increased or reduced consideration.
- (4) However, if it is reduced consideration, the Commissioner does not have to reassess the duty unless the taxpayer makes an application for the reassessment.
- (5) If there is increased consideration after the concessional farm-in transaction is duty endorsed, section 31(5) applies with any necessary modifications.
- (6) Duty is chargeable on a reassessment under subsection (3) in relation to a concessional farm-in transaction at the same rate and using the same thresholds that applied when liability for duty on the concessional farm-in transaction initially arose.
- (7) Subsection (3) does not apply in a case where a taxpayer may apply for a reassessment because of subsection (8).
- (8) If any part of the consideration for a concessional farm-in transaction is dependent on the happening of a future event, or on a future event not happening, section 32(1) and (3) apply, with any necessary modifications, as if references to an agreement for the transfer of dutiable property were to the concessional farm-in transaction.

- (9) For the purposes of subsection (8), the Taxation Administration Act section 17 applies as if —
- (a) despite subsection (1) of that section, a person is not entitled to apply for a reassessment after the later of the following —
 - (i) 5 years after the day on which the concessional farm-in transaction was made;
 - (ii) 12 months after the day on which the requirements of section 32(1)(b) and (c) (as applied under subsection (8)) were fulfilled;
 - and
 - (b) despite subsection (4) of that section, the Commissioner may only make a reassessment on an application if the application was made within that time.

[Section 91Q inserted: No. 37 of 2022 s. 8.]

91R. No double duty

- (1) In this section —
- consideration**, in relation to a dutiable transaction, does not include the exploration amount for the concessional farm-in transaction concerned.
- (2) Duty is not chargeable on a dutiable transaction if —
- (a) the dutiable transaction —
 - (i) is under a concessional farm-in transaction as contemplated in section 91M(1)(c) or (d); and
 - (ii) without limiting subparagraph (i), occurs after the farmee has fulfilled the exploration requirement;
 - and
 - (b) the concessional farm-in transaction is duty endorsed.

- (3) Duty is not chargeable on a dutiable transaction (the ***replacement dutiable transaction***) if —
- (a) the replacement dutiable transaction —
 - (i) is in lieu of a dutiable transaction that, had it occurred, would have been under a concessional farm-in transaction as contemplated in section 91M(1)(c) or (d); and
 - (ii) would be a dutiable transaction under the concessional farm-in transaction as contemplated in section 91M(1)(c) or (d) except only that the replacement dutiable transaction involves a replacement mining tenement for a relevant mining tenement, or a replacement derivative mining right for a relevant derivative mining right, that was not anticipated in the concessional farm-in transaction; and
 - (iii) without limiting subparagraphs (i) and (ii), occurs after the farmee has fulfilled the exploration requirement for the concessional farm-in transaction;
 - and
 - (b) the concessional farm-in transaction is duty endorsed.
- (4) Duty is chargeable on a dutiable transaction to which subsection (2) or (3) would otherwise apply if there is, or will be, consideration for the dutiable transaction.
- (5) For the purposes of subsection (4), the dutiable value of the dutiable transaction is the consideration for the dutiable transaction to the extent that the consideration was not taken into account when the concessional farm-in transaction was duty endorsed.

- (6) In subsection (3)(a)(i), the reference to a dutiable transaction includes a transaction that would be a dutiable transaction but for the application of section 91DA to the transaction.

Subdivision 4 — Variations and other events affecting farm-in agreements and farm-in transactions

[Heading inserted: No. 37 of 2022 s. 8.]

91S. Farm-in transaction added to farm-in agreement

- (1) This section applies if a farm-in transaction (the ***additional farm-in transaction***) is added to a farm-in agreement after the farm-in agreement is made.
- (2) The additional farm-in transaction is a concessional farm-in transaction only —
- (a) if the additional farm-in transaction —
 - (i) is a concessional farm-in transaction under subsection (3) or (4); and
 - (ii) if both section 91M(1)(a)(i) and (ii) apply — is a concessional farm-in transaction under both subsections (3) and (4);
 - or
 - (b) in any circumstances prescribed for the purposes of this paragraph.
- (3) The additional farm-in transaction is a concessional farm-in transaction if —
- (a) section 91M(1)(a)(i) and (c)(i) apply; and
 - (b) each relevant mining tenement for the additional farm-in transaction is also either of the following —
 - (i) a relevant mining tenement for a concessional farm-in transaction that was contained in the

- farm-in agreement when the farm-in agreement was made;
 - (ii) a replacement mining tenement for a relevant mining tenement referred to in subparagraph (i);
 - and
 - (c) when the additional farm-in transaction is added to the farm-in agreement, the farmee is not the holder, or 1 of the holders, of any relevant mining tenement for the additional farm-in transaction.
- (4) The additional farm-in transaction is a concessional farm-in transaction if —
 - (a) section 91M(1)(a)(ii) applies; and
 - (b) each relevant derivative mining right for the additional farm-in transaction is also either of the following —
 - (i) a relevant derivative mining right for a concessional farm-in transaction that was contained in the farm-in agreement when the farm-in agreement was made;
 - (ii) a replacement derivative mining right for a relevant derivative mining right referred to in subparagraph (i);
 - and
 - (c) the Commissioner is satisfied that, when the additional farm-in transaction is added to the farm-in agreement, the farmee is not the holder, or 1 of the holders, of any relevant derivative mining right for the additional farm-in transaction.
- (5) If the additional farm-in transaction is a concessional farm-in transaction, the Commissioner may, for the purpose of applying section 91P(3), (5) or (6), reassess the duty chargeable on any other concessional farm-in transaction contained in the farm-in agreement —
 - (a) on the Commissioner's own initiative; or

- (b) on the application of the taxpayer.
- (6) For the purposes of a reassessment under subsection (5) of the duty chargeable on a concessional farm-in transaction, the concessional farm-in transaction is to be taken to have been made when the additional farm-in transaction is added to the farm-in agreement.
- (7) For the purposes of a reassessment under subsection (5), the Taxation Administration Act section 17 applies as if —
 - (a) in subsection (1) of that section, the reference to 5 years after the original assessment was made were to the later of the following —
 - (i) 5 years after the day on which the original assessment was made;
 - (ii) 12 months after the day on which the additional farm-in transaction is added to the farm-in agreement;
 - and
 - (b) in subsection (4) of that section, references to 5 years after the date of the original assessment were to the later of the following —
 - (i) 5 years after the day on which the original assessment was made;
 - (ii) 12 months after the day on which the additional farm-in transaction is added to the farm-in agreement.

[Section 91S inserted: No. 37 of 2022 s. 8.]

91T. Variation to farm-in transaction

- (1) If an agreement that is a concessional farm-in transaction ceases to meet the requirements for a farm-in transaction set out in section 91M(1) to (5), the agreement ceases to be a concessional farm-in transaction accordingly.

- (2) Subsection (4) applies if an agreement that is a concessional farm-in transaction is varied so as to add a relevant mining tenement or relevant derivative mining right, except that subsection (4) does not apply in any of the following circumstances —
- (a) subsection (1) applies as a result of the variation;
 - (b) all of the following apply —
 - (i) the relevant mining tenement is a prospecting licence or exploration licence or the relevant derivative mining right relates to a prospecting licence or exploration licence;
 - (ii) the relevant mining tenement or relevant derivative mining right was granted after the concessional farm-in transaction was made;
 - (iii) the variation occurs within 3 months after the day on which the relevant mining tenement or relevant derivative mining right was granted or within a longer period allowed by the Commissioner;
 - (c) any circumstances prescribed for the purposes of this paragraph.
- (3) Subsection (4) also applies if an agreement that is a concessional farm-in transaction is varied so as to increase the interest in a relevant mining tenement, or in a relevant derivative mining right, that the farmee is to acquire, or might acquire, as contemplated in section 91M(1)(c)(i) or (d), except that subsection (4) does not apply in any of the following circumstances —
- (a) subsection (1) applies as a result of the variation;
 - (b) as the case requires —
 - (i) the farmee is not the holder, or 1 of the holders, of the relevant mining tenement when the variation occurs; or

- (ii) the Commissioner is satisfied that, when the variation occurs, the farmee is not the holder, or 1 of the holders, of the relevant derivative mining right;
 - (c) any circumstances prescribed for the purposes of this paragraph.
- (4) The agreement is taken not to be a concessional farm-in transaction to the extent that the agreement relates to —
 - (a) the relevant mining tenement or relevant derivative mining right that is added; or
 - (b) the increase in the interest in the relevant mining tenement or relevant derivative mining right.
- (5) Regulations may prescribe circumstances in which, if an agreement that is a concessional farm-in transaction is varied, the agreement —
 - (a) ceases to be a concessional farm-in transaction; or
 - (b) is taken not to be a concessional farm-in transaction to a prescribed extent.
- (6) Subsections (7) to (10) apply if, at any time (the **relevant time**), under this section or under regulations made for the purposes of subsection (5) —
 - (a) an agreement ceases to be a concessional farm-in transaction; or
 - (b) an agreement is taken not to be a concessional farm-in transaction to an extent.
- (7) If, as the agreement stands at the relevant time, the agreement gives effect to, or evidences, a dutiable transaction that is not a concessional farm-in transaction —
 - (a) duty is chargeable on the dutiable transaction as if the dutiable transaction had occurred at the relevant time; and

- (b) the other provisions of this Act apply accordingly.
- (8) If subsection (7) applies because of subsection (6)(b), the reference in subsection (7) to the agreement is to the agreement to the extent that it is taken not to be a concessional farm-in transaction.
- (9) The ceasing of the agreement to be a concessional farm-in transaction, or the taking of the agreement not to be a concessional farm-in transaction to an extent, does not affect any liability for duty that arose before the relevant time.
- (10) However, nothing in this section, or in regulations made for the purposes of subsection (5), prevents section 107 from applying to the agreement as a concessional farm-in transaction if the event giving rise to the application of this section or those regulations would, apart from this section or those regulations, cause the agreement to become a cancelled transaction as defined in that section.

Subdivision 5 — Other provisions

[Heading inserted: No. 37 of 2022 s. 8.]

91U. Farm-in transactions relating to prospecting licences

- (1) In this section —
 - non-prospecting interest***, in relation to a farm-in transaction, means —
 - (a) an interest in a non-prospecting mining tenement in a case where the non-prospecting mining tenement is a replacement mining tenement for a relevant mining tenement; or
 - (b) a derivative mining right that relates to a non-prospecting mining tenement in a case where the non-prospecting mining tenement is a replacement mining tenement for a relevant mining tenement; or

- (c) an interest in a derivative mining right in a case where the derivative mining right —
 - (i) is a replacement derivative mining right for a relevant derivative mining right; and
 - (ii) relates to a non-prospecting mining tenement;

non-prospecting mining tenement means a mining tenement that is not a prospecting licence;

prospecting farm-in transaction means a farm-in transaction contained in a farm-in agreement in a case where —

- (a) if only section 91M(1)(a)(i) applies —
 - (i) each relevant mining tenement is a prospecting licence; and
 - (ii) apart from this section, section 91L(4) would not prevent the farm-in transaction from being a concessional farm-in transaction;

or

- (b) if only section 91M(1)(a)(ii) applies —
 - (i) each relevant derivative mining right relates to a mining tenement that is a prospecting licence; and
 - (ii) apart from this section, section 91L(4) would not prevent the farm-in transaction from being a concessional farm-in transaction;

or

- (c) if both section 91M(1)(a)(i) and (ii) apply —
 - (i) each relevant mining tenement is a prospecting licence; and
 - (ii) each relevant derivative mining right relates to a mining tenement that is a prospecting licence; and

- (iii) apart from this section, section 91L(4) would not prevent the farm-in transaction from being a concessional farm-in transaction.
- (2) Section 91DA does not prevent a concessional farm-in transaction from being a dutiable transaction.
- (3) Subject to subsections (6) and (8), a prospecting farm-in transaction is neither a concessional farm-in transaction nor a dutiable transaction.
- (4) Subsection (6) applies to a farm-in transaction that is a prospecting farm-in transaction if a dutiable transaction involving a non-prospecting interest (the ***non-prospecting dutiable transaction***) occurs —
 - (a) under the farm-in transaction as contemplated in section 91M(1)(c) or (d); and
 - (b) without limiting paragraph (a), after the farmee has fulfilled the exploration requirement.
- (5) Subsection (6) also applies to a farm-in transaction that is a prospecting farm-in transaction if —
 - (a) a dutiable transaction involving a non-prospecting interest (the ***non-prospecting dutiable transaction***) occurs; and
 - (b) the non-prospecting dutiable transaction —
 - (i) is in lieu of a transaction that, had it occurred, would have been under the farm-in transaction as contemplated in section 91M(1)(c) or (d); and
 - (ii) would be a transaction under the farm-in transaction as contemplated in section 91M(1)(c) or (d) except only that the non-prospecting dutiable transaction involves a replacement mining tenement for a relevant mining tenement, or a replacement derivative mining right for a relevant derivative mining right, that was not anticipated in the farm-in transaction; and

- (iii) without limiting subparagraphs (i) and (ii), occurs after the farmee has fulfilled the exploration requirement for the farm-in transaction.
- (6) The following apply in relation to the farm-in transaction —
 - (a) the farm-in transaction ceases to be a prospecting farm-in transaction when the non-prospecting dutiable transaction occurs;
 - (b) the farm-in transaction is, and is taken always to have been, a concessional farm-in transaction and, accordingly, a dutiable transaction;
 - (c) liability for duty chargeable on the farm-in transaction arises when the non-prospecting dutiable transaction occurs (despite the item for a concessional farm-in transaction in Schedule 1).
- (7) Subsection (8) applies if, at any time (the **relevant time**), a farm-in transaction that is a prospecting farm-in transaction is varied so as to add —
 - (a) a relevant mining tenement that is a non-prospecting mining tenement; or
 - (b) a relevant derivative mining right that relates to a non-prospecting mining tenement.
- (8) The following apply in relation to the farm-in transaction —
 - (a) the farm-in transaction ceases to be a prospecting farm-in transaction at the relevant time;
 - (b) the farm-in transaction is, and is taken always to have been, a concessional farm-in transaction and, accordingly, a dutiable transaction;
 - (c) liability for duty chargeable on the farm-in transaction arises at the relevant time (despite the item for a concessional farm-in transaction in Schedule 1).

- (9) The Commissioner may reassess the duty chargeable on any dutiable transaction for the purpose of applying subsection (6) or (8) —
 - (a) on the Commissioner's own initiative; or
 - (b) on the application of the taxpayer.
- (10) The limitations as to time in the Taxation Administration Act section 17 do not apply in respect of a reassessment under subsection (9).

[Section 91U inserted: No. 37 of 2022 s. 8.]

91V. Treatment of certain options under farm-in agreements

- (1) Subsection (2) applies if —
 - (a) separately from any concessional farm-in transaction contained in it, a farm-in agreement provides, whether conditionally or not, for the grant to the farmee, after the making of the farm-in agreement, of an option to acquire an interest in —
 - (i) a mining tenement that is a relevant mining tenement for a concessional farm-in transaction contained in the farm-in agreement; or
 - (ii) a derivative mining right that is a relevant derivative mining right for a concessional farm-in transaction contained in the farm-in agreement;
 - and
 - (b) were the option to be granted, the farmee's acquisition of the option on the grant would be a dutiable transaction under section 11(1)(f).
- (2) The option is taken to have been granted, and therefore to have been acquired by the farmee, on the making of the farm-in agreement.

- (3) Duty is not chargeable on the acquisition of an option that is taken to have occurred under subsection (2) if, subsequently, the option will not actually be granted because —
- (a) the time for the grant of the option, as specified in, or determined in accordance with, the farm-in agreement, passes or expires without the option being granted; or
 - (b) the farmor and farmee otherwise agree that the option is not to be granted.
- (4) If subsection (3) applies, the Commissioner must, on the application of the taxpayer, reassess the liability to duty on the acquisition of the option.
- (5) For the purposes of subsection (4), the Taxation Administration Act section 17 applies as if —
- (a) despite subsection (1) of that section, a person is not entitled to apply for a reassessment after the later of the following —
 - (i) 5 years after the day on which the original assessment was made;
 - (ii) 12 months after the day on which the event referred to in subsection (3)(a) or (b) occurred;and
 - (b) despite subsection (4) of that section, the Commissioner may only make a reassessment on an application if the application was made within that time.

[Section 91V inserted: No. 37 of 2022 s. 8.]

91W. Derivative mining right granted for purposes of exploration requirement for farm-in transaction

Duty is not chargeable on a dutiable transaction that is the acquisition of a derivative mining right if —

- (a) the person who acquires the derivative mining right is the farmee under a farm-in agreement; and

- (b) the derivative mining right authorises mining only for the purpose of fulfilling the exploration requirement for a concessional farm-in transaction contained in the farm-in agreement; and
- (c) there is not, and will not be, any consideration for the dutiable transaction.

Division 10 — Help to Buy arrangements

[Heading inserted: No. 22 of 2025 s. 16.]

91X. Transactions involving property to which Help to Buy arrangement relates

For the purposes of assessing duty chargeable under this Chapter, including the application of Part 6, any beneficial interest that Housing Australia or the Commonwealth has in dutiable property under a Help to Buy arrangement is to be disregarded.

[Section 91X inserted: No. 22 of 2025 s. 16.]

Part 6 — Exemptions, nominal duty and concessions

Division 1 — Exemptions

Subdivision 1 — Exemptions for public and governmental purposes

92. Public authorities, declaration of as exempt bodies

- (1) The Minister may declare a public authority to be an exempt body for the purposes of this Subdivision.

Note for this subsection:

There are other exempt bodies. See the definition of **exempt body** in section 3.

- (2) The Minister may withdraw a declaration made under subsection (1).
- (3) The Minister is to publish notice of the making or withdrawal of a declaration in the *Gazette*.

93. Transactions for which exempt body would be solely liable

Duty is not chargeable on a dutiable transaction to which an exempt body is a party if the exempt body is the only party that would be liable to pay duty that would, but for this section, be chargeable on the transaction.

94. Transactions for which exempt body and another party would be liable, duty reduction for etc.

- (1) This section applies to a dutiable transaction to which an exempt body is a party if —
 - (a) the exempt body would, apart from subsection (2), be liable to pay duty chargeable on the transaction; and
 - (b) at least one other party to the transaction is liable to pay duty chargeable on the transaction and is not an exempt body.
- (2) The exempt body is not liable to pay duty on the transaction.
- (3) The amount of duty payable on the transaction (AD) is the amount determined under the formula —

~~$$AD = TD - (TD \times EI)$$~~

$$AD = TD - (TD \times EI)$$

where —

TD is the amount of duty that would be payable on the transaction if this section did not apply to it;

EI is —

- (a) if the interest in the dutiable property that the exempt body has under the transaction is of a kind that enables the proportion which that interest bears to the whole of

the dutiable property to be ascertained — that proportion expressed as a percentage; or

- (b) in any other case — a percentage determined by the Commissioner to represent the proportion which the interest in the dutiable property that the exempt body has under the transaction bears to the whole of the dutiable property.
- (4) The amount of duty payable by any party referred to in subsection (1)(b) is the amount AD determined under subsection (3).

Note for this section:

For example, an exempt body and another party acquire dutiable property as tenants in common. The exempt body acquires 40 of 100 undivided shares and the other party acquires 60 of 100 undivided shares. But for this section the transfer duty chargeable on the transaction would be \$3 000. Under the operation of this section the amount of duty payable on the transaction is calculated as follows:

$$\begin{aligned} & \cancel{\$3\,000 - \left(\$3\,000 \times \frac{40}{100} \right) = \$3\,000 - \$1\,200 = \$1\,800} \\ & \$3\,000 - \left(\$3\,000 \times \frac{40}{100} \right) = \$3\,000 - \$1\,200 = \$1\,800 \end{aligned}$$

This amount (i.e. \$1 800) is the amount of transfer duty payable by the other party.

95. Transactions for charitable etc. purposes

- (1) Duty is not chargeable on a dutiable transaction that has been entered into or occurred for charitable or similar public purposes.
- (2) However, subsection (1) does not apply if the person liable to pay duty on the dutiable transaction is a relevant body, or is related to a relevant body as referred to in subsection (3), unless a beneficial body determination is in force for the purposes of this Act in respect of the relevant body.
- (3) A person liable to pay duty on a dutiable transaction is related to a relevant body if —

- [Section 95 amended: No. 8 of 2015 s. 5.]*

96A. What is a relevant body

A reference to a relevant body is to any of the following —

- (b) an industrial association;
- (c) a professional association;
- (d) a body, other than a body referred to in paragraph (a), (b), (c) or (e), that promotes trade, industry or commerce, unless the main purposes of the body are charitable purposes that fall within the first 3 categories (being relief of poverty, advancement of education and advancement of religion) identified by Lord Macnaghten in *Commissioners for Special Purposes of Income Tax v Pemsel* [1891] AC 531 as developed by the common law of Australia from time to time;
- (e) a body that is a member of a class of bodies prescribed for the purposes of this paragraph;

[Section 96A inserted: No. 8 of 2015 s. 6.]

96B. Application for a beneficial body determination

- (1) An application may be made to the Minister for a determination under section 96C that a relevant body is a beneficial body for the purposes of the taxation Acts if —
 - (a) the Commissioner has decided (the **decision**) that —
 - (i) a dutiable transaction is not an exempt transaction under section 95; or
 - (ii) an acquisition is not exempt under section 168(3) because the transfer referred to in that section would not be an exempt transaction under section 95;
 - and
 - (b) that decision is made solely on the ground that the person liable to pay duty on the dutiable transaction, or who would be liable to pay duty on the transfer, is —
 - (i) a relevant body referred to in section 96A(c), (d), (e) or (f); or
 - (ii) related to such a relevant body as referred to in section 95(3).
- (2) An application referred to in subsection (1) can be made only if —
 - (a) an objection was made to the decision and the objection and any subsequent review proceedings are exhausted, discontinued or finally determined; or

- (b) under the Taxation Administration Act section 34B —
 - (i) all rights of objection or review conferred by that Act in respect of the decision have been surrendered; or
 - (ii) an objection to the decision has been determined and all rights to take review proceedings on the Commissioner's decision on the objection have been surrendered.
- (3) However, an application referred to in subsection (1) cannot be made if the decision was made, or confirmed, on a reassessment made on an application made by the taxpayer —
 - (a) under the Taxation Administration Act section 16(2)(b); and
 - (b) after the right to object to the original assessment had expired.
- (4) An application referred to in subsection (1) must be made within 60 days after subsection (2) first applies in respect of the decision.

[Section 96B inserted: No. 8 of 2015 s. 6; amended: No. 12 of 2019 s. 35.]

96C. Beneficial body determination

- (1) On an application under section 96B the Minister, with the Treasurer's concurrence, may determine that a relevant body is a beneficial body for the purposes of the taxation Acts.
- (2) The Minister, with the Treasurer's concurrence, may amend or revoke a beneficial body determination.
- (3) The Minister may make, amend or revoke a beneficial body determination only if the Minister is of the opinion that it is in the public interest to do so and after considering any information that the Minister considers relevant.

- (4) The Minister must —
 - (a) provide written reasons to the applicant for a decision in relation to an application under section 96B; and
 - (b) provide written reasons for a decision to amend or revoke a beneficial body determination to the body in respect of which the determination is made.
- (5) The Minister is to publish notice of the making, amendment or revocation of a beneficial body determination in the *Gazette*.
- (6) A beneficial body determination is subject to the conditions specified in the determination (if any).
- (7) A beneficial body determination made under this section comes into force —
 - (a) for the purposes of this Act — on the day on which the determination is made; and
 - (b) for the purposes of the *Land Tax Assessment Act 2002* and the *Pay-roll Tax Assessment Act 2002* — on the day specified in the notice in respect of each Act.
- (8) Despite subsection (7)(a), a beneficial body determination made under this section applies in relation to the relevant body in respect of —
 - (a) the dutiable transaction, or acquisition, that is the subject of the application under section 96B (the ***original transaction***); and
 - (b) any other transaction —
 - (i) that was entered into or occurred after the original transaction but before the determination was made; and
 - (ii) on which duty would not have been chargeable under section 95 (including for the purposes of section 168) had the determination been in force for the purposes of this Act in respect of the relevant body.

- (9) The Commissioner is to reassess the liability to duty of each transaction in respect of which a beneficial body determination applies under subsection (8).
- (10) The limitations as to time in the Taxation Administration Act section 17 do not apply in respect of a reassessment under subsection (9).
- (11) A beneficial body determination continues in force until the day on which notice of the revocation is published in the *Gazette*, and different days may be specified for each Act in respect of which the determination is in force.

- (b) the trustee of the discretionary trust has an interest in an entity if the trust property is or includes the interest; and
- (c) the percentage of the interest that the entity immediately above the trustee of the discretionary trust in the ownership chain has in the trustee of the discretionary trust is taken to be —
 - (i) a 100% interest; or
 - (ii) if the Commissioner decides in a particular case that the operation of subparagraph (i) would be inequitable — an interest of some other percentage, or no interest, as determined by the Commissioner.

154. Calculating interest in entity

- (1) In this section —
person includes an entity.
- (2) This section applies where it is necessary for the purposes of this Chapter to calculate the interest of a person (the **relevant person**) in a landholder or other entity.
- (3) This section does not apply where section 153A(c) or 153B(c) applies.
- (4) The interest is to be first calculated as if the landholder or other entity were wound up without regard to the notional exercise of the powers and discretions referred to in subsection (5).
- (5) The interest is to be then calculated as if the landholder or other entity were wound up and as if each interested person had

exercised all powers and discretions exercisable by the person —

- (a) to effect or compel an alteration to the constitution of the landholder or other entity; and
- (b) to vary the rights attached to units or shares in the landholder or other entity; and
- (c) to effect or compel the substitution or replacement of units or shares in the landholder or other entity with other units or shares in it,

in such a manner as would maximise the value of the relevant person's interest.

- (6) The reference in subsection (5) to an interested person is —
 - (a) to the relevant person; and
 - (b) if the relevant person is a unit trust scheme, to the trustee of the scheme; and
 - (c) to any person that the relevant person or a person referred to in paragraph (b) has power to direct with respect to a distribution; and
 - (d) where the calculation is required in order to determine the extent of a relevant person's interest for the purposes of section 163, to a related person under section 162 in respect of the relevant person or a person referred to in paragraph (b).
- (7) The relevant person's interest is the greater of the interest calculated under subsection (4) and the interest calculated under subsection (5).
- (8) If the calculation under subsection (5) results in the greater interest the Commissioner may, after considering the circumstances of the case, determine that —
 - (a) the application of subsection (7) would be inequitable; and

- (b) the relevant person's interest is that calculated under subsection (4).

[Section 154 amended: No. 12 of 2019 s. 63.]

154A. Calculating total direct or indirect interest in entity

- (1) This section applies where it is necessary in relation to an acquisition of an interest in an entity (the **main entity**) to calculate the total direct or indirect interest that one entity (a **higher entity**) has in another entity (a **lower entity**).
- (2) A higher entity has a direct or indirect interest in a lower entity if there are 1 or more ownership chains between the higher entity and the lower entity.
- (3) An ownership chain exists if —
 - (a) the higher entity has an interest as defined in whichever of section 153, 153A or 153B is applicable (a **direct interest**) in the lower entity; or
 - (b) there is a series of at least 3 entities, starting with the higher entity and ending with the lower entity, each of which successively has a direct interest in the next.
- (4) The percentage of the interest that a higher entity has in a lower entity through a particular ownership chain is —
 - (a) for an ownership chain referred to in subsection (3)(a) — the percentage of the higher entity's direct interest in the lower entity calculated under whichever of section 153A(c), 153B(c) or 154 is applicable; or
 - (b) for an ownership chain referred to in subsection (3)(b) — the percentage calculated by multiplying the percentage of the higher entity's direct interest in the entity immediately below it in the ownership chain by the percentage of the direct interest that each entity in the ownership chain between the

higher entity and the lower entity has in the entity immediately below it in the ownership chain.

- (5) The percentage of the total direct or indirect interest that a higher entity has in a lower entity is the aggregate of the percentage interests calculated under subsection (4) for each ownership chain between the higher entity and the lower entity.

[Section 154A inserted: No. 12 of 2019 s. 64.]

154B. Determining interest in entity: uncompleted agreements

In determining the interest that an entity has in another entity for the purposes of section 154A, 156, or 156A —

- (a) if the entity has entered into an agreement to acquire an interest in the other entity, the agreement is to be regarded as having been completed even if it has not yet been completed; and
- (b) if the entity has entered into an agreement to dispose of an interest in the other entity but the agreement has not yet been completed, the agreement is to be disregarded.

- (3) A linkage chain exists if a series of entities starting with the main entity are successively linked to one another.
- (4) An entity is linked to another entity if —
 - (a) where the other entity is a listed corporation or a listed unit trust scheme — it has an interest in the other entity of at least 90%; or

 - (b) a further acquisition of an interest in the landholder occurs within 5 years after the day on which the first acquisition occurred; and
 - (c) at the time when the further acquisition occurs the landholder, or a linked entity in respect of the landholder, is using solely or dominantly in the business of primary production any of the land assets to which it was entitled when the first acquisition occurred; and
 - (d) in the opinion of the Commissioner the further acquisition is by way of a transfer of an interest, or part of an interest, in the landholder that was acquired under the first acquisition.
- (2) The further acquisition is not exempt under section 171 even if it comes within the provisions of that section.

[Section 174 amended: No. 12 of 2019 s. 79.]

Part 6 — Collection of landholder duty

Division 1 — Preliminary

175. Term used: acquirer

In this Part —

acquirer means a person that acquires an interest in a landholder by a relevant acquisition and, if there is more than one, each of them.

176. When acquisition occurs

- (1) In making an assessment of duty in relation to an acquisition of an interest in an entity, the time when that acquisition occurs is,

for the purposes of this Chapter but subject to section 173(4)(c) and 204G, to be determined under this section.

- (2) If an agreement is made for the making of the acquisition, whether conditional or not, and subsection (3) does not apply to the agreement —
- (a) the acquisition is taken to occur when the agreement is made; and
 - (b) until the agreement is completed, the interests of persons in the entity are to be determined for the purposes of this Chapter as if the agreement had been completed.

Notes for this subsection:

1. Section 195C provides for the assessment of duty if an agreement referred to in this subsection is terminated before the assessment is made.
2. Section 196 provides for the reassessment of duty if an agreement referred to in this subsection is terminated after an assessment of duty is made.

- (3) If there is an agreement for the making of the acquisition, whether conditional or not, and the entity concerned is not a landholder when the agreement is made but is a landholder when the agreement is completed, the acquisition occurs when the agreement is completed.

- (3A) If the acquisition results from a merger of corporations in accordance with section 160A, the acquisition occurs when the merger is completed.

- (4) If subsections (2), (3) and (3A) do not apply, the acquisition occurs when the interest to which it relates is acquired.

[Section 176 amended: No. 32 of 2012 s. 15; No. 1 of 2015 s. 26; No. 12 of 2019 s. 80.]

177. Certain transactions to be treated as agreements

- (1) In this section and in section 178 —
call option, put option and ***simultaneous put and call option***
have the meanings those terms would have under section 44 if

references in that section to dutiable property were references to a relevant interest;

relevant interest means an interest in a landholder or other entity.

- (2) For the purposes of sections 154B and 176, where a simultaneous put and call option that applies to a relevant interest comes into existence —
- (a) subject to section 178, the call option is taken to be an agreement for the making of an acquisition of the relevant interest by the holder of the call option rights; and
 - (b) paragraph (a) applies even if the call option is assigned as mentioned in subsection (3).
- (3) If, in respect of a simultaneous put and call option that applies to a relevant interest —
- (a) the call option has been assigned to another person so that the other person has a right to require the sale of the relevant interest —
 - (i) to the other person; or
 - (ii) to a person that has an agreement, arrangement or understanding with the other person relating to the interest;and
 - (b) the put option obligations have passed to any person referred to in paragraph (a),

the assignment of the call option to the other person is taken, for the purposes of section 176, to be an agreement for the acquisition of the relevant interest by that person.

- (4) If subsection (3) applies, subsection (2) does not apply to the right referred to in subsection (3)(a) or the rights under the put option referred to in subsection (3)(b).

Note for this section:

1. Sections 195B and 195C provide for the assessment of duty if a deemed agreement is not completed.
2. Sections 195 and 196 provide for the reassessment of duty if a deemed agreement is not completed.

[Section 177 amended: No. 12 of 2019 s. 81.]

178. Exceptions to s. 177

- (1) In this section —
proprietor of a business means a person that has an interest in a landholder or other entity that carries on a business.
- (2) It is an exception to section 177(2) if the call option and the put option are for, and only for, the purpose of obtaining finance or making other financial arrangements.
- (3) It is also an exception to section 177(2) if the call option and the put option form part of a scheme of call options and put options given by the proprietors of a business that —
- (a) are for, and only for, the purpose of facilitating the continuation of the business by one or some of those proprietors (the ***continuing proprietor or proprietors***); and
 - (b) are not exercisable except on the occurrence of an event specified in them that would cause the continuing proprietor or proprietors to seek to acquire the interest of another of the proprietors.

Division 2 — Liability

179. Who is liable to pay duty

- (1) The duty chargeable in respect of a relevant acquisition is payable by the person or persons determined under subsection (2) in relation to the acquisition.
- (2) The following persons are jointly and severally liable to pay duty chargeable in respect of a relevant acquisition of an interest in a landholder —
 - (a) in every case, the acquirer;
 - (b) if the landholder is a corporation, the corporation;
 - (c) if the landholder is a unit trust scheme, the trustee of the scheme;
 - (d) any person that is a related person in respect of the acquirer and has an interest in the landholder immediately after the relevant acquisition, other than a person whose interest in the landholder is, for the purpose of calculating the duty, an excluded interest under section 189.
- (3) To the extent that a person referred to in subsection (2)(b), (c) or (d) has paid the duty chargeable in respect of a relevant acquisition the person may recover the amount of duty paid from the acquirer concerned, or if there is more than one from any of them, as a debt due to the person.

[Section 179 amended: No. 32 of 2012 s. 16; No. 12 of 2019 s. 82.]

180. Application to Commissioner for determination of liability

- (1) A person mentioned in subsection (2) may, within 2 months after the day on which an acquisition of an interest in an entity occurs, apply to the Commissioner for a determination whether any liability has arisen under this Chapter in respect of the acquisition.

- (2) The persons that may apply are —
- (a) any person that by the acquisition acquires an interest in the entity; or
 - (b) any person that is a related person in respect of a person referred to in paragraph (a) and has an interest in the entity immediately after the acquisition; or
 - (c) if the entity is a corporation, the corporation; or
 - (d) if the entity is a unit trust scheme, the trustee of the scheme.
- (3) An application under subsection (1) must be made in the approved form.
- (4) Where an application is made under subsection (1) —
- (a) the Commissioner is to make the requested determination; and
 - (b) any liability of a person under section 200 in respect of the acquisition ceases unless it is revived under section 182(5),

but the obligation imposed by paragraph (a) is qualified so far as it is inconsistent with the exercise of a power conferred on the Commissioner by section 182(1) or (4).

[Section 180 amended: No. 12 of 2019 s. 83.]

181. Determination of s. 180 application

- (1) If, on an application under section 180, the Commissioner determines that liability has not arisen under section 151 in respect of the acquisition in question, the Commissioner is to give notice of that determination to the applicant.
- (2) If, on an application under section 180, the Commissioner determines that liability has arisen under section 151 in respect of the acquisition in question, the Commissioner is to issue an assessment notice under the Taxation Administration Act section 23 in respect of the acquisition.

182. Powers of Commissioner where further information required for determination of s. 180 application

- (1) If on an application under section 180 further information or evidence is necessary for the making of a determination, the Commissioner may —
- (a) defer the making of a determination; and
 - (b) by written notice require the applicant to provide further information or evidence to the Commissioner within a specified period,

and the Commissioner may exercise those powers as often as the Commissioner thinks fit until all necessary information and evidence have been provided.

- (2) The Commissioner may at any time extend the period specified in a notice under subsection (1)(b).
- (3) The powers of the Commissioner under subsection (1) are in addition to, and do not limit, the powers that the Commissioner has under the Taxation Administration Act to obtain information or carry out an investigation.
- (4) If —
- (a) the Commissioner has under subsection (1) required the applicant to provide further information or evidence; and
 - (b) the Commissioner considers that the applicant has not within the required period provided the information or evidence,

the Commissioner is to give the applicant written notice of that opinion and of the effect of subsection (5).

- (5) If the Commissioner gives notice under subsection (4) —
- (a) section 180(4)(a) does not apply; and

- (b) any liability that ceased under section 180(4)(b) is revived as if the application under section 180(1) had never been made.

Division 3 — Payment of landholder duty

183. When landholder duty must be paid

- (1) Liability to pay the duty chargeable in respect of a relevant acquisition arises when the relevant acquisition occurs.
- (2) The duty is due for payment within one month after the date of an assessment notice issued in relation to an assessment of the duty.

Division 4 — Rates of landholder duty

184. Rates of landholder duty

- (1) Duty is chargeable at the general rate of duty set out in Schedule 2.
- (2) For the purposes of subsection (1) the value referred to in section 188(1) or 189(1), as the case may require, is taken to be the dutiable value.

[Section 184 amended: No. 32 of 2012 s. 17.]

Division 5 — Calculation of landholder duty

185. References to interest of acquirer in landholder

A reference in this Division to the interest of the acquirer in a landholder after a relevant acquisition is to the aggregated interests, immediately after the relevant acquisition, of —

- (a) the acquirer; and
- (b) each person that is a related person in respect of the acquirer and has an interest in the landholder.

[Section 185 amended: No. 12 of 2019 s. 84.]

186. Value of landholder

- (1) For the purposes of calculating duty in respect of a relevant acquisition the value of a landholder is taken to be the sum of —
- (a) the unencumbered value of the land assets, chattels, or land assets and chattels, in Western Australia (whichever is relevant) to which the landholder is entitled; and
 - (b) the same percentage of the unencumbered value of the land assets, chattels, or land assets and chattels, in Western Australia (whichever is relevant) to which any linked entity in respect of the landholder is entitled as the percentage of the landholder's total direct or indirect interest in the linked entity calculated under section 154A.

[(2A) deleted]

- (2) Except where section 187 applies, the entitlements referred to in subsection (1) are to be those that exist immediately after the relevant acquisition.

[Section 186 amended: No. 32 of 2012 s. 18; No. 12 of 2019 s. 85.]

187. Determining value of further interest for duty calculation

- (1) This section applies where —
- (a) it is necessary to determine the value of an interest of an acquirer in a landholder after a relevant acquisition for the purposes of section 188(3) or 189(3); and
 - (b) the relevant acquisition concerned is of a further interest in either —
 - (i) a listed landholder; or
 - (ii) a landholder that is not listed but was previously listed and in which, at a time when it was listed,

the interest of the acquirer was not less than a 90% interest.

- (2) The value is to be determined —
- (a) as if the further interest was acquired at the same time as the interest of the acquirer became not less than a 90% interest in the landholder concerned; and
 - (b) on the basis of the value of the landholder at that time.

[Section 187 amended: No. 32 of 2012 s. 19; No. 12 of 2019 s. 86.]

188. Calculating duty payable

- (1) To calculate the amount of duty payable in respect of a relevant acquisition an amount is first calculated by applying the appropriate rate of duty under section 184(1) to the value of the interest of the acquirer in the landholder immediately after the relevant acquisition and then, if applicable, a reduction is made under section 189.
- (2) The resulting amount is the duty payable in respect of the relevant acquisition.
- (3) The value of the interest referred to in subsection (1) is the same percentage of the value of the landholder as the percentage of the interest of the acquirer in the landholder after the relevant acquisition.

[Section 188 amended: No. 32 of 2012 s. 20.]

189. Reduction for s. 188

- (1) The amount calculated under section 188(1) is to be reduced by an amount determined by applying the appropriate rate of duty under section 184(1) to the value of the excluded interest or the sum of the values of each excluded interest.
- (2) An excluded interest is an interest of the acquirer in the landholder concerned after the relevant acquisition referred to in

section 188, other than the interest acquired by that relevant acquisition, that is —

- (a) an interest, other than one which cannot be excluded because of subsection (4), that was held by the person or a related person, or by the person and a related person, before the day that is 3 years before the day on which the relevant acquisition occurred; or
 - (b) an interest acquired by a relevant acquisition that occurred on or after the day first referred to in paragraph (a) if duty was chargeable in respect of that acquisition; or
 - (c) an interest in the landholder concerned acquired by an acquisition if immediately before the acquisition neither the landholder nor a linked entity in respect of the landholder was entitled to land assets in Western Australia.
- (3) The value of an excluded interest is the same percentage of the value of the landholder concerned as the percentage of all interests in the landholder that is represented by the excluded interest.
- (4) An interest in the landholder acquired by an acquisition (the **earlier acquisition**) cannot be excluded under subsection (2)(a) if the relevant acquisition in respect of which duty is to be calculated under section 188(1) —
- (a) is described in section 163(1)(a) or (b); and
 - (b) was made under an arrangement entered into during the prescribed period in respect of the earlier acquisition.
- (5) The reference in subsection (4) to the prescribed period in respect of the earlier acquisition is to the period beginning on the day that is 3 years before the day on which the earlier acquisition occurred and ending on the day that is 3 years after the day on which the earlier acquisition occurred.

- (6) Despite subsections (4) and (5), an interest that was held by the person or a related person, or by the person and a related person, before 1 July 2008 (the **earlier acquisition**) is an excluded interest unless the relevant acquisition in respect of which duty is to be calculated under section 188(1) was made pursuant to an arrangement entered into —
- (a) during the prescribed period in respect of the earlier acquisition; and
 - (b) in the opinion of the Commissioner, for a purpose of avoiding or reducing the amount of duty payable.

[Section 189 inserted: No. 32 of 2012 s. 21; amended: No. 32 of 2012 s. 22; No. 12 of 2019 s. 87.]

[190-192. Deleted: No. 32 of 2012 s. 21.]

193. Calculation of duty where statement lodged under s. 201

- (1) This section applies to the calculation of duty if a statement is lodged under section 201(6) in respect of a relevant acquisition referred to in section 163(1)(c) or (d) that occurred during a period (a **relevant period**) provided for by an approval under section 201(2).
- (2) The Commissioner is not required to make a separate calculation under this Division of duty in respect of each relevant acquisition that occurred during the relevant period.
- (3) Instead, the Commissioner may calculate the duty under this Division in respect of all relevant acquisitions that occurred during the relevant period as if all such acquisitions had been made by a single relevant acquisition that occurred at the end of the relevant period.

[Section 193 amended: No. 12 of 2019 s. 88.]

194. Calculation of duty on certain acquisitions on winding up of corporation or unit trust scheme

- (1) Despite anything else in this Division, duty is to be calculated under this section in respect of a relevant acquisition by a person of an interest in a landholder if the acquisition —
- (a) occurs in the circumstances referred to in subsection (2); and
 - (b) is not exempt under section 167 because the effect of the acquisition is that the person receives a benefit in excess of the person's entitlement.

Note for this subsection:

The combined operation of sections 29(4) and 167 will make the acquisition exempt if the value of the person's benefit is not in excess of the person's entitlement.

- (2) The circumstances referred to are that —
- (a) the relevant acquisition occurs as a result of a transfer of shares in a corporation or units in a unit trust scheme by —
 - (i) the liquidator of a corporation in the course of a distribution of its assets as a consequence of the winding up of the corporation; or
 - (ii) the trustee of a unit trust scheme in the course of the winding up of the scheme;and
 - (b) the person concerned is —
 - (i) a shareholder in the corporation; or
 - (ii) a unit holder in the unit trust scheme,that is being wound up; and
 - (c) the Commissioner is satisfied that the winding up is not a scheme or arrangement, or part of a scheme or arrangement, for which a dominant purpose of any party is the reduction of the duty otherwise payable.

- (3) The amount of duty payable in respect of the relevant acquisition is an amount that bears to the amount of duty that would otherwise be calculated under this Division in respect of the acquisition the same proportion as the value of the benefit received by the person in excess of the person's entitlement bears to the value of all the assets distributed or to be distributed to the person as a consequence of the winding up.
- (4) For the purposes of this section —
- (a) a shareholder in a corporation receives a benefit in excess of the shareholder's entitlement if the value, when the winding up begins, of all the assets distributed or to be distributed to the shareholder (the ***distributed value***) exceeds the value at that time of the shareholder's entitlement to the net assets of the corporation (the ***entitlement value***); and
 - (b) a unit holder in a unit trust scheme receives a benefit in excess of the unit holder's entitlement if the value, when the winding up begins, of all the assets distributed or to be distributed to the unit holder (also the ***distributed value***) exceeds the value at that time of the unit holder's entitlement to the net assets held by the trustee of the unit trust scheme as trustee of that trust (also the ***entitlement value***).
- (5) For the purpose of calculating duty under subsection (3), the value of a benefit received by a shareholder or unit holder in excess of the person's entitlement is the greater of —
- (a) the amount by which the distributed value exceeds the entitlement value in relation to the person; and
 - (b) the amount that is the total of —
 - (i) any amount owing to the shareholder or unit holder that the shareholder or unit holder has, in the relevant period, released the corporation or the trustee of the unit trust scheme from paying; and

- (ii) the amount of any liability that the shareholder or unit holder, or a person related to the shareholder or unit holder, has, in the relevant period, assumed or discharged on behalf of the corporation or the trustee of the unit trust scheme.

- (6) In subsection (5)(b) —

person related, to a shareholder or unit holder, means that the person and the shareholder or unit holder are related persons within the meaning of section 162(1)(a) to (g);

relevant period means the period beginning on the day that is 12 months before the day on which the winding up begins and ending on the day on which the relevant acquisition occurs.

- (7A) For the purposes of subsection (5)(b)(ii), the Commissioner may exclude part or all of the amount of any liability that a person related to a shareholder or unit holder, as the case requires, has assumed or discharged if the Commissioner is satisfied that it is appropriate to do so having regard to the application of subsection (5) to all relevant acquisitions occurring as a consequence of the winding up.

- (7) Section 29(6), (7) and (8) apply for the purposes of subsection (2)(c) as if —

- (a) a reference to the property were a reference to the shares or the units, as the case may require; and
- (b) a reference to the duty chargeable were a reference to the duty payable in respect of the relevant acquisition.

[Section 194² amended: No. 29 of 2012 s. 5.]

Division 6A — Interim assessment of landholder duty

[Heading inserted: No. 10 of 2013 s. 6.]

195A. Interim assessment of landholder duty

- (1) The Commissioner may make an assessment (an ***interim assessment***) of a portion of the duty payable in respect of a relevant acquisition if —
- (a) the Commissioner is satisfied that duty is payable in respect of the relevant acquisition; and
 - (b) one of the following applies —
 - (i) more than 6 months have elapsed since the day on which an acquisition statement or agreement for the relevant acquisition was lodged or an application was made under section 180 in relation to the relevant acquisition;
 - (ii) more than 6 months have elapsed since the day on which an acquisition statement or agreement for the relevant acquisition ought to have been lodged;
 - (iii) the Commissioner is satisfied that it will not be possible to obtain the information necessary to determine the value of the landholder within the 6 months referred to in subparagraph (ii);
- and
- (c) the Commissioner is satisfied that a portion of the value of the landholder can be determined.
- (2) For the purposes of subsection (1)(b)(ii), the day on which an acquisition statement or agreement ought to have been lodged is the last day of the period within which the statement or agreement must be lodged under section 200, 201 or 202 (whichever is relevant).

- (3) For the purpose of being satisfied of the matter in subsection (1)(c), the Commissioner may have regard to any information that the Commissioner considers relevant, including the following —
 - (a) the value, as agreed between the Commissioner and the taxpayer, of anything;
 - (b) the consideration (if any) given for the relevant acquisition;
 - (c) any evidence, whether provided by the taxpayer or obtained by the Commissioner, of the value of anything;
 - (d) any document or other record kept by or on behalf of a party to the relevant acquisition;
 - (e) any information held by a regulatory authority in the State, another Australian jurisdiction or an overseas jurisdiction;
 - (f) any information that is publicly available.
- (4) For the purposes of making an interim assessment, the duty payable is to be determined as if the portion of the value of the landholder were the full value of the landholder.
- (5) The Commissioner can make a determination of a portion of the value of a landholder for the purposes of making an interim assessment even though the Commissioner has ascertained —
 - (a) the value of only some of the land assets or chattels to which section 186(1) applies; or
 - (b) only a portion of the value of particular land assets or chattels to which section 186(1) applies.

[Section 195A inserted: No. 10 of 2013 s. 6; amended: No. 12 of 2019 s. 89.]

**Division 6 — Assessment or reassessment of liability for
landholder duty if uncompleted agreements terminated or
completed**

[Heading inserted: No. 12 of 2019 s. 90.]

**195B. Assessment of duty where s. 149(1) or 154B applied at
acquisition time**

- (1) Subsection (2) applies if —
- (a) at the time an acquisition (the **main acquisition**) of an interest in an entity (the **main entity**) occurs —
 - (i) there is an agreement to which section 149(1)(a) applies in determining the entitlement to land assets, chattels, or land assets and chattels, of the main entity or a linked entity in respect of the main entity; or
 - (ii) there is an agreement to which section 154B(a) applies in determining the interest that the main entity, or a linked entity in respect of the main entity, has in another entity;
- and
- (b) after the main acquisition occurs but before an assessment is made in relation to the main acquisition, the agreement has been rescinded, annulled or otherwise terminated without being completed.
- (2) Section 149(1)(a) or 154B(a) (whichever is relevant) applies to the agreement for the purposes of making an assessment in relation to the main acquisition despite the rescission, annulment or other termination of the agreement, unless the Commissioner is satisfied that the rescission, annulment or other termination of the agreement was not part of a scheme or arrangement under which the object of the agreement has been or may be achieved in another way.

- (3) Subsection (4) applies if —
- (a) at the time an acquisition (the **main acquisition**) of an interest in an entity (the **main entity**) occurs —
 - (i) there is an agreement to which section 149(1)(b) applies in determining the entitlement to land assets, chattels, or land assets and chattels, of the main entity or a linked entity in respect of the main entity; or
 - (ii) there is an agreement to which section 154B(b) applies in determining the interest that the main entity, or a linked entity in respect of the main entity, has in another entity;
 - and
 - (b) after the main acquisition occurs but before an assessment is made in relation to the main acquisition, the agreement is completed.
- (4) Despite section 149(1)(b) or 154B(b) (whichever is relevant), the agreement is not to be disregarded for the purposes of making an assessment in relation to the main acquisition.

[Section 195B inserted: No. 12 of 2019 s. 91.]

195C. Assessment of duty where s. 176(2) applied at acquisition time

- (1) This section applies if —
- (a) under section 176(2), an acquisition is taken to occur when the agreement for the acquisition is made; and
 - (b) after the agreement is made but before an assessment is made in relation to the acquisition, the agreement has been rescinded, annulled or otherwise terminated without being completed.
- (2) Section 176(2) applies to the terminated agreement, despite the rescission, annulment or other termination of the agreement, unless the Commissioner is satisfied that the rescission,

annulment or other termination of the agreement was not part of a scheme or arrangement under which the object of the agreement has been or may be achieved in another way.

- (3) If the Commissioner is satisfied as described in subsection (2), section 176(2) ceases to apply to the terminated agreement.

[Section 195C inserted: No. 12 of 2019 s. 91.]

195. Reassessment of duty where s. 149(1) or 154B applied

- (1) A reassessment of duty in respect of a relevant acquisition is required if —
- (a) for the purposes of an assessment —
 - (i) an agreement to acquire an interest in land assets, chattels, or land assets and chattels has, under section 149(1)(a), been regarded as having been completed; or
 - (ii) an agreement to acquire an interest in an entity has, under section 154B(a), been regarded as having been completed;
 - and
 - (b) since that determination the agreement has been rescinded, annulled or otherwise terminated without being completed; and
 - (c) had the agreement not been regarded as having been completed —
 - (i) the liability for duty in respect of the relevant acquisition would not have arisen; or
 - (ii) the amount of the duty payable would have been less.

- (2) A reassessment of duty in respect of a relevant acquisition is also required if —
- (a) for the purposes of an assessment —
 - (i) an agreement to dispose of an interest in land assets, chattels, or land assets and chattels has, under section 149(1)(b), been disregarded; or
 - (ii) an agreement to dispose of an interest in an entity has, under section 154B(b), been disregarded;
 - and
 - (b) since that determination the agreement has been completed; and
 - (c) had the agreement not been disregarded —
 - (i) the liability for duty in respect of the relevant acquisition would not have arisen; or
 - (ii) the amount of the duty payable would have been less.
- (3) On application made by a person that has paid or is liable to pay the duty, the Commissioner is to make a reassessment of the duty —
- (a) if subsection (1) applies — disregarding the agreement referred to in that subsection; or
 - (b) if subsection (2) applies — having regard to the agreement referred to in that subsection.

[Section 195 amended: No. 1 of 2015 s. 27; No. 12 of 2019 s. 92.]

196. Reassessment of duty where s. 176(2) applied

- (1) A reassessment of duty in respect of a relevant acquisition is required if —
- (a) an assessment of duty is made on an acquisition that, under section 176(2), is taken to have occurred when the agreement for the acquisition was made; and
 - (b) since that assessment, the agreement has been rescinded, annulled or otherwise terminated without being completed; and
 - (c) had the acquisition not been taken to have occurred when the agreement for the acquisition was made as mentioned in paragraph (a), the liability for duty in respect of the relevant acquisition would not have arisen.
- (2) On application made by a person that has paid or is liable to pay the duty, if subsection (1) applies, the Commissioner is to make a reassessment of the duty disregarding that terminated agreement.
- (3) Section 176(2) does not apply to a terminated agreement for the purposes of a reassessment required under subsection (1).

[Section 196 inserted: No. 12 of 2019 s. 93.]

197. Condition precedent to reassessment under s. 195 or 196

Despite section 195(3)(a) or 196(2), the Commissioner is not to make a reassessment of the duty under that provision unless the Commissioner is also satisfied that the rescission, annulment or other termination of the agreement was not part of a scheme or arrangement under which the object of the agreement has been or may be achieved in another way.

[Section 197 amended: No. 12 of 2019 s. 94.]

197A. Expired put and call options taken to be terminated

- (1) In this section —
